Te Herenga Waka—Victoria University of Wellington has been awarded an overall five-stars-plus rating in the QS Stars university rating system, one of only 17 universities worldwide to do so. The University gained a total score of 966 out of a possible 1,000 points across eight audited categories, including maximum points for the employability

and inclusiveness categories. Maximum points were awarded for 25 of the more than 30 indicators, including overall student satisfaction; further study; graduate employment rate; international diversity, support, and collaborations; academic reputation; satisfaction with teaching; campus facilities; accreditations; art and cultural investment and facilities; disabled access; scholarships and bursaries; low-income outreach; and student cohort diversity.

IMPORTANT NOTICE: Te Herenga Waka—Victoria University of Wellington uses all reasonable skill and care to ensure the information contained in this document is accurate at the time of being made available. However, matters covered by this document are subject to change due to a continuous process of review and to unanticipated circumstances, including those caused by COVID-19. TOHU PAETAHI ARONUI

BACHELOR OF ARTS

A BROAD BASE OF KNOWLEDGE

The Bachelor of Arts (BA) at Te Herenga Waka—Victoria University of Wellington is distinctive in New Zealand. We intentionally offer extraordinary choice in your first year across the humanities and social sciences, languages and cultures, and the creative arts, allowing you to discover your passions and develop a truly broad base of learning.

LEARN FROM THE BEST

The University is ranked in the top 1 percent worldwide for Arts and Humanities by the QS World University Rankings, and number one in research quality in New Zealand across a broad range of BA subjects by the Performance-Based Research Fund. Our staff are nationally and internationally renowned scholars who are imaginative and passionate teachers.

PREPARE FOR THE FUTURE OF WORK

The job market is an ever-changing environment, due to factors such as advances in digital technology and changing demographics. Ensure you can adapt by gaining the skills that are valuable in any workplace—develop your creativity, flexibility, and imagination, while learning how to think critically and present an argument. You'll also develop research skills and learn to communicate complex ideas in both speech and writing.

MAKE CAREER CONNECTIONS

During your degree, you will also have the opportunity to enhance your career prospects with a range of curricular and extracurricular opportunities. Our location in New Zealand's capital and our connections with Wellington's dynamic pool of employers provide unrivalled opportunities to build your future.

“Our Bachelor of Arts is innovative within New Zealand; it encourages you to explore up to three BA major subjects in your first year, enabling you to develop a truly broad base of learning and discover your passions. No matter what subject you choose to specialise in, the education and experience you gain in our BA will be an outstanding platform for your career and contributions to our community.”

Professor Sarah Leggott

Dean, Te Wāhanga Aronui—Wellington Faculty of Humanities and Social Sciences

DEGREE STRUCTURE

Our BA takes three years of full-time study and you will take courses worth 360 points in total.

MAJOR

A major is the main subject you'll focus on in your degree. In the BA, you can take up to three majors in your first year. Each major will make up at least a third of the courses in your degree. Each subject area has specific courses you need to take to meet the requirements of the major.

MINOR

A minor is another area of study you want to focus on in addition to your major but with fewer courses. Choosing to study a minor is optional. A minor is made up of at least 60 points from the relevant subject area at 200 level or above. At least 15 of those points must be at 300 level and not counted towards a major or another minor. You may select up to two minors in any undergraduate subject area offered by the University for the Bachelor of Arts, Bachelor of Architectural Studies, Bachelor of Commerce, Bachelor of Communication, Bachelor of Design Innovation, Bachelor of Health, Bachelor of Music, and Bachelor of Science.

ELECTIVE

Alongside your major(s) and any minors, you will also have room to take courses in other subjects you are interested in. These are often called electives.

SAMPLE DEGREE STRUCTURES

A major in one subject and minors in two subjects

YEAR 1		YEAR 2		YEAR 3	
Trimester 1	Trimester 2	Trimester 1	Trimester 2	Trimester 1	Trimester 2
Major course (20 points)	Major course (20 points)	Major course (20 points)	Major course (20 points)	Major course (20 points)	Major course (20 points)
First minor course (20 points)	Second minor course (20 points)	First minor course (20 points)	Major course (20 points)	First minor course (20 points)	Second minor course (20 points)
Elective course (20 points)	Elective course (20 points)	First minor course (20 points)	Second minor course (20 points)	Second minor course (20 points)	Elective course (20 points)
60 points	60 points	60 points	60 points	60 points	60 points
120 points		120 points		120 points	

Total points completed: 360

Majors in two subjects

YEAR 1		YEAR 2		YEAR 3	
Trimester 1	Trimester 2	Trimester 1	Trimester 2	Trimester 1	Trimester 2

CAREERS

The job market is changing quickly with the rise of new technologies, increased automation and globalisation, significant environmental concerns, and changing demographics. Future-proof your career with a BA and arm yourself with the transferable skills to allow you to navigate an unpredictable employment market with agility and creativity. These skills include the ability to communicate clearly, to think critically and creatively, to solve problems across a range of domains, to manage your own learning, and to understand the ethics of scholarship, as well as the key concepts within the disciplines studied.

Get your degree in a subject you have a genuine passion for and set yourself on a path to a fulfilling career. Our BA graduates are employed in almost every part of the workforce. Your ability to view things from different perspectives and skills in research and analysis can be applied across many sectors and roles. Among these are aid workers, arts administrators, communication specialists, criminologists, curators, diplomats, historians, journalists, librarians, performers, policy analysts, politicians, publishers, social workers, teachers, translators, and writers.

i www.wgtn.ac.nz/humanities-careers

KEY BA EMPLOYMENT FACTS

- ▶ As a BA graduate, you will earn \$1 million more over your working life than a non-graduate (Universities New Zealand, September 2018).
- ▶ The skills you gain by studying for a BA are the most sought after by employers. These include skills in communication, problem-solving and decision-making, resilience, self-management, teamwork, and willingness to learn (Careers New Zealand).
- ▶ Three years after graduating with a BA, 92 percent are either employed or undertaking further study (Careers New Zealand Key Information Set for Students, 2018).
- ▶ You will be earning above the national median for salary and wage earners (Universities New Zealand, September 2018).

i www.wgtn.ac.nz/careers

“Since I completed my degree, I have been fortunate enough to work in theatre spaces across New Zealand in different capacities, but mostly as an actor. My degree really helped me in my career by connecting me with great industry artists and reinvigorating my drive for performing onstage. It opened my eyes to aspects of theatre I would have never considered, including playwriting from a Pasifika perspective, which is something I will never take for granted.”

Sepe Mua’au

Graduate, Bachelor of Arts
Theatre maker, actor, and playwright

ENHANCE YOUR CAREER PROSPECTS

During your BA, you will have the opportunity to enhance your career prospects with a range of targeted curricular and extracurricular opportunities. Our location in New Zealand's capital and our connections with Wellington's dynamic pool of employers provide unrivalled opportunities to build your future.

FHSS 302 INTERNSHIP

In the FHSS Internship course, you will get the opportunity to put your skills, knowledge, and interests into action on work-based projects, and acquire practical work experience while gaining course credit towards your degree. This course will enable you to expand your horizons and engage in meaningful collaborations with various organisations in the Wellington region such as the Council for International Development, the Ministry of Education, the Museum of New Zealand Te Papa Tongarewa, NZ on Screen, Radio New Zealand, and many more.

i www.wgtn.ac.nz/working-ba

POSTGRADUATE PATHWAYS

Increasingly, postgraduate study is becoming the key to gaining employment. Te Herenga Waka—Victoria University of Wellington is one of the country's foremost research institutions, with significant funding from internal and external research sources.

As a postgraduate student at the University, you are able to tap into not only the expertise of our research institutes but also the Crown research institutes and the national, historical, and cultural resources available in Wellington. Our teaching and research programmes present excellent opportunities for student research.

BACHELOR OF ARTS WITH HONOURS

(120 points at 400 level) Build on your undergraduate study in a subject in which you have completed a major. Most include a core research component.

POSTGRADUATE DIPLOMA IN ARTS

(120 points at 400 level) An alternative to Honours, the diploma is intended for students interested in advanced study but not intending to complete a research component.

MASTER OF ARTS

(120 points) A one-year full-time degree, offered across 40 subject areas. Research is a key element; most Master of Arts (MA) programmes are by thesis only. Admission to an MA programme normally requires a BA(Hons) degree with First or Second Class Honours in the same discipline.

MASTER'S BY COURSEWORK

(180 points) These 12-month specialist degrees involve a combination of research and coursework.

Communication, Languages, and Language Teaching

- Master of Applied Linguistics
- Master of Communication
- Master of Intercultural Communication and Applied Translation
- Master of Linguistics
- Master of Teaching English to Speakers of Other Languages (TESOL)

Creative Arts and Heritage

- Master of Fine Arts (Creative Practice) in Design, Film, Music/Sound, or Theatre
- Master of Museum and Heritage Practice
- Master of Music Therapy

Politics and Society

- Master of Criminology
- Master of Indigenous Studies
- Master of International Relations
- Master of Migration Studies
- Master of Political Science
- Master of Philosophy, Politics and Economics
- Master of Strategic Studies

DOCTOR OF PHILOSOPHY

Supervision for research for a Doctor of Philosophy (PhD) is offered in most areas in the Wellington Faculty of Humanities and Social Sciences and is administered by the Faculty of Graduate Research. The PhD thesis is a major piece of original research that demonstrates "the candidate's ability to carry out independent research and constitutes a significant and original contribution to knowledge or understanding" of a field of study. In order to gain admission as a PhD candidate, you will normally need a First Class or Second Class pass in an Honours or Master's degree (or equivalent).

EXPLORE OUR SUBJECTS

We have grouped our BA subjects in three sections: humanities and social sciences, languages and cultures, and the creative arts. There is actually a lot of crossover among these three areas and it is important to note that a BA can combine subjects from any of these areas, as well as some subjects offered by faculties other than the Wellington Faculty of Humanities and Social Sciences (these are marked with an asterisk).

HUMANITIES AND SOCIAL SCIENCES

The humanities and social sciences flourish at Te Herenga Waka—Victoria University of Wellington, where we explore the many facets of the human experience and how we interact as individuals and communities. By studying humanities and social sciences, you'll be challenged to recognise multiple perspectives, deal with ambiguity, and develop flexibility, creativity, imagination, and critical thinking—all attributes employers tell us they value highly. These BA subjects foster leadership, adaptability, communication skills, and problem solving.

Academic and Professional Writing

Research has shown that better writing leads to better thinking and better learning. Develop the writing and research skills you need to succeed at undergraduate and postgraduate levels at university, as well as in your job. Learn how to formulate, organise, and communicate ideas effectively. Take courses in generating, drafting, and revising your writing for a range of purposes and learn how to write well for university, the media, business, and government. (Available only as elective courses.)

 www.wgtn.ac.nz/writing

Art History

We live in a world of images. Art History gives you the tools to navigate this world, exploring the historical, cultural, political, and aesthetic frameworks for understanding visual art and culture. With a focus on the art of the twentieth and twenty-first centuries from Aotearoa New Zealand and the Pacific, Europe, and America, you will gain a critical view of the changing world of art and use this knowledge to make sense of the world today.

 www.wgtn.ac.nz/art-history

Classics

The legacy of the classical world is still with us today, long after the fall of the Roman Empire. Its influence can be seen throughout modern society, from language and the arts to law, politics, religion, and the way people see the world. In Classics, we investigate the art, history, literature, mythology, and society of the ancient Greeks and Romans, their influence on later societies, and the continued relevance of the ancient world in art, literature, politics, and popular culture.

 www.wgtn.ac.nz/classics

Criminology

In Criminology, you study real-world problems of crime and punishment debated in the media every day—from drug law reform to sexual violence prevention. Internationally renowned teachers and researchers will help you see through the many myths about crime so you can view familiar issues in a new light. Criminology is focused not only on problems but solutions and supports students who want to make a difference in the world. Many students go on to become policymakers, campaigners, educators, and frontline workers.

 www.wgtn.ac.nz/criminology

Cultural Anthropology

Cultural Anthropology explores diverse worlds to understand the inherent complexity of human life and to grapple with some of our most urgent contemporary issues. Our classes engage with social transformation, kinship, gender, technology, the environment, ritual, and political and economic life. We are interested in all kinds of ways of being human, seeking to understand the world through the experiences of environmentalists, humanitarians, Indigenous activists, stockbrokers, undocumented migrants, and many others. Learn about the world through the diversities—and similarities—in human experience.

 www.wgtn.ac.nz/anthropology

Data Science*

Study Data Science as part of a BA to develop technical skills in computing technologies, statistics, and mathematics and work with real data sets to develop a practical understanding of data management and analysis using R and Python. You'll assess the ethics of data collection and use, question privacy and security issues, learn about the importance of communicating effectively with data, and gain an overall understanding of the consequences of the data revolution.

 www.wgtn.ac.nz/data-science

Development Studies*

Development Studies can be taken in a BA if you're interested in humanities, sociology, politics, and international relations. Be part of creating a better world. Study poverty and inequality, and the issues behind development, and explore the strategies devised to address them. Look at the ways that societies are changing—economically, socially, and culturally—and at the problems these changes can create. Examine the relationships between people and institutions—from small communities to government agencies and international organisations.

i www.wgtn.ac.nz/development-studies

Economics*

Economics can be taken as part of a BA if you are interested mainly in humanities subjects or social policy. Study how we make decisions about limited resources and how to get the most value out of them. Consider why people choose to do the things they do, and how decisions are made to produce and distribute goods and services.

i www.wgtn.ac.nz/economics-and-finance

Education*

If you are interested in issues such as social justice, challenges facing young people, and our changing world, consider studying Education as part of a BA. Education provides an excellent foundation for a career in many fields including teaching, social policy, youth work, and community services. Education is multidisciplinary and draws on history, philosophy, politics, psychology, and sociology.

i www.wgtn.ac.nz/education

Educational Psychology*

Through studying Educational Psychology as part of a BA, you'll learn how best to help children and young people succeed in life—academically, socially, and emotionally. Understand how children learn and develop using the ideas of behavioural, social, and developmental psychology. You'll also learn about effective assessment and intervention strategies for promoting children's learning and development and for promoting positive behaviour and mental health and wellness. Courses cover a range of educational theories. This interdisciplinary major is offered in conjunction with the School of Psychology in the Wellington Faculty of Science.

i www.wgtn.ac.nz/education

English Literature

Experience literature in English from different cultures and different times. Learn to interpret stories, plays, and poems, and to express your understanding effectively. Explore different genres and find out how a work relates to its time, place, and readers. At the heart of all our courses are the skills of advanced reading and writing; we aim to help you to read with greater attention, appreciation, and enjoyment.

i www.wgtn.ac.nz/english-literature

Gender and Sexuality Studies

Explore the way gender and sexuality structure and shape societies and how this affects our lives. Drawing on a range of theoretical and methodological perspectives, Gender and Sexuality Studies covers topics including sex, gender, and sexuality; gender, language, and storytelling; pornography, sex work, and sexual violence; media, cinema, and representation; gender, ethnicity, and development; feminist, queer, and trans theory; and human reproduction and family life. (Available only as a minor.)

i www.wgtn.ac.nz/sociology

Geography*

Geography can be taken as part of a BA if you are more interested in the social and cultural aspects of geography. Study the relationship between humans and their environment. Examine how human cultures shape the world around them, and investigate the differences between and within different countries. Look at biophysical systems—the way that Earth, oceanic, and atmospheric processes behave—and learn how they interact with one another.

i www.wgtn.ac.nz/geography

History

Understanding the past informs the present, and a deep historical awareness prepares you to be an informed global citizen. The programme looks at historical periods, events, and ideas from Aotearoa New Zealand and around the world and explores how people in different times and places have created the world we live in today. By studying history, you will broaden your cultural awareness while strengthening your analytical and rhetorical skills.

i www.wgtn.ac.nz/history

International Relations

The study of International Relations gives you the tools and insight to understand how power, policies, and ideas shape the world we live in. International Relations takes a critical look at the world and how countries and non-state actors engage with each other. You can explore the political, economic, security, and normative relations among states and other international actors, to better understand the world and our place in it.

i www.wgtn.ac.nz/politics-international-relations

Māori Resource Management

Explore the potential in the rapidly growing Māori asset base and how Māori provide sustainable management of environmental resources such as land, lakes, forests, and fisheries in a time of environmental change. Learn the basics in Māori language and gain the skills to contribute meaningfully to Māori social, economic, and political development.

i www.wgtn.ac.nz/maori

Mathematics*

Mathematics can be taken as part of a BA if your interests are mainly in humanities and social sciences. Explore problem-solving techniques that you can use in several disciplines, including the sciences, and that you can apply in a variety of professions.

i www.wgtn.ac.nz/maths-and-stats

Media Studies

Media Studies lets you engage with one of the primary means by which we know ourselves and our society. Study topics such as advertising, gender and sexuality, news culture, popular music, social and interactive media, or television drama. Explore how media work, media's role in New Zealand and internationally, and how media intertwine with popular culture, politics, identity, and more.

i www.wgtn.ac.nz/media-studies

Philosophy

Investigate reality and the human mind, morality and beauty, the changing relationship between nature and humanity, the structure of logical thought, and the meaning of life—while developing and defending your own views. Combining scientific, analytic, and historical ways of thinking, Philosophy encourages you to ask and to answer life's biggest questions. It addresses foundational questions that apply to a range of disciplines, including Art History, Law, Politics, Psychology, and the sciences. It gives you the skills you need to analyse arguments and build better ones of your own.

i www.wgtn.ac.nz/philosophy

Political Science

Political Science studies the exercise of power and the theories and philosophies at the heart of politics. Examine political ideas from libertarianism to socialism and colonialism to feminism. Learn about the history, development, and structure of New Zealand's political system and enhance your understanding of the nature of power by comparing political systems from all over the world.

i www.wgtn.ac.nz/politics-international-relations

Psychology*

Psychology can be taken as part of a BA if your interests are mainly in the humanities and social sciences. Psychology is the scientific study of the mind—how we process information and what drives our behaviour. Examine social behaviour, emotion, personality, and motivation, and gain insights into why people think, act, and feel the way they do.

i www.wgtn.ac.nz/psyc

Public Policy*

Public Policy can be taken as part of a BA if your interests lie in fields such as the social sciences, politics, development, and the media. Public policy is the set of decisions that shape how a country is run. Explore how governments make these decisions, how the public sector works, the political side of policymaking, and how policies can be improved.

i www.wgtn.ac.nz/public-policy-and-government

Religious Studies

Religious Studies investigates the dynamic and profound impact of religion on diverse contemporary societies. Learn about the growing salience of religion to major political, economic, and ethical questions. Explore diverse faiths and spiritualities, their rituals, identities, beliefs, and practices, and how these inform very different ways of being. Consider the great, enduring questions of humanity, and the ways people live their traditions in today's world.

i www.wgtn.ac.nz/religious-studies

Social Policy

Social Policy takes a focused look at the needs and wellbeing of the population and how governments and individuals try to solve some of society's key issues. Explore perspectives on Te Tiriti o Waitangi and examine topics such as health inequities, the impacts of neoliberalism on social policy, poverty alleviation, social inequality, and structural racism. (Available only as a minor.)

i www.wgtn.ac.nz/public-policy-and-government

Sociology

Sociology is the study of social life, ranging from everyday interactions and lived experiences through to global historical processes. Critically analyse how such social forces as capitalism, colonialism, human-induced climate change, patriarchy, racism, and social movements structure the world. Reflect on how these forces contribute to your sense of self and relationships with others. Envisage how you can contribute to positive social transformation.

i www.wgtn.ac.nz/sociology

*Subject offered by another faculty.

“Living and studying in Wellington is vibrant, and personal growth and expression come easily when you explore what both the University and the city have to offer.

“Majoring in History has given me access to uncover life in its rawest form, which has turned assignments from course requirements into passion projects. I am truly grateful for how accomplished the lecturers have been throughout my university experience, as the passion they hold for what they teach is contagious.”

Alisha Gilchrist

Student, Bachelor of Arts in History

LANGUAGES AND CULTURES

The BA's language and culture programmes will support you to master a different language, learn about other cultures, and develop a more profound understanding of your own culture and language. Gain a global perspective and a competitive edge in the international job market. Our language courses cater for everyone from complete beginners to students who have a background in the language.

Asian Studies

Asia is the wellspring of many of the world's most enduring and richest civilisations. An understanding of Asia has become vital, especially within the context of New Zealand's future in the Asia-Pacific region. Asian Studies is a multidisciplinary programme incorporating such diverse fields as Development Studies, International Relations, Music, and Marketing.

 www.wgtn.ac.nz/asian-studies

Chinese / 中文

Knowledge of Chinese language and culture offers access to a major global civilisation and countries with enormous economic and political significance. Immerse yourself in Chinese language, literature, film, and history. Our goal is to provide you with the language competence and cultural literacy to conduct effective cross-cultural communications in the Chinese-speaking world.

 www.wgtn.ac.nz/chinese

French / Français

Discover the beauties of the French language and gain access to a variety of French-speaking cultures— from Canada, Cameroon, Guadeloupe, Haiti, Morocco, New Caledonia, Senegal, and Tahiti—as well as 'la belle' France. New Zealand's trade connections with these countries and the use of French in international organisations makes it a valuable global language.

 www.wgtn.ac.nz/french

German / Deutsch

German is the first language of 100 million people living in the economic powerhouse of Europe. New Zealand and Germany have working relationships in science, business, politics, and the arts, so knowledge of German can qualify you for a range of careers, especially in tourism, marketing, and international business.

 www.wgtn.ac.nz/german

Greek / Ἑλληνική

Ancient Greek is the language of some of the greatest philosophers, politicians, poets, and playwrights the world has ever known. The language still underlies many of the words we use every day. Take a journey back to the European origins of modern civilisation—a sure path to becoming a truly global citizen.

 www.wgtn.ac.nz/greek

Italian / Italiano

We are one of only two New Zealand universities offering Italian, an influential language of music and literature, art, and cinema. Beautiful and expressive, it's the language of Dante's poetry, high fashion, classical opera, and internationally famous cuisine. Italy is one of the world's leading economies and home to the highest number of World Heritage Sites of any country. Our teaching will give you an understanding of this diverse and fascinating culture.

 www.wgtn.ac.nz/italian

Japanese / 日本語

Japan has had a profound influence on the world in science, technology, fashion, and popular culture, and New Zealand's ties with the country make knowledge of its language and culture a valuable asset. From your first hiragana to advanced projects on culture and society, you will learn about Japan in a journey that will take you from the past to the future.

 www.wgtn.ac.nz/japanese

Latin / Latīna

Latin was the language of the Roman Empire and a major language of the medieval world. Still prominent today in law and medicine, Latin also underlies everyday words in various modern languages. Gain an appreciation for Roman history, literature, and philosophy through the works of great writers such as Cicero, Virgil, and Augustine.

i www.wgtn.ac.nz/latin

Linguistics

Linguistics is the scientific study of language. Linguists investigate speech sounds, grammatical structures, meaning, and use across the world's more than 6,000 languages. As a student of Linguistics, you will apply scientific methods and critical thinking in learning about the structure, function, and evolution of natural language, and how it shapes, and is shaped by, thought, society, and the world around us. As a Linguistics graduate, you can take your career in any number of interesting directions, such as communication roles in the government and business sectors, data science, dictionary editing, language teaching, linguistic and discourse research, policy advice, software design, or voice-recognition software design.

i www.wgtn.ac.nz/linguistics

Māori Studies

Prepare yourself to make a positive contribution to Māori development. Gain a foundation in Māori language and culture, take part in cultural practices, and examine the relationships between Māori and other cultures. A strong knowledge of Māori culture, combined with te reo Māori communication skills, is a valuable package for every global citizen.

i www.wgtn.ac.nz/maori-studies

Modern Language Studies

Modern Language Studies combines study of a modern language (from a wide choice of offerings: Chinese, French, German, Italian, Japanese, Sāmoan, Spanish, and Te Reo Māori) with courses from the University's world-class Linguistics programme. Students not only gain in-depth knowledge of another language and culture but also gain a comprehensive understanding of how languages work. The transferable skills acquired through this degree help graduates succeed in many careers that require excellent communication and a global outlook, such as interpreting, language teaching, tourism, trade, and many more.

 www.wgtn.ac.nz/linguistics

New Zealand Sign Language

New Zealand Sign Language (NZSL) is the preferred language of New Zealand's Deaf community, and one of our official languages. Learn how to communicate in a visual modality and find out how NZSL is at the heart of a unique community and culture. Skills in NZSL are relevant to careers in interpreting, education, psychology, human rights, disability, and other human services.

 www.wgtn.ac.nz/sign-language

Pacific Studies

Explore some of the many diverse histories, cultures, and heritages of the largest geographical region on the planet, the Pacific. Get an introduction to the work of leading Pasifika thinkers, political leaders, and artists, and examine the impacts of imperialism and colonialism. Support the development of Pasifika communities in New Zealand, the Pacific, and the world. Learn an Indigenous or introduced language of the Pacific—French, Māori, or Sāmoan—and engage in meaningful discussions in and for the region.

 www.wgtn.ac.nz/pacific-cultures-and-languages

Sāmoan Studies / Matā'upu Tau Sāmoa

Gain an understanding of New Zealand's Sāmoan population and our Pacific Island neighbourhood through studying the language, society, and culture of Sāmoa. Explore the way cultural beliefs, ceremonies, and daily life shape the Sāmoan language. Ours is the only university in New Zealand where you can major in Sāmoan Studies.

 www.wgtn.ac.nz/samoan

Spanish / Castellano

Spanish is the third most widely spoken language, spoken in countries known for their economic potential and rich cultures. Expertise in modern languages has never been more important as New Zealand forges business, cultural, political, and trading ties throughout the world. Spanish is spoken in more than 20 nations, and learning it will give you a head start in a range of careers from tourism and marketing to international business.

 www.wgtn.ac.nz/spanish

Teaching English to Speakers of Other Languages

English is the most commonly spoken and learned second language in the world. Consequently, English-language teaching is in high demand at all levels of education. Our programme will help you develop the skills needed to teach languages, including languages other than English.

 www.wgtn.ac.nz/language-teaching

Te Reo Māori

There is growing national demand for Māori language speakers, particularly in the broadcasting, education, and public sectors. Te Herenga Waka is one of New Zealand's leading universities for Māori research, and your skills in te reo Māori will be matched with an awareness of language revitalisation and competency in linguistic analysis and translation.

 www.wgtn.ac.nz/maori

“Studying for a Bachelor of Arts has helped me think critically and creatively. I’ve developed and changed so much since starting my studies, and I’ve truly discovered how capable I am. A Bachelor of Arts degree is so flexible and there are plenty of opportunities to try new things, which is so much fun.

“Studying in Wellington, right next to the centre of government, has really benefited me while I’m studying Māori Studies and Māori Resource Management. I’ve learnt so much about where I come from and my history through my degree, and I look forward to using my qualification to help my iwi grow.”

Phoebe Sullivan

Student, Bachelor of Arts in Māori Studies and Māori Resource Management

CREATIVE ARTS

There is no better place to immerse yourself in the creative arts than in New Zealand's creative and cultural capital. Explore our subjects that will let you cultivate your creativity while developing critical abilities, theoretical knowledge, and professional skills.

Composition

Explore and develop key techniques and concepts in instrumental/vocal composition. You'll learn from renowned lecturers whose music regularly appears in concerts, festivals, and films worldwide. They'll teach you how to notate your music professionally, write for instruments idiomatically, orchestrate imaginatively, and develop your musical ideas into substantial, coherent works. (Available only as a minor in the BA.)

 www.wgtn.ac.nz/music-subjects

Creative Writing

Develop your voice, imaginative capacity, and literary skills. Our undergraduate Creative Writing courses are available in creative non-fiction, long-form fiction, Māori and Pasifika creative writing, poetry, short fiction, television scriptwriting, world-building, and writing for theatre, as well as a changing programme of summer classes.

Taught in a stimulating workshop environment, Creative Writing courses can contribute to a BA or be included in other degrees, or can be taken independently out of personal interest. (Available only as a minor.)

Film

Explore the historical, cultural, and technological perspectives of cinema in the city that houses Aotearoa New Zealand's film industry. Uncover how cinema entertains us while shaping our views of the world.

The study of Film offers opportunities to interpret narrative, lighting, camera work, editing, and sound; to analyse how cinema represents gender, race, and sexuality; and to consider film's relationship with other media.

Our courses focus on Aotearoa New Zealand, Hollywood, and world cinema, as well as specific genres, new technologies, and low-budget and documentary film-making.

Music

Study Music as part of your BA and explore music from multiple angles, including creative, critical, cultural, historical, and technical. Many courses don't require any prior formal studies in music, including courses in classical music, ethnomusicology, film music, jazz, music technology, and popular music. As a BA student, you can also take Performance courses in Indonesian gamelan and Māori music, giving you the opportunity for cultural exploration through making music.

A BA in Music (where Music is a major) is distinguished from the Bachelor of Music (BMus), in which music is the main focus of study. In a BA in Music, up to half your degree may comprise Music courses, with the other half made up of courses in one or more other subjects.

 www.wgtn.ac.nz/music-subjects

Music Technology

Explore a variety of music technologies, and learn the nuts and bolts of recording, mixing, audio production, electronic music, and coding for sound and music. You can learn how to record film sound and create evocative surround soundscapes, how to record and produce large ensembles such as big bands and orchestras, or how to develop tools and techniques for making live electronic music. (Available only as a minor in the BA.)

i www.wgtn.ac.nz/music-subjects

Performance

Develop your technical and musical ability, and artistic and stylistic insight, in performing instrumental or vocal repertoire. You'll have the opportunity to learn from or work with some of New Zealand's most acclaimed performers and teachers. Study classical, jazz, or other styles of music, including non-Western music. (Available only as a minor in the BA.)

i www.wgtn.ac.nz/music-subjects

Popular Music Studies

Explore and critically engage with local and international popular music and gain a 'big picture' understanding of the social, cultural, theoretical, historical, and political contexts of popular music. Learn about the various audiences, scenes, subcultures, and fans, as well as the new technologies and media, behind the music. Cutting across a number of genres, from rock and pop to hip-hop, electronic dance music, and global music, you'll gain a critical understanding of popular music in local and international contexts, as well as its historical and contemporary significance. (Available only as a minor in the BA.)

Text Technologies

Explore books and printed texts in all their myriad forms—both historical and contemporary—and their influence across cultures and society. See how forms of text have endured and evolved, discover the technology used to create them, and become a maker yourself. Text Technologies is offered as an enhancement or extension to your major, or as an elective in many disciplines. It goes especially well with Communication, Data Science, Design, English and languages, History, Linguistics, Media Studies, Music, and Theatre.

Theatre

Step inside the world of theatre. Learn about what goes on behind the scenes of a theatre production, and how to apply critical and creative thinking to the realm of performance. As the creative capital, Wellington is home to the country's most vibrant theatre community, and the University's Theatre programme is at the centre of it. A BA in Theatre offers opportunities to study and practise acting, directing, scenography, dramaturgy, devised performance, and scriptwriting, as well as explore the theatrical traditions in Aotearoa New Zealand and around the globe.

"I have always loved stories and storytelling. The study of film allows me to explore this visual medium and discover endless ways of telling the stories I want. There is also a hands-on aspect to film and film-making, meaning that I get to work in both a theoretical and practical setting. This university has the best BA and Film programme of all the universities in the country, and being located in the creative capital of Aotearoa, it is the perfect place to explore film production and my creativity."

Georgia Ah Kuoi

Graduate, Bachelor of Arts in Film
Student, Master of Fine Arts
(Creative Practice)
