This course examines accounting and financial management in the context of the New Zealand public sector. The role and nature of public sector accounting, and the theories that underpin current accounting practices, will be discussed. Literature will be drawn from a range of disciplines, including economics and public management as well as accounting and finance.

Course Learning Objectives

By the end of this course, students should be able to:

1. Understand the public sector environment in New Zealand and how the country is governed.
2. Understand accounting, financial management and auditing in the public sector.
3. Understand the integrated management cycle – strategic planning; budgeting & resource allocation; operations and budget implementation; and monitoring and reporting.
4. Analyse whether, and how, financial management in New Zealand addresses the following four questions regarding the operations of the government:
 - Is it managing its financial affairs prudently? [the money thing]
 - Is it achieving what it set out to achieve? [efficiency Vs effectiveness]
 - Is it looking after its assets (people, infrastructure, intellectual capital); so it can deliver results (outcomes and outputs) in the future? [capability & risk management]
 - Is it carrying out its activities in accordance with the law and expected standards of conduct and probity? [authority & probity]
5. Analyse particular public sector accounting and reporting issues and practices.

Course Delivery

The formal instruction in this course consists of 23 lectures of 50 minutes each, plus 6 tutorials of 50 minutes each. It is expected that students will attend all of these classes and be adequately and appropriately prepared to participate in them.

Expected Workload

The expected workload for this course is approximately 150 hours. This is comprised of 29 hours of lectures and tutorials; another 8 hours per week on preparatory and background reading, Project and Essay preparation and tutorial preparation; and 25 hours revising and preparing for the Final Test.

Readings

For most class sessions there will be assigned readings. These are the **minimum** preparation required for each session. Reading in preparation for the essay and the project will need to be wider than the assigned readings. Suggested reading resources are set out in detail on pages vii-ix.

The following are the required readings:

- **Course Material Book** – Parts 1 and 2. This can be obtained from the VUW bookshop at the start of the trimester.
- **A Guide to the Public Finance Act – The Treasury**
- **Course Text: The Treasury; Putting it Together – An Explanatory Guide to the New Zealand Public Sector Financial Management System** Wellington 1996. (Available from the VUW bookshop or can be downloaded from the Treasury website – www.treasury.govt.nz/publications/guidance/publicfinance/pit).

[N.B. “Putting it Together” is not sufficient by itself to understand the material covered in this course – you need to attend all lectures and tutorials and read the readings included in the Course Book. In addition, some of Putting it Together’s contents are now out-of-date.]

Relevant legislation

Legislation can be viewed free of charge at: www.legislation.govt.nz/

The Treasury administers two of the four major statutes that establish the legislative framework for the New Zealand government's public sector financial management system:

- Public Finance Act 1989 [major amendment in 2004]
- State-owned Enterprises Act 1986 [major amendment in 2004]

Information about these two Acts can be found on the Treasury website, starting from: <http://www.treasury.govt.nz>

The State Services Commission (SSC) administers other two major pieces of legislation:

- State Sector Act 1988 [major amendment in 2004]
- Crown Entities Act 2004

Information about these Acts can be found on the SSC website at: <http://www.ssc.govt.nz/>

The Department of Internal Affairs administers the Local Government Act 2002. Information about the Act can be found at:

Many public sector organisations operate under specific legislation that is likely to determine the responsibilities, functions, and specific financial management and accounting requirements for the organisation. An example of such legislation is the Education Act 1989, which applies to schools and universities.
