

School of Economics and Finance

ECON 130
ECONOMIC PRINCIPLES AND ISSUES

Trimester Two 2010

COURSE OUTLINE

Names and Contact Details

Stephen Burnell	RH425	463-5764	Course Coordinator
Office hours:	Tuesday, Thursday, 10am-noon		
Paul Tompkinson	RH403	463-5737	Lecturer
Office hours:	Monday-Thursday 9am-10am		
Francine McGee	RH319	463-5818	Course Administrator
Office hours:	8:00am – 4:00pm		

Trimester Dates

Teaching Period: Monday 12th July – Friday 15th October 2010

Study Period: Monday 18th October – Thursday 21st October 2010

Examination Period: Friday 22nd October – Saturday 13th November 2010 (inclusive)

Withdrawal from Courses:

Your fees will be refunded if you withdraw from this course on or before **23 July 2010**

The last date for withdrawal from this course (*assuming it has 12 weeks of lectures, otherwise modify accordingly*) is the three-quarter point of the teaching period, i.e. **Friday 24 September**. After that date, permission to withdraw requires the permission of the Associate Dean (Students) as set out in section 8 of the Personal Courses of Study Statute

<http://policy.vuw.ac.nz/Amphora!~~policy.vuw.ac.nz~POLICY~000000001743.pdf>

To apply for permission, fill in the Late Withdrawal form available from either of our Student Customer Service Desks.

Class Times and Room Numbers

ECON 130 8721 Tuesday and Thursday 14:10 – 15:00 MT228

The trimester starts on Monday, 12 July, 2010, with the first lecture on Tuesday 13 July. If you wish to change streams (and there is space) you will need to obtain a change-of-course form from

the Student Administration Office, RH, or EA005. Notice, the lectures will be held in the Student Union Building (Memorial Theatre).

ECON 130 is taught in the first, second and third trimesters.
Tutorials will be held during weeks 2, 3, 4, 6, 7, 9, 11 and 12.

Course Content

Note that this is a broad outline only. It is sufficient to enable students to read ahead of lectures and put themselves in a position to benefit from lectures. However, individual lecturers will sometimes deviate from the order given here. The chapter references are from Stiglitz and Walsh, *Economics* (International Student Edition), 4th edition.

Course outline ECON 130, 2009

Thinking like an economist

Chapters 1, 2
pp.6-15, 25-32, 34-39

L1 -2 Choices and tradeoffs
 Choices and incentives
 Choices and information
 Voluntary exchange
 The distribution of resources
 The logic of rational choice

Consumer choice

Chapters 5, 8, 9
pp.101-107, 109-116, 124-129, 188-189, 209-211

L3 -6 The budget line
 Preferences and utility
 The optimal consumption plan: equalise the marginal utility per dollar
 What happens if income rises?
 What happens if the price of one good increases?
 The choice between leisure and consumption
 The choice between consumption today and consumption tomorrow

Producer choice

Chapters 6, 7
pp.131-148, 155-169

L7 -10 Production functions: inputs and outputs
 Fixed versus variable costs
 Cost minimisation: equalise the marginal output per dollar
 Profit maximisation: marginal cost equals marginal revenue
 What happens if the price of an input increases?
 What happens if the price of the output increases?
 Short-run and long-run responses

Equilibrium

Chapters 3, 4, 10
pp.53-70, 88-95, 221-229

L11 -12 Demand and supply

Equilibrium: demand equals supply
The equilibrium and changes in demand
The equilibrium and changes in supply
Is the market efficient?

International trade

Chapter 19
pp.423-431, 439-443

L13 -14 Comparative advantage and the gains from trade
Tariffs
Some arguments against globalisation

The government

Chapter 17
pp.375-395

L15 -16 Taxation
Government spending
Why does the government fund health and education?
Market failures and government intervention

Finance

Chapters 9, 39
pp.191-197, 211-212, 865-871, 885-886

L17 -18 Time and interest rates
The present discounted value of revenue streams
Types of assets
Expected returns: risk, liquidity, and taxation

Saving and investment

Chapters 9, 24
pp.209-211, 536-539

L19 -22 The supply of loans: saving
The demand for loans: borrowing and investment
Equilibrium in the loans market
What happens if the supply of loans increases?
What happens if the demand for loans increases?

Growth

Chapters 8, 20, 27
pp.188-189, 453-457, 467-468, 585-592, 599-601

L23 -24 The capital stock
Technological change
Do people in rich countries work less than people in poor countries?

Course Learning Objectives

ECON 130 is an introduction to economic principles and their application to issues facing households, businesses and government in the New Zealand economy and the international economic environment.

At the end of the course, students should be able to:

- Explain and assess the key principles of economics
- Explain and assess the optimal production plans of firms
- Identify an equilibrium and the main influences on equilibrium prices and quantities
- Assess the benefits and costs of international trade
- Assess the role of the government in the economy
- Explain the basic concepts of finance
- Assess the main influences of national saving and investment
- Assess the causes and consequences of economic growth

Course Delivery

The course material will be delivered via 24 lectures (two a week for 12 weeks), plus eight tutorial sessions. It will be essential that students have access to the course Blackboard site.

Expected Workload

The expected workload for ECON 130 is 150 hours in aggregate; 10 hours per week during term, plus 30 hours (in total) during the break and study period. You should expect to spend ten hours per week on this subject during term, two hours in lectures, one hour in a tutorial (for eight of the weeks), and seven-eight hours reading and preparing for lectures and tutorials.

Group Work

There is no group work for ECON 130.

Readings

The required textbook for the course is:

Joseph E Stiglitz and Carl E Walsh, *Economics* (W W Norton), 4th Edition (International Student Edition), 2006, ISBN – 0-393-92622-2.

Some streams may have extra lecturer-prepared material on Blackboard. If you cannot find what you are looking for in your stream's Blackboard, please feel free to explore the folders for other streams.

The most appropriate **Supplementary reading**, which you will find helpful but which is not required, will vary according to your particular interests, experience and aptitude but may well include the following texts in the library.

William J Baumol and Alan S Blinder, *Economics: Principles and Policy* (Harcourt), 5th edition, 1991.

Robert H Frank and Ben S Bernanke, *Principles of Economics* (McGraw Hill/Irwin), 2nd edition, 2004.

Jerry Mushin, *Income, Interest Rates and Prices: An Overview of Macroeconomic Theory* (Dunmore Press), 3rd edition 1999.

Michael Parking, *Micoreconomics*, (Addison Wesley), 3rd edition, 1996.

John Sloman and Penelope de Boer, *Economics* (Pearson Education), 2009.

Alan C Stockman, *Introduction to Micoreconomics and Introduction to Macroeconomics*, (Dryden Press/Harcourt Brace), 1999.

If you are in doubt about the meaning of any economic terms, we suggest that you consult an online dictionary or a book such as D.W. Pearce (ed) *Macmillan Dictionary of Modern Economics* (1983). However, do not expect too much of a dictionary; Economics deals with concepts and ideas rather than words.

For those frightened of maths, we recommend:

Pat Belgrave and Colin Jeffcoat, *You can do maths: Introductory maths for tertiary students* (Dunmore Press, 1995).

G. Kennedy, *Mathematics for Innumerate Economists* (Homes and Meier, 1982), especially Chapters 1-4.

Penelope Proffitt, *Maths Made Easy* (Prentice Hall, 2002).

Some guides to the recent developments in the New Zealand economy include:

Paul Dalziel and Ralph Lattimore, - *The New Zealand Macroeconomy: Striving for Sustainable Growth with Equity* (Oxford UP, 2004).

Stuart Birks and Srikanta Chatterjee, (ed). *The New Zealand Economy: Issues and Policies* (Third edition, Dunmore Press, 1997).

Materials and Equipment

Silent non-programmable calculators may be taken into the test and examination. You may find a calculator useful, but they are by no means compulsory.

Assessment Requirements

Online tests	15%	via Blackboard – see below
Multi-choice test	24%	Wednesday 15 September, 6.30pm-7.20pm (50 minutes)
Examination	60%	26 October – 13 November (two hours)

The test on Wednesday 15 September 2010 (at 6:30pm) will consist of 40 multi-choice questions and cover the first six weeks of the course. In particular, all the material covered in lectures up to the end of lecture 12, and the application materials and all the reading specified in the course outline as relevant for those lectures will be examinable. A missed test will be entered as a zero unless either written permission has been granted **in advance** by the Course Administrator, or there are clear medical reasons for non-attendance, supported by written evidence from a doctor.

The final examination will be two hours. It will consist of 70 multi-choice questions and two written answers (to be chosen from four).

The online tests consist of 20 multi-choice questions to be completed at the end of each section of work. You will complete them via Blackboard. They can be found in the content area called *Online tests*. There are 10 such tests and your assessment will be based on all of these. Each test will be available for two teaching weeks after the relevant material has been taught. Each test will be shut down just before midnight on the announced Sunday. On the Monday morning, the test will then be available for study purposes, in the content area called *Tests for study purposes*.

Important note: You may sit each online test as many times as you like. However, for each test, your final attempt will be the one recorded and used to determine your assignment grade. This is due to technical difficulties associated with using our best score. If your final attempt does not

display a numerical score (for example, a padlock symbol or an exclamation mark), then you will need to resit the test or have your score recorded as zero. Each test must be submitted within 20 minutes, otherwise your mark will show as an exclamation mark (“!”), which will be interpreted as a score of zero. The administrator will fix these errors when the tests close off.

Numeracy test

In order to understand what we teach you, you will need to have a working understanding of some basic mathematical and logical concepts. An online numeracy test is available for you on the course Blackboard site, to revise your maths. Click on the content area, *Numeracy test*, and answer the 20 questions by midnight, Sunday 18 July. The test must be completed within 20 minutes. You can sit the numeracy test as many times as you wish. Notes to assist you with the online test can be found in the Blackboard contents areas, *Numeracy test*.

Note: Your assessed work may also be used for quality assurance purposes, such as to assess the level of achievement of learning objectives as required for accreditation and audit purposes. The findings may be used to inform changes aimed at improving the quality of FCA programmes. All material used for such processes will be treated as confidential, and the outcome will not affect your grade for the course.

Tutorials

Tutorials are groups of approximately 15-18 students and a tutor, meeting for fifty minutes, for eight weeks of the course. They provide a forum for discussing problems and working through exercises. You will choose a tutorial group during the first week of lectures.

Tutorial rooms and times will be available on <https://signups.victoria.ac.nz> from 12:00pm, on Monday 5 July. You can sign up to a tutorial at this site. Tutorial signup must be completed by 3pm on Thursday 15 July. Anybody not having signed up for a tutorial by that time will need to see the course administrator.

Tutorial exercises and discussion material are specified on Blackboard. This can be accessed at www.blackboard.vuw.ac.nz. The exercises have been designed to give structure to the tutorial sessions and to provide a focus for discussion, but it is expected that tutorials will range beyond them.

You are expected to prepare for tutorials by keeping up with the prescribed reading and by attempting the exercises in advance of your session. You should attempt, in writing, the questions before attending your tutorial. Tutorials are also your opportunity to raise and clarify any problems you may have with the material covered in lectures.

You must attend regularly the tutorial group to which you are assigned. If, because of work or timetable clashes, you are no longer able to attend your allocated tutorial, you must notify the course administrator, to assist you to find a suitable tutorial time.

Examinations

Students who enrol in courses with examinations are obliged to attend an examination at the University at any time during the formal examination period.

The final examination for this course will be scheduled at some time during the period **Friday 22nd October – Saturday 13th November 2010 (inclusive)**

Penalties

Late submission of the online tests is not technically feasible. Failure to attend the multi-choice test on 15 September will normally earn a grade of zero.

Mandatory Course Requirements

There are no mandatory course requirements for ECON 130.

Class Representative

For each stream, a class representative will be elected in one of the first classes, and that person's name and contact details will be available to VUWSA, the Course Coordinator and the class. The class representative provides a communication channel to liaise with the Course Coordinator on behalf of students.

Communication of Additional Information

Additional information will regularly be placed on the course Blackboard site. You will also receive emails sent to the email address recorded on Student Records. Please check at the start of the course that this is the address you want us to use.
