Date: _____

Further information:

Please provide brief responses (no more than 150 words per essay) to the following items using a separate sheet of paper and attach it to this application.

- a. Describe your qualification for this internship.
Include a copy of your CV, a transcript of your academic grades, information about your statistical analyses experience - both qualitative and quantitative - and specifically what software packages you have used, as well as any other related research experiences that you have had.
- b. Describe the research or workshop activity that you would ideally like to pursue during your internship.
- c. State what you expect to accomplish during the internship, and how this fits in with your career plans and research interests.
- d. Indicate the length of time you would stay at the CACR and within New Zealand, and how many hours/weeks would suit your internship.

Please return the completed form and extra information, together with a copy of your CV to:
