Class Times and Room Numbers

Lectures: Monday, Friday 10:30 – 11:20 in Rutherford House Lecture Theatre 1.

Tutorials: There will be eight tutorial exercises. They will meet in weeks 2, 3, 4, 6, 8, 9, 10 and 11. **There will be no tutorials in weeks 1, 5, 7 and 12.** You can sign up for tutorials online at http://signups.victoria.ac.nz/ starting from 17:00 on Wednesday 3 March until 17:00 on Sunday 14 March.

Course Content

See the lecture programme (to be supplied).

Course Learning Objectives

C1 comprehend and articulate the principles of decision making and resource allocation under scarcity;

C2 apply microeconomic techniques to seemingly disparate areas of economics;

C3 comprehend the role and objectives of regulation;

C4 understand the principles of consumer choice;

C5 describe the concept of technology and production costs;

C6 analyse the behaviour of perfectly competitive firms;

C7 use game theory to explain models of imperfect competition;

C8 appraise principles of decision making under uncertainty;

C9 explain market failures due to externalities and public goods.

Course Delivery

There will be 24 lectures (2 lectures weekly) and 8 tutorial exercises. The tutorial questions will be posted in advance. Students are expected to attempt to solve these questions on their own and actively participate in tutorial discussions.

Expected Workload

A total of 150 hours of work is expected from students in this course. That consists of 34 hours of classes, eight hours per week outside classes during teaching weeks spent reading, studying and writing assignments, and a further 20 hours revising during the mid-trimester break and study week.

Readings

Textbook: Perloff, J., *Microeconomics Theory & Applications with Calculus*, First Edition, Pearson Education, Inc.

Supplementary readings:

David Besanko and Ronald Braeutigam, *Microeconomics*, Second Edition, John Wiley & Sons, 2005. This is the textbook used in the previous years. It is not an acceptable substitute for the course text.

Schotter, A., *Microeconomics: A Modern Approach*, Addison-Wesley 3rd edition 2001. This textbook has an extensive chapter on game theory.

Varian, H.R., *Intermediate Microeconomics: A Modern Approach*, 6th edition, Norton 2003 provides solid exposition of basic microeconomic concepts.

Nicholson, W., *Microeconomic Theory: Basic Principles and Extensions*, South-western, 8th ed 2001 (earlier editions are fine) provides exposition of microeconomic theory with full presentation of the relevant mathematics. Students who are comfortable with maths will find this a good reference.

Materials and Equipment

Students will be allowed to use non-programmable calculators in tests.

Assessment Requirements

Assignments	20%	dates to be announced
Mid-trimester Test	20%	10:30 – 11:20 on Friday, 30 April 2010
Final exam	60%	date to be announced

In the event of a student being unable to sit the test for a legitimate reason, the assessment components will be re-weighted to 20% on assignments and 80% on the final exam.

Note: Your assessed work may also be used for quality assurance purposes, such as to assess the level of achievement of learning objectives as required for accreditation and audit purposes. The findings may be used to inform changes aimed at improving the quality of FCA programmes. All material used for such processes will be treated as confidential, and the outcome will not affect your grade for the course.

Examinations

Students who enrol in courses with examinations are obliged to attend an examination at the University at any time during the formal examination period.

The final examination for this course will be scheduled at some time during the period from **Examination Period: Friday 11^h June – Wednesday 30th June 2010**

Penalties

Late assignments will accrue a penalty of 5% per day for the first three days. After that they will not be marked.

Mandatory Course Requirements

Attendance at a minimum of five of the eight tutorials **or** a passing grade (at least 50%) in the midterm test.

Tutorial Programme

Tutorial assignment work will be posted on Blackboard and available in lectures. The completed assignments will be due in your tutor's box (location to be notified). Each will account for 10% of the final grade.

Tutorials are also a time to have questions and concepts clarified. Your attendance will be recorded, and unless you pass the midterm test, you must attend at least five of the eight tutorials to fulfil the mandatory course requirements (see above). You are expected to take an active role in tutorial discussions each week. There will be no model answers provided for tutorial questions.

You are encouraged to discuss tutorial questions and assignments with other students. <u>However, your written answers to assignments must be your own work.</u> You will be penalised for turning in an assignment that is merely copied from that of another student.

Lecture Notes

Lecture notes or slides will be provided on Blackboard. *Beware*: these will not be as complete as the notes which you will be able to take in class. You should not consider them a substitute for lecture attendance.

Previous Years' Tests and Exams

These will be posted in the Course Documents section of the ECON 201 Blackboard site.

Class Representative

A class representative will be elected in the first class. The class representative's name and contact details will be available to VUWSA, the Course Coordinator and the class. The class representative provides a communication channel to liaise with the Course Coordinator on behalf of students.

Communication of Additional Information

Additional announcements will be posted on Blackboard.

Use of Turnitin

Student work provided for assessment in this course may be checked for academic integrity by the electronic search engine <u>http://www.turnitin.com</u> Turnitin is an on-line plagiarism prevention tool which compares submitted work with a very large database of existing material. At the discretion of the Head of School, handwritten work may be copy-typed by the School and subject to checking by Turnitin. Turnitin will retain a copy of submitted materials on behalf of the University for detection of future plagiarism, but access to the full text of submissions will not be made available to any other party.
