The **Final Exam** aims to assess students' overall understanding of the basic concepts, principles and rules of selected examinable topics lectured in class and covered in tutorials throughout the entire Course and their application to fact situations. It will consist of compulsory questions, which will be both short essay and problem-type.

Tutorial Programme

Objectives:

1. Deepening and expansion of knowledge of the subject area;
2. Development of analytical and problem-solving skills through case problem exercises;
3. Development of oral skills through class presentations;
4. Development of cooperative group learning.

The tutorial programme commences in the third week of the course (16 March). The tutorial programme covers topics which are related to, and approximately in sequence with, the lecture programme. Each tutorial involves discussion of set questions, problems, and analysis of cases and other readings. The emphasis of the tutorials is on depth rather than breadth of knowledge. All members of a tutorial group are expected to adequately prepare for each tutorial session so that they are able to: 1. lead tutorial discussion on topics assigned if called upon to do so in full class or break-out groups; 2. adequately participate in break-out groups within a tutorial; 3. provide answers to questions from the tutor that demonstrate adequate preparation of the tutorial questions and exercises. Tutorials are important for assessments because the questions and exercises in the tutorial programme are used as the basis of questions in both the test and final exam.

Tutors will explain at the first tutorial how the tutorial programme will be run See below “TUTORIAL SIGN-UP” for sign-up instructions

Academic Integrity and Plagiarism

Academic integrity is about honesty – put simply it means *no cheating*. All members of the University community are responsible for upholding academic integrity, which means staff and students are expected to behave honestly, fairly and with respect for others at all times.

Plagiarism is a form of cheating which undermines academic integrity. The University defines plagiarism as follows:

The presentation of the work of another person or other persons as if it were one's own, whether intended or not. This includes published or unpublished work, material on the Internet and the work of other students or staff.

It is still plagiarism even if you re-structure the material or present it in your own style or words.

Note: including the work of others will not be considered plagiarism as long as the work is acknowledged by appropriate referencing.

Plagiarism is prohibited at Victoria and is not worth the risk. Any enrolled student found guilty of plagiarism will be subject to disciplinary procedures under the Statute on Student Conduct and may be penalised severely. Consequences of being found guilty of plagiarism can include:

- an oral or written warning
- cancellation of your mark for an assessment or a fail grade for the course
- suspension from the course or the University.

Find out more about plagiarism, and how to avoid it, on the University's website:
