Te Herenga Waka—Victoria University of Wellington is New Zealand’s globally ranked capital city university, holding a unique position and responsibility among New Zealand universities.

The University was founded in 1897 and prominent among the motives for its establishment was the need for the nation’s capital to be supported by a public university. Today, this mandate of civic engagement is viewed in a global context and the University is determined to ensure that local communities benefit from its internationally respected academic excellence.

The vision is to be a world-leading capital city university and one of the great global–civic universities. The University ranks in the top 1 percent of the world’s 18,000 universities for 19 subjects and in the top 2 percent overall.

Its location provides privileged access to political, public sector, legal, diplomatic, and cultural organisations, as well as to the nation’s archived heritage, its cultural taonga. The University also has extensive collaborative and student-exchange links with universities throughout the world, with a particular focus on the Asia–Pacific region.

Victoria University of Wellington is ranked number one among New Zealand universities for intensity of high-quality research.¹ This research excellence enriches its teaching with cutting-edge knowledge and huge enthusiasm for subject matter.

The University has 10 faculties, of which eight conduct teaching and research: Architecture and Design Innovation; Business and Government; Education; Engineering; Health; Humanities and Social Sciences; Law; and Science. These are divided into schools, many of which are closely aligned with the University’s numerous research centres and institutes. There is also the Wellington Faculty of Graduate Research, and Toihuarewa, a pan-university faculty equivalent, which is a forum for Māori academic issues.

The University operates from several sites. The original Kelburn campus provides the full range of student support and administration offices and is home to the Kelburn Library and the faculties of Education; Engineering; Health; Humanities and Social Sciences; and Science.

The Te Aro campus, in the central city, houses the Wellington Faculty of Architecture and Design Innovation.

The Pipitea campus, located in the centre of Wellington’s legal, government, and business district opposite New Zealand’s Parliament, comprises the Faculty of Law and Wellington School of Business and Government (formerly Victoria Business School).

Other facilities include the Victoria University Coastal Ecology Laboratory, the Miramar Creative Centre in Wellington’s film district, and the Gracefield Innovation Quarter, in Lower Hutt.

The University also has premises in Auckland and teaches internationally, offering commerce, computer science/engineering and science courses in China, Malaysia, and Viet Nam, and postgraduate courses in nursing, midwifery, and health in Sāmoa.

¹ 2018 Performance-Based Research Fund
The University’s 2020 Strategic Plan sets out the following goals for the University.

**Vision**

To be a world-leading capital city university and one of the great global–civic universities.

**Heritage and position**

Founded in 1897 as a civic university in support of Wellington and embedded in a constitutional fabric framed by Te Tiriti o Waitangi. Now positioned as Aotearoa New Zealand’s globally ranked capital city university.

**Values**

Our core ethical values are respect, responsibility, fairness, integrity, and empathy. With, and as, tangata whenua, we value Te Tiriti o Waitangi, rangatiratanga, manaakitanga, kaitiakitanga, whai mātauranga, whanaungatanga, and akoranga.

**Purpose**

Our shared purpose is research, teaching, and engagement that transforms lives.

**Iho and distinctiveness**

We are a global-civic university with our marae at our heart. This iho (essence) is further defined by our heritage and by our tūrangawaewae—in particular Wellington, Aotearoa, and the Asia–Pacific. Our unique attributes stem from our values and our capital city location.

**Strategies**

1. Ambitious research for transformative impact
2. Education preparing students for an extraordinary life
3. Equitable outcomes for all
4. Engagement that deepens relevance, impact, and reputation
5. Belonging to the Asia–Pacific region
6. Transforming the way we work.

The Foundation was established in 1990 as a registered charitable trust. It is registered with Charities Services (registration number CC10288) and listed as a donee organisation by Inland Revenue. Its purpose is to raise funds for projects that the University has identified as priorities but that cannot be funded out of the University’s budget, as well as to receive donations, sponsorships, and bequests for projects identified by donors. Donations are sought from corporate and public sector sponsors, alumni and friends, and community trusts and foundations.

This is a university-wide statute.

3 Definitions
For purposes of this statute, unless otherwise stated, the following definitions shall apply:

4 Statute content and guidelines

4.1 Eligibility for admission as a domestic student
(a) To be admitted to the University as a domestic student, a person must be eligible under one of the following categories:

(i) University Entrance (formerly ‘matriculation’);

(ii) Discretionary Entrance;

(iii) Admission by Qualification Assessment at Entrance Level (also known as Admission ad eundem statum);

(iv) Special Admission;

(v) Personal Interest Admission; or
Admission granted to another New Zealand university, subject to the criteria specified in the Academic Progress Statute.

(b) Admission to the University is normally restricted to persons who have attained the age of 16 by the first day of the trimester in which they wish to enrol. Any person who is under 16 must obtain the permission of the Admission Manager in consultation with the relevant Associate Dean, with the right of appeal to the Convenor of the Academic Committee.

4.2 University Entrance for domestic students

To be eligible for admission under the ‘University Entrance’ category, a student must satisfy the requirements specified by the New Zealand Qualifications Authority:

Any student admitted under this provision who does not, in the following January, meet the University Entrance standard and gain a place in a programme of study at Victoria University of Wellington will be required to withdraw from the University. Students required to withdraw may complete their Trimester 3 courses before doing so, but any courses passed will not be credited to a qualification until the student gains a University Entrance qualification.

4.17 Teaching qualifications

(a) A student wishing to enrol in a teaching qualification leading to provisional registration as a teacher by the Teaching Council of Aotearoa New Zealand must complete the Wellington Faculty of Education’s assessment process, including assessment against the good character and fitness to teach requirements of the Teaching Council of Aotearoa New Zealand. (b) A student may appeal the decision of the Associate Dean in s4.17(a) to the Dean of Education.

(c) A student enrolled in a teaching qualification who subsequently fails to meet the good character and fitness to teach requirements of the Teaching Council of Aotearoa New Zealand may be disenrolled from that qualification by the Dean of Education and excluded from any University course that includes contact with children, schools, or early childhood centres.

(d) The student may appeal the decision of the Dean in s4.17(c) to the Disciplinary Appeals Committee.

4.18 Other programmes involving external placements and internships

(a) A student undertaking a placement or internship may be required to meet any ethical, competence, or character requirements of the organisation providing the placement opportunity or of the relevant professional body.

(c) Where a placement or internship is a compulsory requirement of a programme, and a student fails to meet the requirements in s4.18(a), the Dean may deny the student entry to the relevant qualification, or, if the student is already enrolled in the relevant qualification, disenrol the student from that qualification.

(d) The student may appeal the decision of the Dean in s4.18(b) or (c) to the Disciplinary Appeals Committee.

4.19 Enrolment of a member of the Security Intelligence Service

(a) The proposed attendance of a member of the Government’s Security Intelligence Service shall be discussed by that service with the Vice-Chancellor.

(b) The enrolment of a member of the Service as a student at the University shall be subject to the condition that enquiries into security intelligence matters shall not be carried out by the student in connection with any University activity.

(c) Breach of the condition in s4.19(b) will be regarded as constituting misconduct within the meaning of the Student Conduct Statute.

4.20 Refusal or cancellation of enrolment

(a) In accordance with the Education Act 1989, the University may cancel or refuse to permit the enrolment of a person as a student at the University on the grounds that the person is not of good character; the person has been guilty of misconduct or a breach of discipline; or the person is currently excluded or suspended from another New Zealand university.

Credit Transfer and Recognition of Prior Learning Policy

1 Purpose
This policy governs the credit awarded towards Victoria University of Wellington programmes from courses taken at other tertiary institutions (‘transfer credit’) and credit awarded for informal or uncertificated prior learning (‘RPL credit’) that has been assessed by the University as equivalent to specified Victoria University of Wellington courses. Credit of Victoria University of Wellington courses to more than one Victoria University of Wellington programme (‘cross-credit’) is governed by the statutes for each qualification and the Personal Courses of Study Regulations.

2 Organisational scope
This is a university-wide policy.

3 Definitions
For purposes of this policy, unless otherwise stated, the following definitions shall apply:

Exemption: Exemption from completing a particular degree, major, or prerequisite requirement. An exemption does not imply that credit has been granted for the courses associated with the requirement.

Fully specified credit: Awarded credit that is defined as a specific course code (where the previous study is considered to be equivalent or a superset of that particular Victoria University of Wellington course).

Partially specified credit: Awarded credit that is defined in terms of a subject or faculty code and level (where the previous study is broadly equivalent to material covered in that discipline or faculty at that level, but not equivalent to a specific course).

RPL (recognition of informal prior learning) credit: Credit awarded on the basis of prior learning that occurred outside accredited courses or qualifications. This may include workplace training, marae-based learning or independent learning. RPL credit is always fully specified credit.

Transfer credit: Credit awarded towards a Victoria University of Wellington qualification on the basis of courses previously passed at another tertiary institution.

Unspecified credit: Awarded credit that is defined at a particular level, but does not specify a subject area (where the previous study is broadly equivalent to material at that level, in a subject area that could properly be taught at degree level in a university). Unspecified credit is identified with the ‘subject’ code UNSP.

4 Principles
(a) The award of a qualification must be on the basis that the student has met the full academic requirements of the qualification, irrespective of the extent of any transfer credit or RPL credit.

(b) The award of a Victoria University of Wellington qualification requires that a sufficient proportion of the courses for the qualification has been passed at the University, and that the courses passed at the University include a sufficient number at advanced levels to establish its distinctive character as a Victoria University of Wellington qualification.

(c) Credit should be awarded at the highest level that is consistent with the nature of the previous learning and appropriate for the student’s programme of study at Victoria University of Wellington.
5 Responsibilities
(a) Decisions on the award of transfer credit are made by the Associate Dean (Students) or equivalent in the relevant faculty. The Associate Dean will consult with the relevant Head of School where specified in s8.
(b) Decisions on RPL credit are made by the Associate Dean on the recommendation of the relevant Head of School.
(c) Applicants are responsible for providing acceptable evidence of their prior learning, and any additional materials that may be requested in order to assess its content, level, and value. Credit will not be awarded unless satisfactory information is provided.

6 Learning for which credit may be awarded
6.1 Credit must be based on the original learning
All assessment of transfer credit and RPL credit must be based on the original learning. Transfer credit can only be awarded on the basis of achievement at the institution where the course was originally taken. The awarding of transfer credit for a course by another institution is not sufficient grounds for Victoria University of Wellington to award transfer credit for the same course. Transfer credit cannot be awarded on the basis of RPL credit awarded by another institution.

6.2 Courses passed at another tertiary institution
(a) Transfer credit may be awarded in respect of courses that are:
   (i) available for degree programmes at other New Zealand universities; or
   (ii) registered on the New Zealand Qualifications Framework at Level 5 or above and in a subject which could properly be taught at degree level in a university; or
   (iii) offered by an educational institution and recognised by the Associate Dean as being of equivalent standard to courses in (i) or (ii) of this section.
(b) Transfer credit will not be awarded in respect of courses taken elsewhere when the content is substantially similar to courses passed at Victoria University of Wellington.
(c) Transfer credit will not be awarded for courses passed more than 10 years before the date of application for credit unless the course content is still valid material that could properly be taught as part of a current programme.
(d) Credit will not be awarded for courses passed while the student was suspended from Victoria University of Wellington on academic misconduct grounds.
(e) Credit will not normally be awarded for courses passed while the student was suspended or excluded from any other tertiary institution on academic misconduct grounds.

7 Types of credit that may be awarded at Victoria University of Wellington
7.1 Transfer credit
(a) Transfer credit may be awarded as:
   (i) fully specified credit, that is, a Victoria University of Wellington course identified by subject and course code and usually having the normal point value of that course. Subject to s8, specified credit may be used to satisfy any degree, major, or prerequisite requirement that would be satisfied by the relevant Victoria University of Wellington course; or
   (ii) partially specified credit in a particular subject at a particular level, but not specifying a course code. Subject to s8, partially specified credit may be used to satisfy degree,
major, or prerequisite requirements that would be satisfied by courses with the same subject code and level or degree schedule and level; or

(iii) unspecified credit at a particular level but which does not specify a subject or course code. Unspecified credit may be used to satisfy degree, major, or prerequisite requirements expressed in terms of any points at the same level.

Note: Under the provisions in the Personal Courses of Study Regulations, the Associate Dean may exempt a student from particular degree, major, or prerequisite requirements. Such exemptions may be based on prior learning, and may be in addition to, or instead of, the award of any transfer credit.

(b) Unspecified or partially specified transfer credit may be reassessed if the student seeks an alternative qualification.

7.2 RPL credit

7.2.1 Principles for the award of RPL credit

(a) RPL credit may only be awarded as fully specified credit, normally at 100 level, and is regarded as full Victoria University of Wellington credit in terms of meeting degree, major, or prerequisite requirements.

(b) Credit may only be awarded in courses that have been approved for RPL credit by the Academic Committee in accordance with s7.2.2 below.

(c) Credit may only be awarded for courses currently listed on the schedule to a Victoria University of Wellington qualification.

(d) Credit may only be awarded for prior learning that satisfies the course learning objectives as set out in the relevant course outline. Credit is not awarded purely on the basis of practical experience.

Note: Where a student’s prior experience has adequately prepared them for direct entry to an advanced course or graduate programme, but it is not appropriate to grant RPL credit, this can be dealt with using the provisions in the Personal Courses of Study Regulations, or the entry requirements for individual graduate programmes.

7.2.2 Approval of courses for RPL credit

Any school wishing to be able to award RPL credit for a course must submit an RPL proposal for approval by the relevant faculty board and the Academic Committee. The RPL proposal must include:

(i) the justification for offering RPL credit for the course, which might include information on how students can obtain appropriate learning independently and why there is a demand for RPL credit;

(ii) the criteria under which a candidate is permitted to apply for RPL credit in the course; and

(iii) the assessment process to be used, including a statement on how it ensures the student has met the learning outcomes for the course.

7.2.3 Assessment procedures

The proposed assessment procedure must be fair, valid, and transparent, and must allow determination of whether the applicant’s knowledge, experience, and skills satisfy the course learning objectives.
Typically, assessment involves one or more of:

(i) a challenge examination, where the applicant undertakes the same or equivalent assessment to that of students enrolled in the course; or

(ii) an oral examination, in which the applicant’s knowledge and learning are determined through an interview process. The RPL proposal should include information on the nature of such an interview and the staff who would be involved; or

(iii) a portfolio detailing the relevant experiences of the applicant, identifying the learning achieved in those experiences, and providing supporting evidence such as letters or testimonials from employers or supervisors.

8 Amount of transfer and RPL credit to be awarded

8.1 Limits on credit
Except where different arrangements are specified in the relevant qualification regulations, transfer and RPL credit may be awarded towards Victoria qualifications based on the assessed points value for eligible prior learning up to the limits set out below.

8.2 Undergraduate Bachelor’s degrees
Note: This includes BE(Hons) and LLB(Hons).

8.2.1 Standard provisions for credit transfer
Except as provided in ss8.2.2–8.2.3:

(i) a maximum of 120 points of transfer credit may be awarded towards a Bachelor’s degree;

(ii) transfer credit cannot be used to satisfy the 300-level (or above) degree, major, or minor requirements.

8.2.2 Special circumstances
Further points and/or points at 300 level (or above) towards degree, major, or minor requirements may be credited to a Bachelor’s degree in the following circumstances:

(i) from an approved student exchange programme; and/or

(ii) where specified within a formal articulation or twinning arrangement between the University and another institution; and/or

(iii) in consultation with the Head of School, from one incomplete external qualification that is very similar in structure and content to the Victoria University of Wellington degree; and/or

(iv) in consultation with the Head of School, in other exceptional circumstances.

8.2.3 Minimum Victoria University of Wellington content in undergraduate degrees
(a) In all circumstances, irrespective of any transfer credit or RPL credit, at least 120 points for each Victoria University of Wellington Bachelor’s degree (including those completed within a conjoint degrees programme) must be passed at the University.

(b) Except as provided in s8.2.3(c) the points passed at the University must include:

(i) at least 40 points, or half the minimum degree requirements at 300 level or above if that is more than 40 points; and

(ii) at least half the advanced points (200 level or above) requirements for any major.

(c) For undergraduate Bachelor’s degrees requiring points at 400 level, the points passed at the University must include:
(i) any research project; and
(ii) at least 60 points at 400 level (or above), or the full 400-level (and above) degree requirement if that is less than 60 points; and
(iii) half the minimum 300-level (or above) requirements for any major.

8.3 **Graduate certificates, graduate diplomas, postgraduate certificates and postgraduate diplomas**

Credit may be awarded for up to half the points required for the qualification.

8.4 **Postgraduate Honours degrees**

(a) Normally all courses credited to a postgraduate Honours degree must be undertaken at the University.

(b) In exceptional circumstances and in consultation with the Head of School, the Associate Dean may approve up to 60 points of transfer credit within a postgraduate Honours degree, providing the integrity and cohesiveness of the student’s programme is maintained.

(c) In all circumstances, any research project within a postgraduate Honours degree must be undertaken and passed at the University.

(d) RPL credit must not be awarded towards a postgraduate Honours degree.

8.5 **Master’s degrees (including Master’s degrees that can be awarded with Honours)**

Transfer credit and/or RPL credit may be awarded towards a Master’s degree, providing that in all circumstances at least 120 points, including any thesis or research project worth 60 points or more, is passed at the University.

9 **Appeals**

Any student dissatisfied with the decision of the Associate Dean may apply to have the decision reviewed by the Convenor of the Academic Committee.

**Fees Statute 2020**

1 **Purpose**

The Fees Statute establishes the basis for fee charging and related policies at Victoria University of Wellington (‘the University’). This version of the Fees Statute applies to all enrolments for the 2020 academic year, unless otherwise stated.

2 **Organisational scope**

This is a university-wide statute and applies to all students enrolled at Victoria University of Wellington. The University may from time to time enrol students under a contract with another organisation, in which case some or all of the provisions in this statute will apply, in accordance with that contract. The provisions of this statute apply to all students enrolled in courses taught by the University in conjunction with partner institutions. Any variation from the Fees Statute provisions will be specified in a Fees Schedule that lists the unique provisions that will apply to that particular course or programme.

3 **Definitions**

For purposes of this statute, unless otherwise stated, the following definitions shall apply:
**Distance course:** Courses which provide content and support services to students who are rarely, if ever, required to attend for face-to-face tuition or for on-campus access to educational facilities.

**Distance student:** A student whose entire programme for the academic year is made up of distance courses.

**Domestic student:** A person who is a citizen, resident, or permanent resident of New Zealand, Australia, Cook Islands, Niue, or Tokelau Islands, or a citizen of other countries who is resident in New Zealand as a consequence of assignment to a diplomatic or consular post, and their immediate dependants. (A new letter issued by the Ministry of Foreign Affairs and Trade’s Protocol Division confirming this entitlement to domestic student status must be presented to the Enrolment Office for every year of enrolment.)

*Note: New Zealand permanent residents and citizens of Australia who study extramurally while living outside New Zealand will be treated as international students for the purposes of charging fees. This is a requirement of the Ministry of Education.*

**Internal student:** A student who undertakes some or all of their study on campus.

**International student:** A student who is not defined as a domestic student.

**TEC:** The Tertiary Education Commission, which is responsible for the implementation of the Government’s Free Fees tertiary education initiative.

### 4 Statute content and guidelines

#### 4.1 Basis for charging fees

Students are charged fees based on:

(a) the student’s status as a domestic or international student;

(b) the student’s status as an internal or distance student;

(c) the courses and programmes being undertaken; and

(d) the services provided.

*Note: All fees are inclusive of GST, unless otherwise stated.*

#### 4.2 Notification of fees charged

The University will provide notice of fees, levies, and charges to a student when a charge is made.

#### 4.3 Liability for payment of fees

(a) A student is liable for payment of fees (or for having confirmed their eligibility for TEC to pay fees on their behalf) when they:

(i) accept an Offer of Study, Offer of Place or sign the international enrolment application form;

(ii) are approved for any additional courses or change of course.

(b) Students who do not attend a course in which they have formally accepted a place will be liable for payment of the fees for that course unless the withdrawal procedures as detailed in s4.12 are followed.

#### 4.4 Fee components

The fees charged to a student will include but are not limited to the fees, levies, and charges detailed in this section and associated appendices.
4.4.1  **Tuition fees**

(a) Subject to s4.7, every person enrolling at the University shall pay (or have confirmed their eligibility for TEC to pay on their behalf) the prescribed tuition fee for each course in which they are enrolled.

(b) Tuition fees are calculated based on the number of points assigned to each course. The charge per point for each course is listed in Appendix A (Domestic Tuition Fees) and Appendix B (International Tuition Fees).

4.4.2  **Student Assistance Levy**

This levy is a contribution towards assisting students in financial difficulty who would otherwise be unable to continue their studies.

(a) Every person enrolling at the University as an internal student, or New Zealand-based distance student, excluding incoming exchange students, shall each year at enrolment pay the prescribed Student Assistance Levy.

(b) The charge for the Student Assistance Levy is shown in Appendix C.

4.4.3  **Student Services Levy**

All students studying at the University are required to pay a Student Services Levy, which is a contribution towards student support services delivered by and through the University to support and facilitate the best academic outcomes for all students. The Student Services Levy Policy provides a full list of services. Additional payment may be required to access some goods, services, or amenities.

(a) The Student Services Levy is set according to the Student Services Levy Policy. The Student Services Levy is shown in Appendix C.

(b) Certain categories of students may be exempt from the Student Services Levy or may be entitled to apply for specified rebates, for example:

- (i) students enrolled for fewer than 25 points per year;
- (ii) students enrolled solely in distance courses;
- (iii) students enrolled solely in Trimester 3; and
- (iv) students enrolled in specific programmes as detailed in the Student Services Levy Policy.

(c) The Student Services Levy Policy provides more information, including how to apply for any applicable rebate.

4.4.4  **Administration fees**

The University reserves the right to charge the administration fees as shown in Appendix D to students who apply for the relevant service.

4.4.5  **Course material charges**

Some courses include compulsory course materials charges to cover the provision of items such as study materials, equipment, or field trips. These charges are detailed in the relevant course prospectus.

4.4.6  **Courses requiring an overseas travel component**

(a) A small number of courses are offered by the University at one or more overseas locations. Where course content is delivered at overseas destinations, the costs of travel will not be
included in the fees for the course. Students are responsible for their own travel (including insurance and accommodation) arrangements; however, the school will arrange a group booking through a travel agent, which will be available to all students.

(b) Details of the travel arrangements will be documented in the course description, together with an estimate of the cost. The actual costs will be determined by the travel agent, based upon airfares, destination costs, and exchange rates prevailing at the time of booking. Travel costs for these courses do not qualify for student loans.

4.4.7 Higher doctorate application fee

Refer to Appendix D for higher doctorate application fees.

4.5 Exchange students

(a) Students enrolled in an exchange programme approved by the University will be liable to pay fees at their home institution.

(b) Incoming exchange students will be liable only for course material charges and administration fees at the University.

(c) Victoria University of Wellington students undertaking an exchange programme approved by the University will be charged fees by the University on the following basis:
   (i) 120 points for a full year exchange programme;
   (ii) 60 points for a single-semester or trimester exchange programme;
   (iii) the charge per point for tuition will be set according to the subject and will be one of the rates listed in Appendix A or Appendix B;
   (iv) ancillary fees will be calculated as for an internal student.

4.6 Research students

(a) Research thesis students are charged fees based on the points value of their course, as set forth in appendices A and B.

(b) Fees for research thesis students are based on the minimum time allowed for the thesis registration period. There is no reduction or refund for early completion.

(c) If a student has been granted permission to extend their registration, they will be charged a fee calculated by the points value of the additional months agreed upon and the per-point charges set forth in appendices A and B. The points value for part-time study is half of the points value of an equivalent full-time period of registration.

(d) Fees for extended registration are charged in advance for the entire mutually agreed period.

(e) PhD students required by supervisors to enrol in supplementary courses during the period of provisional registration may do so without paying fees in addition to those imposed above.

4.7 Concessionary fees

(a) From time to time, the University offers concessionary fees. If offered, the concessionary fees provision is available to domestic students who wish to attend lectures for reasons other than working towards a university examination or a professional qualification. Students enrolling on this basis cannot attend practical classes, tutorials, workshops, laboratories, or studios, submit coursework, or sit examinations. No grade or credit will be given to graduates enrolled in courses under this provision.

Note: No concessionary fees programmes are available in 2020.
(b) Domestic secondary school students enrolled at Victoria University of Wellington under the Secondary Tertiary Alignment Resource (STAR) agreement will receive a one third reduction on the advertised tuition fee and levies for that year.

(c) In accordance with delegations given by the University Council, the Vice-Chancellor may vary the fees set out in the appendices to give effect to particular contractual agreements.

4.8 Payment of fees

(a) Payment of all fees is due at the time liability for these is incurred as per s4.3 or by the payment due date shown on the Fees Assessment or Invoice, whichever is the latest. This includes arrangement for payment by Student Loan as per s4.9 or instalments as per s4.10. A late payment penalty will apply where fees are not paid by the due date (refer to Appendix D).

(b) The University reserves the right to introduce a charge to recover credit card transaction fees where payments are made via credit card.

4.9 Student Loans

Student Loans are provided to domestic students by StudyLink (www.studylink.govt.nz). The University acts in accordance with policies and practices promulgated by the New Zealand Government. Any domestic student who applies for a Student Loan remains responsible to take all necessary steps to ensure that payment is made promptly.

4.10 Payment of fees by instalment

(a) Subject to the provisions set out below, any domestic student enrolled in at least two courses in at least two trimesters may request to pay their fees by instalments.

(b) The Director, Student Academic Services (SAS) (or delegate) is responsible for approving requests under clause 4.10 (a). If a request is approved, the Director, SAS (or delegate) will determine the number of instalments, amounts, and payment dates depending on the individual student circumstances. Any decision of the Director, SAS (or delegate) relating to payment of fees by instalment is final and binding and there is no internal appeal process.

(c) Payment cannot be made by instalments where fees are to be paid by Student Loan.

(d) Returning international students who have previously demonstrated a good payment history may elect to pay their fees by instalments. This option is not available to PhD students. The final decision on whether to allow an instalment plan is made by the Manager, Student Finance.

4.11 Failure to pay in full

(a) Any student who fails to pay (either directly or via TEC if they are eligible for Free Fees study) all fees and charges detailed in this statute and appendices, to repay Student Assistance scheme loan advances, or to pay any other charges due and payable to the University may lose their entitlement:

(i) to be issued with an ID card or to have an ID card endorsed;

(ii) to attend lectures, laboratories, or tutorials; to access University buildings and facilities; or to use the University’s Library, ITS Student Computing Services, and Student Services;

(iii) to have a degree conferred, receive grades, receive a transcript or academic certificate, or access any certified digital documents in myeQuals;
(iv) to enrol in any other university course.

(b) The University reserves the right to place fees debts with its appointed debt recovery agency for collection from the student. The University also reserves the right to recover any additional costs in relation to this debt collection from the student.

(c) The University reserves the right to cancel a student’s enrolment in the event of outstanding fees without affecting the student’s liability for payment of the outstanding fees.

(d) The University reserves the right to refuse to re-activate enrolment or to decline an application for enrolment in a subsequent academic year for a student who has been in default of fees even if the outstanding amount has since been paid.

4.12 Withdrawals from courses

(a) A student who completes a withdrawal online or by way of written application through their faculty office, on or before the dates shown in Appendix E, will no longer be liable for the fees associated with that course.

(b) Non-payment of fees, ceasing to attend, or verbally advising a member of staff will not be accepted as notice of withdrawal.

(c) Only in exceptional circumstances will fees be reconsidered if a student withdraws from a course after the dates shown in Appendix E. Any application for a fee reconsideration must be accompanied by suitable documentation that provides both evidence of the exceptional circumstances and supports the date of withdrawal.

(d) An application for a fees reconsideration must normally be submitted by the last day of the official examination period for the trimester in which that course was held. Late applications require justification and are accepted at the discretion of the Director, Student Academic Services (SAS).

(e) Decisions on applications for a fees reconsideration are made by the Manager, Student Finance, who will take into account the views of the relevant Faculty Manager, the Associate Director, SAS, or other staff as appropriate.

(f) A student who considers a fees reconsideration decision to be unfair may appeal that decision. Any appeal must be submitted in writing within four weeks of the notification of the initial decision and must clearly state the grounds for the appeal. Decisions on appeals are made by the Director, SAS, in consultation with the relevant Dean.

(g) Subject to s4.14(f), if a student has given notice of withdrawal from all of their courses after the dates outlined in Appendix E and a full fee reconsideration has been approved, the University will reverse the full tuition fees liable to the student, less $100. A percentage refund of non-tuition fees may be applicable. Note: Detail within the Student Services Levy Policy.

(h) A student enrolled in a PhD or Master’s degree by thesis for six or twelve months, who gives written notice of withdrawal from enrolment within four weeks of having been enrolled, shall cease to be liable for the fees associated with that course.

(i) A student who gives written notice of withdrawal from a supervised individual research paper/project, practicum, dissertation, or similar course, within four weeks of the start date for that course, shall cease to be liable for the fees of that course.

(j) A student enrolled in the CertEnglProf who gives written notice of withdrawal within two weeks of commencement of the programme will receive a full refund of fees less an administration fee (if applicable).
4.13 Refunds

(a) Refunds of fee payments derived from the Student Loan scheme will be credited to StudyLink. Where fee payment has been derived only in part from the Student Loan scheme, refunds will be credited back to StudyLink to the value of the Student Loan payment and any balance then refunded to the student.

(b) Refunds of fee payments derived from a contract will be credited back to the organisation that has set up the contract with the University.

(c) Refunds of fee payments where payment was made by an interested party must be returned to the interested party, or to the student at the interested party’s request.

(d) Refunds will not be made to students if there are fees remaining to be paid for their current academic year or if they have an outstanding debt to the University.

(e) Refunds to individual students during an academic year that total in excess of $1,000 will be subject to an administration fee. The charge is not applicable if a credit results from Free Fees allocation, an approved fees reconsideration, or Student Loan. Any exceptions will be at the discretion of the Manager, Student Finance.

4.14 Additional information for international students

(a) A student enrolled in a trimester-based programme who obtains a residency permit during the course of their study will be considered an international student for the trimester in which residency is granted, unless the residency is granted within the dates prescribed in Appendix E of this statute. The student will be treated as a domestic student from the following trimester.

(b) A student who is enrolled in a programme that is not trimester based and who obtains a residency permit will be given a refund (pro rata) from the week after the date on which residency is granted, as shown in their passport.

(c) An international student who withdraws from the University and transfers to another institution must inform Wellington University International and Student Finance in writing and provide copies of their new Offer documents. The refund of fees will be sent directly to the relevant institution less an international transfer fee (refer Appendix D).

(d) An international student who has not had their tuition payments administered through an external contract is entitled to a full refund of all money that remains in their account after enrolment. This refund, subject to clause 4.13(d), will be granted provided the student has paid their fees in full and holds a valid student visa for the period of study. The monies up to a value of $15,000 per academic year will be paid directly to the student. Any monies to be refunded over and above this amount will be refunded to the originating bank account. Any exceptions will be at the discretion of the Director, SAS or Associate Director (Management and Administration) and Manager, Student Finance, if approval has been delegated.

(e) Subject to subsections (a), (c) and (d) of this section, all refunds will be paid by bank transfer (upon production of appropriate photo identification).

(f) Full refunds will be made pursuant to the relevant clauses of this Statute and in the following circumstances:

(i) the student is unable to take up the offer of admission;

(ii) Immigration New Zealand has declined a student a visa for study in New Zealand;

(iii) a student’s application for a visa extension is declined by Immigration New Zealand; or
(iv) the University is unable to proceed with the course offered.

(g) Should a student completely withdraw or temporarily cease studying at Victoria University of Wellington and seek a refund, they will be required to provide proof that they are no longer on a Victoria University of Wellington student visa prior to their refund being authorised.

(h) Subject to subsections (c) and (f) of this section, international students that have prepaid tuition fees who travel to New Zealand and do not complete their enrolment or who have given notice of withdrawal from all of their courses on or before the dates outlined in Appendix E will receive a 100 percent refund of prepaid tuition fees less an administration fee. The monies will be refunded to the originating bank account.

(i) Students receiving Federal Loans from the US Government for payment of their study at Victoria University of Wellington are subject to special withdrawal and refund procedures and policies. Details are available from Wellington University International.

(j) An international student who is enrolled in a PhD and is resident in New Zealand is charged domestic tuition fees. If such a student does not reside in New Zealand for the agreed proportion of their candidature, they may be charged fees at the rate specified in Appendix B, as for 400- and 500-level courses in their discipline.

Academic Progress Statute

1 Purpose

Victoria University of Wellington (‘the University’) seeks to provide a learning environment designed to help students achieve their fullest academic potential, and to maximise the availability of places for students who actively engage with their studies. Where a student fails to make satisfactory academic progress it is important that provisions are in place to provide appropriate advice and support, and to manage the student’s enrolment. This statute provides a framework for the University to identify students in need of support, and allows the University to restrict the number of courses in which the student may enrol and to require certain conditions to be met for continued enrolment. Where a student completely fails to engage with their studies in a particular trimester, or where there is ongoing unsatisfactory academic performance over a period of time, this statute provides a framework for suspension or exclusion from the University.

2 Organisational scope

This is a university-wide statute.

3 Definitions

For purposes of this statute, unless otherwise stated, the following definitions shall apply:

Standard trimester: Trimester 1 or Trimester 2, but not Trimester 3 (Summer Trimester).

Points undertaken: The total value of all courses in which the student remained enrolled after the dates set out in Appendix E of the Fees Statute (normally the first two weeks of the course).

Academic Progress Grade (APG): A modified version of the GPA calculated as set out in Appendix C of the Assessment Handbook but including a value of 4 for aegrotat passes, 2 for
special passes, and 0 for withdrawals after the dates set out in Appendix E of the Fees Statute. The APG is calculated across all courses undertaken in the relevant trimester(s) of study, weighted by points values.

*Non-engagement:* Enrolment in a course of study without engaging with the course content or attempting to satisfy course requirements. For the purposes of this statute, all students who are enrolled in two or more courses in a standard trimester and achieve E or F grades in all will be considered under the non-engagement provisions. Students who attempt at least half the required assessment in their programme of study will not be considered to be non-engaged.

*Concerning academic progress:* A student whose APG is below 2.0 or who has passed fewer than half their two most recent trimesters of study at this or any other university is considered to have concerning academic progress.

*Unsatisfactory academic progress:* A student whose APG is below 2.0 and has passed fewer than half the points undertaken over their two most recent trimesters of study at this or any other university is considered to have unsatisfactory academic performance.

*Suspension:* A limited period of time, normally three trimesters, when a student is not permitted to enrol at this University.

*Exclusion:* A student who is excluded is not permitted to return to study at this University.

## 4 Statute content and guidelines

### 4.1 Non-engagement

(a) A student who enrolled in two or more courses in their most recent standard trimester and obtained a grade of E or F in all those courses will not be permitted to enrol until after the following standard trimester and, if already enrolled in any courses, will be disenrolled from them.

*Note:* A student who is already enrolled in a Trimester 3 course that has started, and who can demonstrate that they are engaging with the course material, may appeal the decision to the relevant Associate Dean.

(b) Appeals may be made to the relevant Associate Dean, who may permit enrolment with restriction if satisfied that:

(i) the student did engage with their courses and submitted at least half the required assessment in their programme of study; or

(ii) the student’s performance was affected by exceptional medical or personal circumstances.

*Note:* A student whose appeal is successful and is permitted to enrol but who again meets the criteria set out in 4.1(a) will be suspended as set out in 4.3(c).

(c) A student disenrolled or prevented from enrolling under (a) will be restricted in their first trimester back at the University to:

(i) a maximum of 45 points if it is a standard trimester, unless a higher number of points is approved by the Associate Dean; or

(ii) 20 points if it is Trimester 3.
4.2 Restriction

(a) A student whose APG calculated over their two most recent trimesters of study at this or any other university is below 2.0 and/or has passed fewer than half the points undertaken may have their enrolment restricted for their next two trimesters of study.

(i) Concerning academic progress: If the student either has an APG below 2.0 or passed fewer than half the points undertaken, they will normally be automatically restricted to a maximum of 60 points in each of their next two trimesters of study. If either of these is Trimester 3, a normal maximum of 40 points will apply, provided the points are spread evenly across the entire trimester. Appeals may be made to the relevant Associate Dean, who, after reviewing the student’s record, may vary the restriction or impose conditions.

(ii) Unsatisfactory academic progress: If the student has an APG below 2.0 and passed fewer than half the points undertaken, the relevant Associate Dean will normally review the student’s record and impose a restriction and/or conditions, normally a maximum of 45 points in the student’s next standard trimester of study and a maximum of 60 points in the following standard trimester.

Note 1: If the two most recent trimesters of study include a trimester resulting in disenrolment, those two trimesters will both be included in the APG calculation for this section.

Note 2: Associate Deans typically impose conditions that are intended to ensure appropriate support is in place to improve the student’s chances of success. These might include a requirement to attend sessions at Student Learning or regular meetings with an academic mentor.

(b) In determining the restrictions and conditions to apply, the relevant Associate Dean will take into account:

(i) any provisions relating to academic progress in the relevant qualification statute; and

(ii) whether the student was taking courses worth fewer than 60 points over the two-trimester period or if their performance was affected by exceptional medical or personal circumstances.

(c) In the event of an APG less than 2.0 or passing fewer than half the points undertaken in the first trimester under restriction, the Associate Dean may further reduce the maximum points in which the student may enrol for the following trimester.

(d) No restriction will apply in the following trimester for any student who achieves an APG of 2.0 or above and passes at least half the points attempted across their last two trimesters while restricted under s4.1(b) or (c) or s4.2(a).

(e) No restriction under s4.1(c) or s4.2(a) will be applied to a student who is returning to study at the University after a break of at least three years.

4.3 Suspension

(a) On the recommendation of the Associate Dean, a student who is restricted under s4.1(b) or (c) or s4.2(a)(ii) and who again meets the criteria for unsatisfactory academic progress by obtaining an APG of less than 2.0 and passing fewer than half the points undertaken in their next trimester of study may be suspended by the Convenor of the Academic Committee (or nominee) for a period of three trimesters.

(b) A student who is disenrolled under s4.1(a) and who in their first trimester upon returning to study again meets the criteria for disenrolment under s4.1(a) will be suspended for a period of three trimesters.
(c) A student who appeals a disenrolment under s4.1(b) and is permitted to enrol but who in their following trimester of study meets the criteria for disenrolment in s4.1(a) may be suspended for a period of three trimesters.

(d) Any appeal against a suspension must be submitted in writing to the Provost.

4.4 Returning to study after suspension

(a) A student returning to study after suspension under s4.3 will be restricted as set out in s4.2(a)(ii), and may also be subject to any further conditions imposed by the relevant Associate Dean.

(b) A student returning to study after suspension who achieves an APG of 2.0 or above over their next two trimesters of study will not be subject to any further restriction in the following trimester.

(c) A student returning to study after suspension who in their next two trimesters of study again meets the criteria for unsatisfactory academic progress by obtaining an APG of less than 2.0 and passing fewer than half the points undertaken will normally be excluded from the University.

(d) Any appeal against exclusion should be submitted in writing to the Provost.

4.5 Re-enrolment in a course

A student who has failed the same course on two occasions may not enrol again for that course except with the permission of the relevant Associate Dean. Associate Deans may approve further enrolments where:

(a) the student normally performs at a high level; or

(b) the course concerned is a compulsory course for a major or qualification and the student has passed at least half of the other courses for that major or qualification; or

(c) the student’s previous performance in the course was affected by exceptional medical or personal circumstances.

4.2 Submitting an academic grievance (formal process)

(a) Where an allegation of academic disadvantage has not been resolved within a faculty, a student may submit an academic grievance to the University. The academic grievance must be submitted within one year of the decision, advice, or other event that caused the student to consider that they have suffered academic disadvantage.

(b) The academic grievance must be submitted in writing to the Director of the Academic Office. Receipt of the academic grievance will be acknowledged by the Academic Office, normally within 10 working days. Once submitted, an academic grievance may not be expanded to cover matters not originally included.

(c) The academic grievance must state clearly and succinctly the grounds upon which the academic disadvantage is claimed. The submission should contain sufficient, relevant information for the matter to be investigated, including any relevant correspondence with the school or faculty. A brief timeline should be included. The Convenor of the Academic Committee shall consider the academic grievance and may request clarification and/or a summary of the academic grievance from the complainant.

(d) The Academic Office shall forward the academic grievance to the respondent, with a copy to the Dean of the relevant faculty, and request a written response. The written response shall normally be provided within 10 working days.
4.3 **Investigation of the academic grievance**

(a) The Academic Board Grievance Committee (ABGC) is a committee of the Academic Board that has responsibility for the investigation and determination of academic grievances.

(b) The Convenor of the ABGC shall be appointed by the Provost. The Convenor shall normally be a member of the academic staff at professorial level.

(c) The ABGC shall comprise:

(i) the Convenor;

(ii) another academic staff member of the Academic Board; and

(iii) a student member of the Academic Board, or of a committee of the Academic Board.

The Academic Office shall inform the complainant and respondent of the membership of the ABGC.

*Note 1: Members of the ABGC will not normally be recruited from the faculty in which the academic grievance has originated.*

*Note 2: In the case of an academic grievance submitted by a thesis student the student member of the ABGC will normally be a member of the Postgraduate Students’ Association.*

*Note 3: In case of a perceived conflict of interest about membership of the Committee the Convenor of the Academic Committee shall make the final decision on membership.*

(d) The Committee shall follow a procedure which is appropriate to the subject matter of the academic grievance and which protects the rights of the student and any affected staff member or other student.

(e) The Committee shall follow the principles of natural justice.

(f) Where appropriate the Committee shall follow the principles of the Treaty of Waitangi.

(g) In order to ensure its recommendation is based on all available evidence the Committee may request additional information or seek clarification from the complainant, respondent, and/or other University employees.

(h) The Academic Office will forward to the complainant the written response provided by the respondent (refer s4.2(d)). The Academic Office may remove sensitive or personal information relating to staff or other students.

(i) As part of its investigation, the ABGC will normally meet the complainant, the respondent, and relevant other parties. Meetings with the complainant and respondent will be held separately. The complainant or respondent may bring up to two support persons to the meeting, who may speak on their behalf. The Convenor should adjourn the meeting after two hours if in their judgment all relevant points have been addressed. In the event of inappropriate behaviour by any party the Convenor may adjourn the meeting at any time.

(j) Minutes of any meetings held under s4.3(g) will be made available to the complainant and respondent.

(k) The investigation will normally be completed within six months of receipt of the academic grievance. All parties are expected to make their best efforts to complete the academic grievance process within that time frame.

(l) The complainant shall have the right to translation services in te reo Māori or New Zealand Sign Language. Such translation services will, if necessary, be provided at the University’s expense.
4.4 Decision on the academic grievance

(a) Having thoroughly investigated the academic grievance, the ABGC shall prepare a written report that sets out the key issues and decides whether academic disadvantage has occurred. Where the ABGC decides that academic disadvantage has occurred, the report should recommend appropriate actions to address the academic grievance.

(b) The Convenor of the Academic Committee (or delegate) shall inform the complainant and respondent in writing of the ABGC’s decision, with a copy of the report. The decision and report are forwarded to the relevant Dean.

(c) Where appropriate the ABGC may recommend changes to University statutes or policies.

4.5 Submission of an appeal

(a) A complainant or respondent who is dissatisfied with the decision of the ABGC may submit an appeal to the Grievance Appeal Committee.

(b) An appeal must be submitted in writing within 20 working days of the date of the letter notifying the decision on the academic grievance. The Convenor of the Grievance Appeal Committee may extend this period if they are satisfied that there is a good reason. The complainant should indicate in their submission whether they wish to appear in person before the Grievance Appeal Committee.

(c) The appeal must be submitted in writing to the Provost, who will acknowledge receipt of the appeal, normally within 10 working days, together with an outline of the anticipated time frame for the appeal and the membership of the Grievance Appeal Committee. All correspondence on the appeal shall be conducted between the Convenor or nominee and the complainant or nominee. Once submitted, a grievance appeal may not be expanded to cover matters not originally included.

(d) The Grievance Appeal Committee must not allow an appeal unless satisfied that the decision of the Academic Board Grievance Committee:

(i) was unsound because of some material defect in the procedures followed by the Academic Board Grievance Committee; or

(ii) was incorrect on the basis of the information considered by the Academic Board Grievance Committee; or

(iii) has been shown to be incorrect in the light of additional information which, for good reasons, the party appealing was unable to have considered by the Academic Board Grievance Committee.

4.6 Consideration of the appeal

(a) The Convenor of the Grievance Appeal Committee is the Provost or nominee.

(b) The Committee shall comprise the Convenor and a member of Council who is not a student or University staff member.

Note: In case of a perceived conflict of interest about membership of the Committee the Vice-Chancellor shall make the final decision on membership.

(c) The Grievance Appeal Committee shall review the evidence submitted to the Academic Board Grievance Committee, and the decision of that committee, and may request any further evidence that it deems relevant. The Grievance Appeal Committee may request to meet the complainant, the respondent, and relevant other parties.

(d) Any meetings with the complainant and respondent will be held separately. The complainant or respondent may bring up to two support persons to the meeting, who may speak on their
behalf. The Convenor should adjourn the meeting after two hours if in their judgment all relevant points have been addressed. In the event of inappropriate behaviour by any party the Convenor may adjourn the meeting at any time.

4.7 Decision on the appeal

(a) The decision of the Grievance Appeal Committee cannot be appealed further within the University. The Convenor shall inform the complainant and the respondent of the decision in writing. The appeal decision is notified to the relevant Dean and other relevant parties.

Note: Section 4.7(a) does not prevent a student pursuing the matter through an external agency such as the Office of the Ombudsman.

(b) Where appropriate, the Committee may provide recommendations to the Academic Board on changes to University statutes or policies.

- explore issues and solutions to problems through interaction with others; and
- participate in different forms of communication with a wide spectrum of the University community.

The Student Charter was developed by the Academic Office at Victoria University of Wellington in consultation with the Victoria University of Wellington Students’ Association. It was adopted by the University Council on 18 February 2013.

Student Conduct Statute
Note: The full Student Conduct Statute, including appendices, can be found on the University’s website: www.wgtn.ac.nz/policy

1 Purpose
Victoria University of Wellington comprises a partnership of students and staff who work together to develop learning that contributes to the development of the individual and of society.
This partnership involves active membership of a scholarly community that is committed to enquiry and integrity. To support students in achieving this goal, the University community is committed to an environment that fosters overall physical and emotional wellbeing.

As members of this community, students are expected to conduct themselves safely, and in accordance with the University’s core ethical values of respect, responsibility, fairness, integrity, and empathy.

The purpose of this statute is to ensure that fair processes are followed in the event of suspected misconduct and that, wherever possible, the University’s response to misconduct addresses the harm caused and meets the needs of all parties.

2 Organisational scope
This is a university-wide statute.

4 Principles

4.1 The University will address suspected misconduct in a way that safeguards:

(a) the physical and emotional wellbeing of any person affected by suspected misconduct, the student who is suspected of misconduct, and the University community; and

(b) the integrity of the University community.

4.2 The University will manage suspected misconduct in a timely manner and, wherever possible, through:

(a) an informal process at the lowest level appropriate; and
(b) restorative processes that involve the direct participation of affected parties in a facilitated conversation and in consensus-based decision-making on how things may be put right.

4.3 The University is committed to acknowledging the Treaty of Waitangi by working in partnership with Māori. The spirit of tikanga is to seek resolutions to disputes and complaints in a manner that encourages a facilitated open exchange of views, with a view to seeking consensus and acceptance from all parties.

4.4 Students suspected of misconduct will be given a reasonable opportunity to respond to a complaint before any finding of misconduct or decision as to the appropriate consequence occurs.

4.5 Students have the right to translation services. Such translation services will, if necessary, be provided at the University’s expense.

4.6 Students have the right to appeal a finding of misconduct, and/or the penalty imposed. Any appeal must be determined by persons who were not involved in the decision under appeal.

4.7 The standard of proof applicable to any formal misconduct procedure is on the balance of probabilities.

5 Misconduct

5.1 To whom does this statute apply?

5.1.1 This statute applies to students who are suspected of misconduct within the University precincts or in the context of any University activity, or where the suspected misconduct is directly connected to a student’s status as a student of the University.

5.2 What is misconduct?

5.2.1 There are two types of misconduct: academic misconduct and general misconduct.

5.2.2 Academic misconduct is defined as:

(a) plagiarism;
(b) dishonest or misleading conduct, including collusion, in connection with any assessment including any exam, test, or other supervised assessment or in relation to the preparation or presentation of any assessed item of work;
(c) any breach of rules or instructions in relation to any assessment, including examination rules;
(d) conduct in breach of the Human Ethics Policy or the Animal Ethics Policy; or
(e) dishonest or misleading conduct in the course of research or any other similar academic activity.

5.2.3 General misconduct is defined as:

(a) conduct in breach of any University statute, policy, hall of residence handbook, or professional code of conduct that has been endorsed by the relevant school within the University;
(b) conduct that contravenes a lawful and reasonable direction by a member of the University staff;
(c) conduct that impedes or prejudices teaching, research, or study within the University community, or that infringes the ability of others to participate in the life of the University;
(d) conduct that is detrimental to the safety or wellbeing of other people, the effective functioning of the University, or the reputation of the University;
(e) conduct that impedes or disrupts an examination, test, or other supervised assessment (but excluding dishonest or misleading conduct in connection with such assessment, which is to be treated as academic misconduct);
(f) conduct that is dishonest or fraudulent; or
(g) conduct that is not in keeping with the University’s core ethical values of respect, responsibility, fairness, integrity, and empathy.

6 Initiating misconduct procedures
6.1 Referral to appropriate decision-maker
6.1.1 Any person can refer suspected misconduct to a decision-maker. A list of decision-makers is set out in Appendix B.
6.1.2 A decision-maker who becomes aware of suspected misconduct, whether through a complaint or otherwise, must:
   (a) consider whether to refer the matter to a more suitable decision-maker; and
   (b) if the conduct is not referred to another decision-maker, consider whether the reported conduct may constitute misconduct; and
   (c) if the conduct may constitute misconduct, consider:
      (i) whether interim action in accordance with s6.2 below is required to manage risk associated with the relevant behaviour; and
      (ii) whether to proceed with an alternative resolution process in accordance with s7 below; or
      (iii) whether to proceed with the formal misconduct procedures in accordance with s8 below.
6.1.3 If the decision-maker considers that none of the courses of action identified in s6.1.2(a)–(c) are appropriate, the decision-maker may dismiss the complaint.
6.2 Interim action
6.2.1 Interim action is available if the decision-maker is satisfied that the presence within the University precincts of a student suspected of misconduct:
   (a) presents an unacceptable risk to the safety of students, staff, or property; or
   (b) is likely to jeopardise the work of members of the University community.
6.2.2 Before proceeding to take interim action, the decision-maker must:
   (a) consult the SIDRA or General Counsel (or, in the case of misconduct occurring in a hall of residence, the Associate Director, Victoria Accommodation) about the proposed interim action;
   (b) provide the student with a reasonable opportunity to comment on the proposed interim action; and
   (c) consider any effects the proposed interim action may have on the student’s personal course of study and emotional or mental wellbeing.
6.2.3 Interim action may include exclusion from any designated part of the University, suspension from attendance at the University or from particular classes, and, in the case of misconduct occurring in a hall of residence, exclusion from the hall of residence.

6.2.4 In each case, the exclusion or suspension:
(a) takes effect as soon as the student has been advised either orally or in writing; and
(b) may last until the applicable processes under this statute are concluded; and
(c) when concluded, will be followed by efforts to ensure the student’s reintegration into the University community is managed positively.

6.3 Temporary removal from class or facility
6.3.1 Nothing in this statute prevents a person in charge of a class or a University facility from removing a student from that class or facility when the person in charge believes, on reasonable grounds, that removal is necessary:
(a) to ensure that the activities within the class or facility are not impeded; or
(b) to protect the safety and wellbeing of persons in that class or facility.

6.3.2 The fact of removal from a class or a University facility together with the conduct that led to the exclusion must be reported to an appropriate decision-maker within 24 hours of the removal for further investigation and action as appropriate.

7 Alternative resolution processes
7.1.1 There are two types of alternative resolution processes available for general misconduct:
(a) resolution in accordance with the principles and values of restorative justice; and
(b) resolution in accordance with tikanga Māori.

To avoid doubt, alternative resolution processes are not available for academic misconduct.

7.2 Restorative justice
7.2.1 Restorative justice promotes consensus-based resolution through participation, accountability, and repairing the harm that occurred.

7.2.2 Restorative justice is available if the decision-maker suspects a student of general misconduct and:
(a) consults with the SIDRA (or, in the case of suspected misconduct occurring in a hall of residence, the Associate Director, Victoria Accommodation) as to whether the matter is suitable for restorative justice;
(b) the student acknowledges responsibility for the conduct; and
(c) the decision-maker, the SIDRA, the student, and any other relevant parties agree to proceed with restorative justice in accordance with the principles of restorative justice.

7.2.3 For the purposes of this statute the principles of restorative justice are:
(a) participation is voluntary;
(b) the process provides an opportunity for open and respectful dialogue about the misconduct and its impact;
(c) if other parties have been directly affected by the incident, they should be invited to participate in the resolution process and may determine the level of their involvement;
(d) where multiple interests are at stake, independent facilitation of the process should be considered and used where appropriate;
(e) outcomes should always seek to address harms and needs and promote repair;
(f) outcomes must reflect the agreed view of all parties; and
(g) outcomes must promote accountability by the student and represent an appropriate and achievable response to the conduct in question.

7.2.4 Formal disciplinary proceedings are suspended pending the restorative justice process.

7.2.5 If the restorative justice process reaches an agreed resolution, no further action will be taken. If the restorative justice process does not reach an agreed resolution, formal investigation of the suspected misconduct may continue.

7.3 Tikanga Māori

7.3.1 General misconduct can be resolved using tikanga Māori if:
(a) the Tumu Ahurei is satisfied all participants are sufficiently aware of tikanga including the requirements identified in s7.3.2; and
(b) the complainant, any student, the decision-maker, and the Tumu Ahurei, Ruānuku or Ruahine of Te Herenga Waka marae agree:
   (i) to apply tikanga Māori;
   (ii) the participants who will be involved in the process; and
   (iii) the procedure to be followed.

7.3.2 For the purpose of the resolution of suspected general misconduct, tikanga requires that:
(a) the general misconduct be resolved within Te Tumu Herenga Waka;
(b) te reo Māori is used for te kawa o te Marae;
(c) within Te Tumu Herenga Waka, te reo Māori or English may be used; however, if te reo Māori is used the Tumu Ahurei must consider whether it is necessary to ensure that all parties have a clear understanding of what is being communicated that:
   (i) statements be repeated in English; or
   (ii) an interpreter be provided;
(d) the process must be facilitated by the Tumu Ahurei and the Ruānuku and Ruahine o Te Herenga Waka marae, unless they are a party to the dispute;
(e) all parties have the right to be supported by whānau;
(f) where possible, consensus decisions are negotiated by the parties; and
(g) where consensus is unable to be reached, the decision shall be made by consensus between the Tumu Ahurei, the Ruānuku and Ruahine o Te Herenga Waka marae.

7.3.3 The agreed resolution may, but is not required to, include any of the penalties identified in s9.

8 Formal misconduct procedures

8.1 There are three formal misconduct procedures:
(a) the Level 1 (minor) misconduct procedure;
(b) the Level 2 misconduct procedure;
8.2 Which formal misconduct procedure will be used?

8.2.1 Level 1 (minor) misconduct: The Level 1 (minor) misconduct procedure is available if:

(a) academic misconduct—coursework student: a decision-maker suspects a coursework student of academic misconduct and the decision-maker considers that:

(i) the student has no prior record of academic misconduct; and
(ii) the suspected misconduct:
   (A) is minor; or
   (B) appears to have occurred due to a lack of skill in paraphrasing and referencing; or
   (C) appears to have occurred due to a misunderstanding of the requirements associated with group work or other collaborative projects; and

(iii) the Level 1 (minor) misconduct procedure is appropriate;

(b) academic misconduct—thesis student: a decision-maker suspects a thesis student of academic misconduct in relation to in-progress work and the decision-maker considers that the student does not understand the University’s expectations in relation to postgraduate research;

(c) general misconduct: a decision-maker suspects a student of general misconduct and the decision-maker considers that:

(i) the student has no prior record of general misconduct;
(ii) the suspected misconduct is minor;
(iii) the minor misconduct procedure is appropriate;
(iv) an alternative resolution process is not suitable.

8.2.2 Level 2 misconduct: The Level 2 misconduct procedure is available if:

(a) academic misconduct—thesis student: a decision-maker suspects a thesis student of academic misconduct in a thesis submitted for examination and the issues are at a level that, in the opinion of the Dean, Wellington Faculty of Graduate Research or Associate Dean PGR, may be dealt with by means of revisions;

(b) other academic or general misconduct: a decision-maker suspects a student of academic or general misconduct; and

(i) considers the minor misconduct procedure is not available or not appropriate;
(ii) following consultation with the SIDRA, determines that the Level 2 misconduct procedure is appropriate;
(iii) considers the conduct warrants further action; and
(iv) an alternative resolution process is not suitable.

8.2.3 Level 3 (serious) misconduct: The Level 3 procedure is only available if the suspected misconduct, if established, would be sufficiently serious as to justify the penalties in s9.5 below and if:

(a) academic misconduct—thesis student: the Dean, Wellington Faculty of Graduate Research or Associate Dean PGR considers academic misconduct by a thesis
(b) other academic misconduct or general misconduct: a decision-maker suspects an academic or general misconduct, and:

(i) considers the Level 2 misconduct procedure is not available or not appropriate;

(ii) following consultation with the SIDRA or General Counsel determines that the Level 3 (serious) misconduct procedure is appropriate;

(iii) considers the conduct warrants further action; and

(iv) an alternative resolution process is not suitable.

8.3 Procedural requirements

8.3.1 Regardless of the level at which the suspected misconduct is being considered, a decision-maker:

(a) must notify the student suspected of misconduct. Such notice must be in writing and must:

(i) inform the student that misconduct is suspected, the level of that misconduct, and the procedure that will be used;

(ii) set out a clear explanation of the suspected misconduct and the possible penalties;

(iii) attach copies of any written material relating to the misconduct;

(iv) advise the student of the next steps in the process and invite him or her to a meeting to discuss the matter;

(v) advise the student of their entitlement to representation, and the advisory and support services offered by the VUWSA student advocacy service and of its contact details at advocate@vuwsa.org.nz; and

(vi) in the case of Level 3 (serious) misconduct, advise the composition of the Disciplinary Committee;

(b) must use reasonable endeavours to convene a meeting with the student as soon as practicable;

(c) must provide a reasonable opportunity for the student to respond to the complaints either in person, in writing; or by other appropriate means of communication such as audio-visual conference or teleconference;

(d) may seek additional information from the student or from other parties and must put any information provided from other parties to the student for comment;

(e) may seek advice from the SIDRA, General Counsel, or, in the case of suspected academic misconduct by a thesis or doctoral student, a subject specialist; and

(f) must consider the student’s response.

8.3.2 In the case of academic misconduct, grades for any assessment item or course for the student or students concerned will be withheld pending resolution of the suspected misconduct.

8.4 Determine whether misconduct has occurred

8.4.1 A decision-maker must determine:
(a) whether misconduct has occurred;
(b) the level of that misconduct; and
(c) the appropriate penalty.

8.4.2 If the decision-maker determines that no misconduct has occurred, the decision-maker must:
(a) dismiss the matter;
(b) advise the student in writing; and
(c) update the appropriate University record system accordingly.

8.5 Notify decision

8.5.1 Where the decision-maker determines that misconduct has occurred, the decision-maker must, as soon as practicable, notify the student of that decision. Such notice must:
(a) inform the student of the decision and what, if any, penalties are imposed;
(b) in the case of academic misconduct, put in place a plan to address any skill development issues;
(c) in the case of Level 1 (minor) misconduct, caution the student that a second incident of the same or similar behaviour could result in a finding of Level 2 or Level 3 (serious misconduct);
(d) advise the student that the University keeps a record of the misconduct and, if the misconduct is Level 2 or Level 3 (serious) misconduct, that the misconduct will appear on the student’s academic record; and
(e) advise the student that if they do not agree with the outcome they have the right to consult the student advocacy service and/or appeal the decision under paragraph 10 below.

8.5.2 The decision-maker must ensure the misconduct is recorded on the appropriate University record system. In the case of Level 2 or Level 3 (serious) misconduct, the decision-maker must advise the SIDRA of the decision.

9 Penalties

9.1 Wherever possible the penalties for misconduct should seek to address harms, promote accountability and repair, and meet the needs of all parties, so that both individual and institutional wellbeing are enhanced.

9.2 Level 1 (minor) misconduct penalties may include:
(a) a public or private apology from the student;
(b) an undertaking as to future behaviour (which may also include suspending or waiving additional penalties imposed if the student complies with the terms of the undertaking);
(c) an educational or supervision programme;
(d) resubmission of a piece or pieces of work (for academic misconduct only);
(e) an oral or written warning; and
(f) a change to a specified document(s).

9.3 Level 2 penalties may include all of the penalties in paragraph 9.2 above and:
(a) an order to pay compensation for any loss or damage caused by or arising from the misconduct;
Student Conduct Statute

e) cancellation in full or in part of the mark for the item of assessment in respect of which the misconduct occurred and/or the award of a fail or reduced grade for the course (for academic misconduct only); and

(f) any other action which may relieve any distress caused to the complainant, repair any damage caused by the student, or address the student’s conduct.

9.4 Hall of residence specific penalties: Penalties for Level 1 (minor) misconduct or Level 2 misconduct in a hall of residence may include all of the penalties in paragraphs 9.2 and 9.3 above and:

(a) a community service project within the hall of residence which bears some relevance to the misconduct;

(b) exclusion from any particular area of, or activity associated with, a hall of residence for a period not exceeding two weeks; and

(c) a ban on guests and/or alcohol for a period not exceeding the balance of the current trimester.

9.5 Level 3 (serious) misconduct penalties may include all of the penalties in paragraphs 9.2, 9.3 and 9.4 above and:

10 Appeals

10.1 Right of appeal

10.1.1 A student may appeal a finding of Level 2 or Level 3 (serious) misconduct or a penalty imposed to the Disciplinary Appeals Committee.

10.1.2 A student may not appeal an agreed resolution reached in accordance with the principles of restorative justice, tikanga Māori, or the Level 1 (minor) misconduct procedure.

10.1.3 A student who is dissatisfied with the decision of the Level 1 (minor) misconduct procedure can request the matter be dealt with through the Level 2 misconduct procedure.

10.2 Appeal process
10.2.1 A student must:
   (a) submit an appeal in writing to the Convenor of the Disciplinary Appeals Committee within 20 working days of the date of the letter notifying a finding of misconduct; and
   (b) indicate in their submission whether they wish to appear in person before the Disciplinary Appeals Committee.

10.2.2 The Convenor may extend the time frame if he or she is satisfied that there is a good reason why the appeal was not submitted within the specified time frame.

10.2.3 Within 10 working days of receipt of an appeal the Convenor must in writing:
   (a) acknowledge receipt of the appeal;
   (b) outline the anticipated time frame for the appeal; and
   (c) provide the names of the members of the Disciplinary Appeals Committee.

10.3 Consideration of the appeal

10.3.1 The Disciplinary Appeals Committee:
   (a) must review:
      (i) the evidence submitted to the decision-maker; and
      (ii) the decision; and
   (b) may request:
      (i) any further evidence that it deems relevant; and
      (ii) to meet the student appealing or other relevant parties; and
      (iii) to meet the decision-maker (or, where the decision-maker was the Disciplinary Committee, the Convenor of the Disciplinary Committee).

10.3.2 If the Disciplinary Appeals Committee requests to meet any relevant parties:
   (a) any meetings with the parties must be held separately;
   (b) the parties may bring support persons who may speak on their behalf.

10.4 Decision on the appeal

10.4.1 The Disciplinary Appeals Committee must not allow an appeal unless satisfied that:
   (a) the decision of the decision-maker was:
      (i) unfair because of some material defect in the procedure followed; or
      (ii) was incorrect on the basis of:
         (A) the information considered by the decision-maker; or
         (B) additional information not available to the decision-maker; or
         (C) additional information available to the decision-maker but not considered; or
   (b) the penalty imposed by the decision-maker was manifestly excessive.

10.4.2 The Disciplinary Appeals Committee may:
   (a) if the decision was unfair because of some material defect in procedure, set aside the decision and refer it back to the decision-maker;
   (b) if the decision was incorrect, set aside the decision and substitute another decision;
   (c) if the penalty was manifestly excessive, set aside the penalty and substitute another penalty.
10.4. The Disciplinary Appeals Committee must provide written reasons for its decision to allow or not allow an appeal to:
   (a) the student appealing; and
   (b) the decision-maker.

10.4.4 The decision of the Disciplinary Appeals Committee is final.
Qualification regulations

Note: From 1992 until 2017, the term ‘statute’ was used at the University to refer to the rules governing qualifications. From 2018, the University has reverted to the pre-1991 term, ‘regulations’, the term used also by the other New Zealand universities.

Personal Courses of Study Regulations

Part 1: General

These regulations are to be read in conjunction with the statutes for all degrees, diplomas and certificates listed in the Qualifications Statute and for any other academic qualifications of this University.

1. In these regulations, the word ‘qualification’ applies to degrees, diplomas and certificates. A ‘course’ (previously known as ‘paper’) is an individual unit of study towards a qualification. A ‘course of study’ is a collection of courses to be used towards a qualification or combination of qualifications. A ‘personal course of study’ is a particular combination of courses selected by an individual student.

2. The personal course of study of every candidate for a qualification shall comply with the regulations for that qualification, except that the relevant Associate Dean (or Dean) may, in exceptional circumstances, approve a personal course of study which does not comply with those regulations.

3. (a) The personal course of study chosen by a student for a given academic year shall require the approval of the Academic Board. The Head of each School in which the student proposes (i) to satisfy the subject requirements at advanced level for an undergraduate qualification, or (ii) to study for a postgraduate qualification (other than PhD), shall act on behalf of the Board in giving that approval.

(b) The personal course of study chosen by any candidate for two qualifications shall require the approval of the Heads of all of the Schools concerned.

(c) Heads of Schools may nominate other members of their faculties to approve personal courses of study on their behalf.

4. A student who has passed, at this or any other institution, a course equivalent to one which is required for a Victoria University of Wellington qualification, or for a major or specialisation within such a qualification, but is unable to gain credit for it towards that qualification may be given an exemption from that course by the relevant Associate Dean (or Dean). Such an exemption may require the substitution of an approved alternative course.

5. (a) The normal full-time workload for a student is 60 points per trimester (or 30 points per half-trimester).

(b) A student may enrol in courses equivalent to:
   (i) no more than 80 points in Trimester 1 or Trimester 2, or 65 points in Trimester 3; and
   (ii) no more than 40 points in any half trimester if a student is doing any compressed courses.

(c) For the purposes of this section:
   (i) the points value for each two-trimester course will be divided equally between the trimesters; and
   (ii) the workload for each full-trimester course will be divided equally between the two half-trimester periods.

(d) Enrolment in a higher number of points may be approved by the relevant Associate Dean (or Deputy Dean).
6. Only those students enrolled in a course are entitled to attend classes for that course.

**Changes to personal courses of study**

**Additions**

7. Students are normally expected to be registered for their courses by Friday in the week preceding the start of teaching. A student who wishes to add a course after its commencement must obtain permission (on the appropriate form) from both the Course Coordinator (or designated authority) and the Head of School or Associate Dean (or Dean) responsible for approving the student’s personal course of study. Other than in exceptional circumstances, no course may be added after the first one-sixth has elapsed.

*Note: The addition of a course after it has commenced will be approved only if places are available, late entry will not significantly affect the delivery of the course and the late enrolment will not significantly impact on the student’s chance of passing.*

**Withdrawals**

8. (a) Any student who wishes to withdraw from a course must apply on the appropriate form.

(b) A student may withdraw from a course at any time during the first three-quarters of the teaching weeks.

(c) Withdrawals after the date in (b) above require the approval of the relevant Associate Dean (or Dean). An Associate Dean (or Dean) will not normally approve such a withdrawal unless satisfied that:

(i) there are medical or personal circumstances applying after the specified date for withdrawals that have seriously affected the student’s ability to complete the course; and

(ii) either there is evidence of satisfactory progress in the course up to the specified cut-off date for withdrawals, or the absence of such evidence is due to adverse medical or personal circumstances.

(d) Only in exceptional circumstances may a student withdraw from a course—

(i) after the last day of the official exam period for the trimester in which that course was held; or

(ii) if the student has sat the final examination or submitted the final item of assessment for that course; and in no case may a student withdraw after one trimester has elapsed since the course ended.

(e) Where an Associate Dean (or Dean) has declined an application under (c) or (d) above to withdraw from a course, the student may appeal in writing to the Convenor of Academic Committee within four weeks of being notified of the decision of the Associate Dean (or Dean). This period may be extended by the Convenor in special cases.

*Note 1: Withdrawal dates may be found in Appendix E of the Fees Statute, in the Key Dates section of this Calendar and on the University’s website (search on ‘dates’). If in doubt, contact the relevant Faculty Student and Academic Services Office.*

*Note 2: Any additional fees arising from the change of course will be calculated and will become payable when the change of course form is returned to the Faculty Student and Academic Services Office.*
Note 3: If a refund is applicable to a student who has paid their fees with a student loan, the refund will be paid directly to the student loan account. If a refund is applicable to a student who has paid their fees without using a student loan, the student should contact the Student Fees team to request the refund.

Note 4: The operative date for any change of course is the date when the form is received by the Faculty Student and Academic Services Office. If forms are posted, due allowance should be made for postal delays to ensure that the form arrives before the relevant deadline.

Note 5: Withdrawals can have significant impacts on students’ eligibility for loans and allowances (including retrospectively). The Associate Dean should advise the student to seek advice on the non-academic implications of late withdrawals. Students are responsible for making themselves familiar with the implications. Advice may be sought from Financial Support and Advice or from StudyLink.

Prerequisites, corequisites and restrictions

9. (a) Each course in the personal course of study of a student shall comply with any prerequisites, corequisites and restrictions specified in the relevant regulations.

(i) A pass (other than a compensation pass) in a prerequisite for a course is necessary before the student may be enrolled for that course, unless this requirement is waived by the relevant Head of School. If the waiver is conditional on simultaneous enrolment in the prerequisite course, then both courses must be passed before enrolment can occur in any subsequent course for which the second course is itself a prerequisite.

(ii) Either a pass (other than a compensation pass) or concurrent enrolment in any corequisite for a course is necessary before the student may be enrolled for that course, unless this requirement is waived by the relevant Head of School.

(iii) Enrolment in a course which is restricted against a course or combination of courses that the student has already passed or is concurrently enrolled in, is prohibited unless permitted by the relevant Head of School. In such cases, the student may not receive credit toward any Victoria University of Wellington qualifications for both the former course and the course or combination of courses against which it is restricted.

(b) Any course which is double-labelled with another course may be substituted for that course to meet prerequisite, corequisite, major, specialisation or other requirements of the qualification regulations. Double-labelled courses are necessarily restricted against each other.

(c) Any decision taken under this section may be appealed to the relevant Associate Dean (or Dean).

Enrolment for course already passed

10. (a) Only with the permission of the relevant Associate Dean (or Dean) may a student enrol in a course which the student has already passed or from which the student has been exempted with credit. Credit for the course will be given just once.

(b) A student may be denied permission to enrol in a course which is essentially a lower level version of a course which the student has already passed or been exempted from with credit.
Cross-crediting from a completed qualification
11. Candidates who have completed one or more Victoria University of Wellington degrees may be credited with up to 120 points towards a subsequent Victoria University of Wellington degree, subject to the following conditions:
   (a) These points will normally be at 100 level, unless otherwise permitted by the relevant Associate Dean (or Dean).
   (b) The total of such cross-credit and any transfer credit shall in no circumstance exceed two-thirds of the total points requirement for the subsequent degree.
   (c) At most 60 points shall be awarded where the points cross-credited come from a completed conjoint or double degree programme.
   (d) No 300-level course may be used to satisfy major or specialisation requirements for more than one degree.

Crediting courses to qualifications
12. Unless otherwise permitted by the relevant Associate Dean (or Dean), a student may credit a set of courses to a qualification if, and only if, the following conditions apply:
   (a) The set of courses meets the requirements of the statute for the qualification.
   (b) The student has obtained a pass in every course, except where the course is taken for a postgraduate Honours degree or Part 1 of the corresponding Master’s degree or where the statute for the qualification specifies otherwise.
   (c) Except in special cases and with the approval of the relevant Associate Dean (or Dean), at the time of enrolment for each course the student met the requirements for being accepted into the qualification.

Minors
13. (a) To obtain a minor in an undergraduate subject area a candidate for the BA, BBmedSc, BC, BBSc, BCom, BDI, BHlth, BMus, BSc or BTM degrees must pass at least 60 points at 200 level or above in the relevant subject area, including at least 15 points at 300 level. No 300-level course may be counted towards two minors, or towards both a major and a minor, and no student may be awarded a major and a minor in the same subject area.
   (b) Minors for any participating degree can be selected from all major subject areas listed in the BA, BBmedSc, BC, BBSc, BAS, BCom, BDI, BHlth or BSc regulations or from additional minor subject areas listed in the BA, BCom, BDI, BMus or BSc regulations.
   (c) Unless otherwise specified in the corresponding degree regulations, courses for a minor in a subject area which is available as a major shall be chosen from the requirements at 200 level or above for that major and must include at least 40 points from courses with the main subject code.

Part 2: Postgraduate honours and master's degrees
14. (a) A candidate may enrol in a postgraduate Honours or Master’s course (i.e., one listed on the schedule of a postgraduate Honours or Master’s degree) only with the approval of the Head of School responsible for that course. The qualification to which the course is to be credited must be specified at the time of enrolment.
   (b) A candidate for a postgraduate Honours degree (or Part 1 of a corresponding Master’s programme) who has failed a course or courses worth not more than a maximum of
30 points may be permitted to re-enrol in such failed course(s) or to enrol in approved substitute course(s) for the same qualification. A candidate who fails a course or courses worth more than 30 points in total will not be permitted to proceed with the degree.

(c) Except with the permission of the relevant Associate Dean (or Dean), no more than 50 percent of a candidate’s personal course of study for a postgraduate Honours (or Part 1 of a corresponding Master’s) degree may consist of individual research courses.

15. (a) Unless otherwise permitted by the relevant degree regulations, no course already credited to another qualification (or in the opinion of the appropriate Associate Dean (or Dean) substantially equivalent to such a course) may be credited to a postgraduate Honours or Master’s degree.

(b) A candidate for a postgraduate Honours or Master’s degree, who is prevented by part (a) from crediting a course that is compulsory for that qualification, may substitute an alternative course approved by the relevant Associate Dean (or Dean).

16. A person who has been awarded a BA(Hons), BCom(Hons), BMus(Hons), BSc(Hons), MA, MA(Applied), MCom, MMus or MSc in any subject:

(a) may be a candidate for the same degree in another subject;

(b) may not present the same subject for more than one of those postgraduate Honours degrees or for more than one of those Master’s degrees.

17. (a) Candidates for a postgraduate Honours or Master’s degree must complete the requirements for the qualification within the maximum time specified in the regulations, unless an extension is approved by the relevant Associate Dean (or Dean).

(b) The course of study for a qualification shall be regarded as having begun when the candidate first enrolled in a course later credited to that qualification.

Substitution of courses

18. (a) With the approval of the relevant Head of School, a candidate may replace optional courses in a postgraduate Honours or Master’s degree with courses of a comparable points value from the same or other programmes as specified in the relevant degree regulations. In no case may courses be substituted for more than half of the points required for the degree.

(b) The Head of School shall approve only substitute courses that are relevant and complementary to the rest of the candidate’s programme, and shall ensure that the candidate’s personal course of study is consistent with the intent of the degree regulations.

Master’s theses

19. A Master’s thesis is the outcome of independent research, scholarship and/or creative activity conducted under supervision and having a value of at least 90 points. For works of design, creation or performance, the student must include a written commentary on the work.

(a) The thesis shall present the results obtained by the candidate in an investigation relating to some branch of the subject being presented or, as appropriate, a review of the literature relating to some special problem that may be combined with an investigation of some aspect of this problem.

(b) Except as permitted in (e), the minimum and maximum periods from the time of first enrolment until submission of the thesis for examination shall be as follows:
(i) The minimum period is nine months full time or 18 months half time.
(ii) The maximum period is 12 months full time or two years half time.
(iii) For candidates permitted to enrol half time for part of their programme, the minimum and maximum periods shall be calculated on a pro rata basis.

*Note: Refer to the Fees Statute for information on fees.*

(c) As set out in the Master’s Thesis Regulations, when a candidate is unable to work on a thesis for a specified period of time, the relevant Associate Dean (or Dean) may grant a suspension of enrolment for a period, normally not more than six months.

(d) Except for periods of suspension, a candidate must be continuously enrolled until the completed thesis has been lodged in the University’s Library, unless the candidate withdraws from the course, has their enrolment terminated by the University, or fails the course.

(e) Extensions to the maximum period of enrolment prior to submission may be granted by the relevant Associate Dean (or Dean) so long as the total period does not exceed 15 months full time or 30 months half time. Consideration of extensions shall take account of the candidate’s personal circumstances and the nature of the research project, and shall require submission by the candidate of a detailed plan for completion within the time requested. The calculation of the total period will exclude any periods of suspension.

**Part 3: Award of honours, distinction or merit**

20. (a) Unless otherwise specified in the relevant degree or diploma regulations, the class of Honours to be awarded or the award of Distinction or Merit shall be assessed on the candidate’s overall performance; the assessment to be made is of the candidate’s quality of mind and command of the subject displayed over a range of material and tasks appropriate to the limited time specified for the programme.

(b) An Associate Dean (or Dean), after consultation with the relevant Head of School, may extend a maximum period for completing requirements relating to the award of Honours, Distinction or Merit. A candidate refused such extension may still be permitted to complete the degree or diploma.

**Award of honours**

21. (a) These classes of Honours shall apply to BA(Hons), BBmedSc(Hons), BCom(Hons), BEd(Hons), BMus(Hons), BSc(Hons) and BTM(Hons): First Class, Second Class (first division), Second Class (second division) and Third Class.

(b) These classes of Honours shall apply to other Bachelor’s and Master’s degrees awarded with Honours: First Class, Second Class (first division) and Second Class (second division).

(c) To graduate with a postgraduate Honours degree, students need to pass 120 points. The overall grade for Honours will normally be based on all courses taken for the qualification, including courses that resulted in a fail grade.

**Award of distinction or merit**

22. Where the regulations for a degree or diploma states that it may be awarded with Distinction or Merit, a candidate will be awarded the degree or diploma with Distinction if, in the
opinion of the examiners, the work is at an A+ or A standard overall, and with Merit if the work is at an A– or B+ standard.

Part 4: Miscellaneous

Transition from earlier regulations

23. (a) Unless expressly prevented by subsequent regulations, a candidate enrolled for a qualification under previous regulation may complete the qualification under those regulations if they do so within five years from when the regulations were changed. Such completion shall accord with a determination to be made in each case by the relevant Associate Dean (or Dean) concerning the way in which the requirements of the earlier regulations are to be met.

(b) A candidate may complete a qualification under regulations that last applied before the time specified in part (a) only at the discretion of the Associate Dean (or Dean).

(c) In making the determination of section (a), the Associate Dean (or Dean) shall endeavour to prevent undue hardship and shall, as appropriate, take account of:

(i) any provisions for the transition in the new regulations;

(ii) how long the candidate has been enrolled.

No credit may be given for a course or courses substantially equivalent to courses previously passed.

Note: The schedules to current qualification regulations generally make against current courses explicit restrictions relating to courses that have been taught within the last seven years. Information about courses last taught more than seven years ago that may be restricted against current courses can be obtained on request from the relevant Faculty Student and Academic Services Office or school.

24. (a) Each BA, BCA and BMus unit passed before 1972, and each BSc unit passed before 1973, shall count as 36, 44 or 48 points for stage I, II, or III respectively, and each half unit or reading knowledge as 18, 22 or 24 points for stage I, II, or III, but no candidate who has passed such unit, half unit or reading knowledge shall enrol in its equivalent as scheduled for any degree.

(b) The units and their stages of the earlier regulations shall be deemed to be of equivalent standard to the courses scheduled for current degrees in accordance with the following table.

(i) 6-credit 100-level courses will become 18 points

(ii) 6-credit 200-level courses will become 22 points

Note: 12-, 4- and 3-credit courses will be translated proportionally with fractions rounded up.

Note: There may be some exceptions to these rules and students must obtain advice from the relevant Faculty Student and Academic Services Office regarding their personal course of study.

Appendix A: Definitions and rules relating to majors, minors etc.

Definitions
Major: A substantial component of an undergraduate degree consisting of courses normally worth at least 120 points in a recognised subject area and including at least 40 points at 300 level or above. For a general undergraduate degree (that is, the BA, BCom, BSc), a major shall not require more than 140 points at 200 level or above.
Minor: A component of an undergraduate degree, consisting of courses at 200 level or above in a recognised subject worth at least 60 points, and including at least 15 points at 300 level.
Specialisation: An optional area of focus within a major, a subject or a specialised graduate or postgraduate qualification. A specialisation shall require at least 45 points of directly relevant courses at 200 level or above, including at least one course above 200 level. The courses specified for a specialisation shall normally be from courses within the associated major, subject or specialised graduate or postgraduate qualification, but in all cases, at least 50 percent of the specified points shall be from such courses.
Subject: A particular academic discipline offered through courses at various levels.

Note: Refer to the Academic Transcripts and Certificates Policy for details of the qualification-related information that is included on qualification certificates and academic transcripts.

Rules
1. A particular major may be offered for more than one general degree, but the requirements must be equivalent (although they may be stated differently according to conventions adopted by the faculties concerned). Where a major is offered for both a general degree and a specialised degree, the requirements for each will normally be different.
2. No candidate may count a 300- or 400-level course towards more than one major or minor, or towards a major and a minor, or towards the same major for more than one degree. (There is no bar against double-counting at 200 level.)

3. No candidate may be awarded a major and a minor in the same subject area.

**Conjoint Degrees Regulations**

These regulations are to be read in conjunction with relevant individual degree regulations and the Credit Transfer and Recognition of Prior Learning Policy.

*Note: These regulations facilitate the study of two degrees in combination; completing students graduate with both degrees.*

**Entry Requirements**

1. (a) Admission to a conjoint degrees programme normally occurs in a candidate’s second year of study at university, but it may also occur in a later year. To be admitted to the conjoint programme for the first time, the candidate must have achieved at least a B– average over the courses completed in the previous year of study, but not have completed the requirements of either component degree.

(b) A candidate taking a conjoint degrees programme shall require permission to re-enrol for it each year after first admission to the programme. Such permission will normally only be given if the student has achieved at least a B– average over the courses completed in the previous year of study.

*Note: A candidate taking a conjoint degrees programme is normally expected to include courses from the schedules of both component degrees in each year of enrolment.*

**General Requirements**

2. The personal course of study of a candidate for a conjoint degrees programme shall consist of courses from the schedules to first degrees of this University as approved by the relevant Associate Dean(s).

(a) For conjoint programmes consisting of two three-year degrees, the course of study shall consist of courses worth at least 540 points, of which:

(i) at least 360 shall be from courses numbered at 200 level or above; and

(ii) at least 150 shall be from courses at 300 level or above.

(b) For conjoint programmes consisting of one three-year degree and one four-year degree, the course of study shall consist of courses worth at least 660 points, of which at least 480 shall be from courses numbered at 200 level or above.

(c) For conjoint programmes consisting of two four-year degrees, the course of study shall consist of courses worth at least 780 points, of which at least 600 shall be from courses numbered at 200 level or above.

(d) For any other combination of component degrees, the minimum total number of points for the course of study shall be calculated as the sum of the totals required for the component degrees separately, less 180. The course of study shall include courses at 200 level or above worth the sum of those degree totals, less 360.

*Note: Some conjoint degree combinations may require more than the minimum numbers of points as set out in s2 when the requirements of s3 are taken into account.*

3. (a) The combined course of study of every candidate shall satisfy all of the requirements set out in the conjoint requirements sections of the regulations for the two component degrees.
(b) Courses that are 300 level may not normally be used to satisfy major subject or specialisation requirements for both component degrees.

(c) No more than 60 points may be credited to a conjoint programme from a previously completed degree. In all circumstances a conjoint degrees programme must include at least 180 points passed at Victoria University of Wellington.
## Individual course requirements

To be read in conjunction with the relevant degree regulations: BA, BAS, BBmedSc, BBSc, BC, BCom, BDI, BE, BEd(Tchg)EC, BE(Hons), BHitlth, BMid, BMus, BSc, GCertRJP, GDipTchg (ECE), GDipTchg(Primary), GDipTchg(Secondary), LLB, LLB(Hons).

*Note: BA(A) refers to Part A of the BA Schedule, BA(B) refers to Part B of the BA Schedule.*

Doctor of Philosophy (PhD)

PhD (360 points)

These regulations are to be read in conjunction with the Personal Courses of Study Regulations and the Doctoral Policy: for PhD and other Doctorates with Theses.

Entry Requirements

1. Before enrolment, a candidate for the PhD shall:
   (a) have completed a Bachelor’s degree with Honours or a Master’s degree at a New Zealand university, with an overall GPA of no less than 6 (letter grade B+); or
   (b) be currently enrolled in a Master’s thesis at the Victoria University of Wellington and meet the requirements for conversion to a PhD (refer to the PhD Procedures); or
   (c) produce evidence to the satisfaction of the Dean, Wellington Faculty of Graduate Research (FGR), of adequate training and ability to proceed with the proposed course for the degree.

2. Candidates must qualify for entry and be accepted by the Head of School and the relevant Associate Dean (PGR).

3. Where a candidate qualifies for entry under 1(b) above, the candidate will be deemed to have been provisionally registered for the PhD from the date of first enrolment for the Master’s thesis.

General Requirements

4. The course of study for a PhD consists of a programme of research and the completion of a thesis carried out under supervision as set out in the Doctoral Policy.

5. The research will normally be conducted at the Victoria University of Wellington.

6. The thesis must be a body of work that demonstrates the candidate’s ability to carry out independent research, and constitutes a significant and original contribution to knowledge or understanding. This contribution may include critical, experimental, theoretical or creative components, but the end result must be a single integrated study.

7. The work for the thesis must not have been submitted for another qualification at this or any other university.

Enrolment and Registration

8. A candidate must be continuously enrolled until the completed thesis is lodged in the University Library, unless they withdraw from the qualification, or have their enrolment terminated by the University, or fail the qualification.

9. A candidate shall in the first instance be provisionally registered for the degree.
   (a) Full registration is gained by demonstrating satisfactory progress during the provisional period, and meeting criteria as set out in the Doctoral Policy.
   (b) Up to 60 points of coursework may be required as part of the PhD and any coursework undertaken must normally be completed within the period of provisional registration.
   (c) When full registration is confirmed, the period of provisional registration is counted as part of the minimum and maximum periods as defined in section 10 below.
10. Except with the permission of the Dean (FGR), the minimum and maximum periods from the
time of first enrolment (excluding any approved period(s) of suspension) until submission of
a PhD thesis for examination shall be as follows:
   (a) A full-time candidate shall be enrolled for a minimum of 36 months.
   (b) A full-time candidate may be enrolled for a maximum of 48 months.
   (c) For a candidate permitted to enrol part time for part or all of their programme, the
       minimum and maximum periods shall be calculated on a pro rata basis.

11. On application from a candidate, the Associate Dean (PGR) may approve a suspension of
registration, for a period of not less than one month. During a student’s candidature, the total
period of suspension shall not usually exceed twelve months. During a suspension the
candidate will pay no tuition fees.

12. Extensions to the maximum period prior to submission of the thesis may be granted by the
Dean (FGR) and shall not usually exceed twelve months. Consideration of extensions shall
take account of the candidate’s personal circumstances and the nature of the research project
and consent shall neither be unreasonably withheld nor given without good cause. All
calculations will exclude any periods of approved suspension.

13. A candidate’s enrolment may be terminated if they fail to make satisfactory progress or if
they do not fulfil the requirements of the examination process.

14. Enrolment for the PhD degree may be converted to an enrolment in a Master’s degree. Note:
refer to Doctoral Policy: for PhD and other Doctorates with Theses, and procedures.

Examination

15. The examination for the PhD degree will comprise an examination of the thesis and an oral
defence of the thesis as set out in the Doctoral Policy.

Doctor of Education

EdD (360 points)
These regulations are to be read in conjunction with the Personal Courses of Study Regulations and the Doctoral Policy: for PhD and other Doctorates with Theses.

Entry Requirements
1. Before enrolment, a candidate for the Doctor of Education shall have:
Wellington Faculty of Graduate Research

(a) completed an Honours or Master’s degree with First or Second Class Honours, or other postgraduate qualification at an equivalent standard in education, educational leadership, educational administration, educational psychology or a discipline relevant to practice in those fields;
(b) provided evidence of appropriate and significant professional experience, normally of at least five years, and reports from two referees who hold senior roles in education; and
(c) been accepted by the School of Education Research Committee.

General Requirements

2. The course of study for the EdD shall consist of at least 360 points comprising:
   Part 1:   EDUC 601, 602, 603, 604; and
   Part 2:   EDUC 691.

3. Initially, a candidate shall be registered in Part 1 of the EdD.

4. Enrolment in Part 2 is conditional on satisfactory completion of Part 1 and acceptance into Part 2 by the Associate Dean (Research) on the advice of the Head of the School of Education or nominee.

5. Enrolment in Part 2 shall normally occur within 12 months (full time) or 24 months (half time) of first enrolment in Part 1.

6. Except with the permission of the Dean, Wellington Faculty of Graduate Research, the minimum and maximum periods of enrolment (excluding any approved period(s) of suspension) shall be as follows:
   (a) The minimum period in Part 2 is 24 months full time.
   (b) The maximum period for Parts 1 and 2 combined is 48 months full time.

7. Extensions to the maximum period of enrolment may be granted by the Dean, Wellington Faculty of Graduate Research (Dean FGR) on the recommendation of the Associate Dean, and shall not usually exceed 12 months. Consideration of extensions shall take account of the candidate’s personal circumstances and the nature of the research project, and consent shall neither be unreasonably withheld nor given without good cause. All calculations shall exclude any periods of suspension.

8. In every year of enrolment in Part 2, in May and November, a report on the progress of the candidate shall be completed and submitted to the Associate Dean. A candidate’s enrolment may be terminated if they fail to make satisfactory progress or if they do not meet the requirements of the examination process.

Requirements for Part 2 (Thesis)

9. The research will normally be conducted at the Victoria University of Wellington or at the candidate’s workplace but, with permission of the Associate Dean, part of the research programme may be carried out at other locations.

10. A candidate must be continuously enrolled until the completed thesis is lodged in the University’s Library, unless they withdraw from the qualification, or have their enrolment terminated by the University, or fail the qualification.

11. On application from a candidate, the Associate Dean may, in exceptional circumstances, approve a suspension of registration, measured in monthly increments, for a period of not less than one month. During a student’s candidature, the total period of suspension shall not usually exceed 12 months. During a suspension, a candidate will pay no fees and will have
no access to University services, including supervision, office and laboratory space and the Library.

12. The thesis must be a body of work that demonstrates the candidate’s ability to carry out independent research and constitutes a significant and original contribution to knowledge or understanding. This contribution may include critical, experimental or theoretical components but the end result must be a single integrated study of relevance to professional practice.

13. The thesis may include the candidate’s work that has been published or accepted for publication prior to the submission of the thesis for examination, provided that the research has been conducted under supervision during the period of enrolment. Work submitted for another qualification, whether completed or not, at this or any other university may not be so included.

14. The thesis shall not exceed a total of 70,000 words in length (including scholarly apparatus). In exceptional circumstances, the Dean FGR may grant permission for a longer thesis to be submitted for examination.

15. A thesis is a public document. However, where there are cogent and compelling reasons why a thesis should not be publicly available for a given, limited period, and where these are known at any time before submission of the thesis for examination, candidates should apply to the Dean FGR to withhold access as soon as the need for an embargo becomes apparent. A thesis may be withheld for a maximum of two years.

Examination

16. At any time after the minimum period of registration, a candidate may submit their thesis and apply for examination.

17. The application for examination shall be accompanied by a statement from the supervisors that the candidate has pursued the course of study in accordance with the requirements of these regulations.

18. Any thesis submitted for examination which includes published work or work submitted for publication must comply with the Guidelines for Including Publications in a PhD Thesis.

19. Where any of the published material included in section 18 is co-authored, the candidate must provide a detailed statement of each author’s contribution to such work, and contact details of co-authors (see the Recognition of Authorship Policy).

20. The format of the thesis is determined by the Library Statute.

21. The examination of the EdD degree will include an examination of the thesis and an oral defence of the thesis as set out in the doctoral policy. The thesis shall be examined by three examiners appointed by the Dean FGR. One of these examiners will normally be from outside New Zealand. The principal supervisor or co-supervisor must not be an examiner.

22. The Dean FGR shall, on the basis of the examiners’ reports and the recommendation of the chairperson of the oral committee, determine whether the degree will be awarded.

23. Where the decision has been made to award the degree, it will be awarded upon the deposit of copies of the final thesis in the University’s Library in accordance with the Library Statute.

24. The Associate Dean may, on the application of the candidate or the supervisors at any time before the submission of the thesis, or on the recommendation of the examiners after the
submission of the thesis, approve the enrolment of the candidate in a subject for an appropriate Master’s degree instead of the degree of Doctor of Education, where the regulations for such a Master’s degree provides that the degree may be taken by thesis and where the candidate does not already hold that degree in the same subject at the University.

(a) Where any thesis has been submitted for the degree of Doctor of Education, that thesis may be accepted in fulfilment of the requirements for the Master’s degree, notwithstanding any other provision in the regulations for that Master’s degree.

(b) Where the thesis has not been submitted for examination for the degree, the candidate shall be deemed to have been enrolled in and to have followed a course of study for that master’s degree for the appropriate minimum period, provided that the candidate has been enrolled for the degree of Doctor of Education for that period.
