

Short videos of the most useful language teaching techniques

Use this link <https://tinyurl.com/Language-Teaching-Techniques> to watch free videos demonstrating the most useful language teaching techniques. The videos are short and very practical. Written descriptions of the techniques can be found in Nation, P. (2013). *What should every EFL Teacher Know?* Seoul: Compass Learning. This book is also available in electronic form.

The techniques and activities include extensive reading, intensive reading, shared book, speed reading, substitution tables, word card strategies. They also include information about graded readers and finding your learners' vocabulary size. Keep looking at this site because new videos will be added as they are completed.

The videos are freely available for all to use and it is not necessary to seek permission to use them in lectures and in teacher-training courses. It would be good if their source was acknowledged.
