

School of Economics and Finance

FINA201: INTRODUCTION TO CORPORATE FINANCE

Trimester One 2011

COURSE OUTLINE

Names and Contact Details

The Course Coordinator and lecturer for the course is Martin Lally, RH 301, ext 5998, <u>martin.lally@vuw.ac.nz</u>. Students are free to contact him at any time.

Trimester Dates

Teaching Period: Monday 28 February – Friday 3rd June Study Period: Monday 6 June – Thursday 9 June Examination Period: Friday 10 June – Saturday 2 July (inclusive)

Withdrawal from Course

- 1. Your fees will be refunded if you withdraw from this course on or before 11 March 2011.
- 2. The standard last date for withdrawal from this course is 14 May 2011. After this date, students forced to withdraw by circumstances beyond their control must apply for permission on an '*Application for Associate Dean's Permission to Withdraw Late*' including supporting documentation

The application form is available from either of the Faculty's Student Customer Service Desks.

Class Times and Room Numbers

Lectures are provided in two streams: First stream on Tuesdays and Fridays 9.30pm to 10.40am (RHLT1) Second stream on Tuesdays and Fridays 4.40pm to 5.30pm (RHLT2). Each student will be allocated to one of these two streams. Tutorials are available as indicated on the S-cubed system as described below – Course Delivery

Course Learning Objectives

The course learning objectives are to

- (C1) demonstrate an understanding of the theoretical underpinnings and use of the net present value method to value shares, bonds and projects
- (C2) demonstrate an understanding of the weaknesses in alternatives to the NPV method
- (C3) demonstrate an understanding of capital structure and dividend policy theorems and their relevance to value and risk
- (C4) apply the above skills to determine the value of a proposed investment

Course Delivery

The delivery of the course will involve tutorials during eight of the weeks in the course, starting in the third week. Tutorial assignments will be distributed in the preceding week's lecture class, and should be completed in preparation for the tutorial class. Tutorial attendance is desirable but not compulsory. Students should choose and sign up for a tutorial through S-Cubed at http://signups.victoria.ac.nz

You should go to this site over a period and then follow the onscreen instructions.

Expected Workload

The anticipated workload is about 10 hours per week, comprising two hours for lectures, one hour for a tutorial, three hours to prepare the tutorial assignment, and four hours for reading.

Readings

The prescribed text is S. Ross, R. Westerfield and J. Jaffe, *Corporate Finance*, 9th edition, McGraw-Hill Irwin, 2010 (RWJ). The readings for each week are indicated in the attached Course Content schedule.

The examinable material constitutes the lecture material and tutorial assignments. The prescribed reading is intended to assist in the comprehension of this. Accordingly it should be read <u>prior</u> to the relevant lectures, and possibly also afterwards as a follow-up.

Materials and Equipment

Students are permitted to use electronic calculators in the exams, providing that they are not programmable and do not have a full set of alphabetic keys.

Assessment Requirements

Assessment for the course will be determined in the following way. The following rule is initially applied.

In-Term Exam 7th May, 10.30am-12.30pm - RHLT1 & 2, course objectives C1, C2 30% Final Exam (in the period 10 June to 2 July incl), 3 hrs, course objectives C1–C4 70%

If this assessment rule yields a fail, and shifting the weight on the first exam to the final exam yields a pass, then the student will be granted 50%. For example, if the student's results are 40% and 60% for the first and second exams respectively, then application of the initial rule yields an overall result of 54%. This is a pass, and therefore is not altered. By contrast, if the student's results are 20% and 55%, application of the initial rule yields an overall result of 45%, which is a fail; shifting all of the weight to the final exam yields an overall result of 55%, which is a pass, and therefore the student would be given 50%.

The in-term test will be multi-choice and cover the material presented in lectures in the first six weeks (and the associated tutorial assignments). The final exam will be of conventional form and cover the entire course, with about 30% based on the first six weeks material and the remaining 70% on the last six weeks material.

Note: Your assessed work may also be used for quality assurance purposes, such as to assess the level of achievement of learning objectives as required for accreditation and audit purposes. The findings may be used to inform changes aimed at improving the quality of FCA programmes. All material used for such processes will be treated as confidential, and the outcome will not affect your grade for the course.

Examinations

Students who enrol in courses with examinations are obliged to attend an examination at the University at any time during the formal examination period. The final examination for this course will be scheduled at some time during the period from Friday 10 June – Saturday 2 July 2011.

Mandatory Course Requirements

There are no mandatory requirements for passing the course.

Class Representative

A class representative will be elected in the first week, and that person's name and contact details made available to VUWSA, the Course Coordinator and the class. The class representative provides a communication channel to liaise with the Course Coordinator on behalf of students.

Communication of Additional Information

Additional information will be conveyed by Blackboard.

Additional Courses

Students anticipating undertaking 400 level Finance, or who anticipate working in the finance industry, are strongly advised to undertake more mathematics/statistics than that prescribed as a prerequisite for FINA201 and FINA202. Relevant statistics courses are QUAN 201, 202, ECON 301, 303 and STAT 292, 293, 332, and 391. The relevant mathematics courses are QUAN 203, MATH 243, 244 and 301.

In addition, students who anticipate working in the finance industry are strongly advised to undertake courses in financial accounting, since Annual Reports are significant sources of information in valuing companies. The relevant courses are ACCY 231, 306, 308.

Students anticipating 400 level study need to ensure that they have the appropriate undergraduate pre-requisites to permit a full 8 course programme at 400 level. Such students are strongly encouraged to discuss this with a member of the School of Economics and Finance (SEF) before they finalise their courses for their final undergraduate year.

Course Content & Background Reading

Week Beginning	Subject/Background Reading
Feb 28	Introduction RWJ Ch 1, 2
March 6, 13	Capital Budgeting: Discounting and the NPV rule RWJ Ch 4
March 20	Capital Budgeting: Alternative Approaches RWJ Ch 5
March 27, April 4	Capital Budgeting: Determination of Expected Cash Flows RWJ Ch 6
April 11	Capital Budgeting: Sensitivity Analysis RWJ Ch 7
May 7	EXAM (10.30am-12.30pm, covering the first six weeks material, room RHLT1)
May 2, 9	Capital Structure RWJ Ch 16
May 16, 23	Weighted Average Cost of Capital: Theory and Estimation RWJ Ch 13
May 30	Dividend Policy RWJ Ch 19

Background reading should be done <u>prior</u> to the relevant lectures in order to obtain the maximum benefit from it, and possibly also after it as a follow-up.
