that the Chancellor acknowledged the expertise of university researchers who have been to the fore through the COVID-19 crisis demonstrating the critical role of universities in solving society’s complex problems.

Received: a Council paper from the Secretary to Council dated 25 August 2020 listing Forthcoming Events (document VUWC 20/110).

Noted:

1 that on 12 August 2020 due to four cases of Covid-19 appearing in the community the government moved the Auckland region to alert level 3 lockdown while the rest of the country was moved to alert level 2 which does not allow mass gatherings. Auckland returned to alert level ‘2.5’ as at today and the levels for the country will be reviewed again on 6 September. As a result, due to the proximity of the alert level review to the planned celebrations, the decision was made to cancel the September celebrations for graduates who graduated in absentia at the 4 May Council meeting.
2 that the Chancellor emphasised that he was genuinely keen to re-schedule the celebrations and include affected graduates into the December graduation week. Efforts were underway as far as possible to make this happen.

20.163 WHIRIA PROJECT

Noted:
1. that the Chancellor had agreed to bring this item forward from the confidential agenda (Item 25) for an oral report due to the strong level of interest in the Whiria Project and most of the matters for Council were in the public domain.
2. that this was the first time the Council had formally considered the Whiria Project and it was recognised there was significant attention to this matter from those in attendance and watching the live-stream.
3. that advice and recommendations from the Academic Board had been circulated over the weekend to Council members following the confidential session of the 24 August Academic Board meeting at which the Whiria Project was discussed. The confidential nature of this material was not able to be circulated with the public documentation for the meeting and will be discussed in the confidential session however the advice contained would be acknowledged generally with the public present.
4. that strong concern had been expressed by the Tertiary Education Union and this morning the Whiria Project had featured on Radio New Zealand’s Morning Report with both the Vice-Chancellor and the TEU Branch Co-President Dougal McNeill interviewed.
5. that the Vice-Chancellor advised that at the time the Council confirmed the 2020 Strategic Plan roadmap this included a project involving ‘structure to follow strategy’. Due to the impacts of Covid-19 this was delayed but work started early July with a first phase of high level confidential discussions with some senior staff members. These discussions were based around a confidential discussion document on the Whiria Project which contained high level draft recommendations for consideration and challenge. A final version of the discussion document was shared with all staff on 12 August and at this point a series of face to face and Zoom drop-in meetings commenced.
6. that a significant amount of feedback was received. While some of it was positive, there was criticism of the timing of the project and considerable concern about the suggested dissolution of the University’s schools. It was noted the discussion document had leaked and ended up in the media prior to it being provided to all staff.
7. that the Chair of the Audit and Risk Committee advised that the full Council was in attendance at the 17 August Audit and Risk Committee meeting due to the level of concern expressed via the Council’s staff and student representatives as well as concerns over what was appearing in the media.
8. that a range of views were expressed including that while there was merit in a thoughtful and well-considered review of the academic processes in the University to support the academic mission, the process had been questionable and had resulted in what we see today contributing to staff distrust, the creation of anxiety for staff, concern that now was not the time in the COVID-19 pandemic environment, loss of the goodwill generated by staff’s adaptation to working in varying alert levels, inability for affected
staff to take proper leave during the trimester break due to the stress caused by Whiria and that the concerns of staff have not been heard by the Senior Leadership Team.

9 that the issue of things being taken out of context (e.g. structure follows strategy) to justify what appear to be fully fledged and formed proposals was raised and a concern that information from the Whiria Project would be used to inform future work. Council was reminded that under the Privacy Act you cannot take feedback for one purpose and use it for another unless the individual agrees.

10 that the Vice-Chancellor rejected the assertion that the Senior Leadership Team was not interested in the views of staff as evidenced by the two stage process proposed for the Whiria Project. He emphasised that the original document was a discussion document containing high-level draft recommendations which were stated to be ‘preliminary recommendations offered simply to clarify, challenge and progress our thinking’ and should not be misrepresented as a proposal.

11 that given the feedback the Project would not move to Phase 2 wherein a broad change proposal would have been put to Council.

12 that Council members expressed the importance of empathetic leadership and clear and transparent communication in the current climate of a global pandemic.

13 that with particular regard to media statements, that while there was a line in the Strategic Plan roadmap titled ‘structure follows strategy’ the Whiria Project has not come to Council before and any perceptions on this are incorrect.

14 that the Chancellor acknowledged and thanked the Academic Board for the advice provided during the weekend but as the Project is not proceeding and there will be no recommendations coming to Council regarding the Whiria Project their recommendation to cease the project will not need to be considered.

Action:

15 that all feedback in its unedited form provided in response to the Whiria Project is to be provided in full to Council members.

Resolved: that the oral report and discussion be noted.
