

School of Information Management

INFO404 e-COMMERCE RESEARCH

Trimester 2 2012

COURSE OUTLINE

Names and Contact Details

Course Coordinator: Dr. Eusebio Scornavacca Room: RH 412, Rutherford House, Pipitea Campus

Phone: 463 6697

Email: eusebio.scornavacca@vuw.ac.nz

Trimester Dates

Monday 16 July to Friday 26 October

Withdrawal from Course

- 1. Your fees will be refunded if you withdraw from this course on or before Friday 27 July 2012.
- 2. The standard last date for withdrawal from this course is Friday 28 September. After this date, students forced to withdraw by circumstances beyond their control must apply for permission on an 'Application for Associate Dean's Permission to Withdraw Late' including supporting documentation

The application form is available from either of the Faculty's Student Customer Service Desks.

Class Times and Room Numbers

Times: Thurdays, 9.30-12:20 Venue: Room RWW 128

Course Content

Week	Date Date	Topic				
1	19 July	E-commerce Research				
		Introduction to the course, assignments and philosophy.				
2	26 July	EC LITERATURE				
		Where to find e-commerce Research				
		Readings:				
		a) Mylonopoulos, N.A. and Theoharakis V. (2001). "Global perceptions of IS journals". Communications of the ACM,				
		44 (9), 29-33.				
		b) Bharati, P. and Tarasewich P. (2002) "Global perceptions of				
		journals publishing e-commerce research" Communications				
		of ACM, 45 (5) p. 21—26				
		c) Lamp, J. W. (1998). Index of Information Systems				
		Journals. Geelong, Deakin University. [Online]

"The impact of use context on mobile services acceptance: the case of mobile ticketing " Information & Management 46: 190-195.

Although we intend to follow the schedule as closely as possible, variations may be necessary.

Course Learning Objectives

By the end of this course students should able to:

- 1. Understand the broad domain of e-business research and identify key journals and conferences that publish research articles in this field. LG1,2,3
- 2. Search for specific literature within the e-business domain. LG1,2
- 3. Identify and evaluate the fundamental elements of a research paper.
- 4. Critique and discuss existing research in e-business. LG 3,4,5
- 5. Identify key contributions of e-business research and apply them to practical business situations. LG 1,3

Course Delivery

In this paper you will be introduced to current research issues in e-commerce and e-business. Each week we will discuss a different topic by means of a mini-lecture providing a general orientation to the topic, followed by readings, understanding and critiquing research papers written by academics in the field.

Expected Workload

You are required to attend all course sessions, read assigned materials, and contribute to discussions. For each week of the course, plan to spend three hours in class and hours preparing for class. Additional time will be required for completion of course assignments. Total workload should be approximately 150 hours.

Attendance: On-time attendance is mandatory. Do NOT miss class. Do NOT be late. Please inform the course coordinator if for some reason they cannot attend a session.

Readings

Readings will be supplied for each week via Blackboard. You will make extensive use of the University Library print and electronic media and appropriate use of Internet resources, but care should be taken to ensure that only authoritative sources are used. There is no set text.

Readings will be supplied for each week via Blackboard. You will make extensive use of the University Library print and electronic media and appropriate use of Internet resources, but care should be taken to ensure that only authoritative sources are used. There is no set text.

Assessment Requirements

The course assessments must be submitted to the course coordinator for marking on the dates specified. The format for submissions and details of what is required for each assignment are given in the course assignments document. All assignments will contribute to the course mark of each student, according to the assessment ratio given below.

Course assessment will be based on:

Article critique	20%
Class participation	15%
Assignment 1: reading list	25%
Assignment 2: e-business case study	40%
Total	100%

Article critique (20%)

For each session, two students (depending in class numbers) will prepare and present a detailed critique of a recently published article related to the topic for that week. The presenters will also lead the class discussion of the topic. In addition, a handout of the PowerPoint slides presentation must be provided to class on the day of the presentation. No extensions can be granted on this assessment item.

Class Participation (15%)

Each individual's course participation will be monitored; the emphasis will be on quality, rather than quantity or frequency. Students are expected to attend every class, to read the readings for each week, and to come prepared to contribute to class discussion. Volunteers are preferred in class discussions, however you may be "cold called" at any time. The injection of a unique perspective into a discussion, inter-relating various analyses, and drawing together or synthesising things learned from a discussion will be particularly valued. Timely and useful questions can also be an effective contribution. Gathering and presenting information beyond the confines of the course readings will also be highly valued. Chip shots – brief "me too" comments that add little to the discussion – will not be highly valued.

Assignment 1: reading list (25%)

Due: 1:00 pm on 10 September 2012. In this assignment students will read a case study in order to identify current business challenges. Students will develop the skill to search and identify key e-business research that is relevant to a practical business situation. This will create a useful exercise for the examination of conceptual and theoretical issues related to current e-commerce research.

Assignment 2: e-business case study (40%)

Due: 1:00 pm on 26 October 2012. In this assignment, students will analyse a recent e-business case study. First, students will provide a summary of the business scenario. Second, they will identify a research problem in the case. Then, they will link and evaluate the possible contribution of each research article presented in the course readings to their specific research problem. Finally, students will provide a critical evaluation about how e-commerce research can benefit e-commerce practice.

The following note should be included in every course outline:

Quality Assurance Note

Your assessed work may also be used for quality assurance purposes, such as to assess the level of achievement of learning objectives as required for accreditation and audit purposes. The findings may be used to inform changes aimed at improving the quality of FCom programmes. All material used for such processes will be treated as confidential, and the outcome will not affect your grade for the course.

Penalties

In keeping with standards of professionalism appropriate to this programme, it is expected that deadlines will be honoured. In fairness to students who complete work on time, work submitted after the due date/ time will incur penalties for lateness. The penalty is up to 10 % of the report's grade per day (or part thereof) late. Unusual or unforeseeable circumstances (e.g. serious illness, family bereavement) may lead to a waiver of this penalty but need to be discussed with the paper coordinator as soon as possible, and substantiated by documentary evidence.

Mandatory Course Requirements

Grading standards:

Letter Grade	Number grade	Approx Dist'n *	Simple Description	More Complete Description**
A+	Over 84	4%	Outstanding	Far exceeds requirements, flawless, creative
A	80-84	10%	Excellent	Polished, original, demonstrating mastery
A-	75-79	14%	Very Good	Some originality, exceeds all requirements
B+	70-74	22%	Good	Exceeds requirements in some respects
В	65-69	26%	Satisfactory	Fulfils requirements in general
B-	60-64	18%	Acceptable	Only minor flaws. Unoriginal
C+	55-59	4%	Pass	Mistakes, recapitulation of course material
С	50-54	2%	Minimum pass	Serious mistakes or deficiencies
D	40-49	1%	Unacceptable	Little understanding, poor performance
Е	00-39	1%	Fail	Below the minimum required

^{*} This is the hypothetical percentage of students that would attain the various levels of performance, over several repetitions of the course, under similar conditions. It is recognized that the distribution in a particular course, particularly with small enrolment, may differ markedly from the long-term distribution.

Class Representative

A class representative will be elected in the first class, and that person's name and contact details made available to VUWSA, the Course Coordinator and the class. The class representative provides a communication channel to liaise with the Course Coordinator on behalf of students.

Communication of Additional Information

Supplementary materials may be provided from time to time by the course co-ordinator. Communication of additional information may be made via email, announcements in class, of via Blackboard.

^{**} The lecturer will develop a more complete or specific description of the meaning of the various levels of performance based upon the specific nature of the assessment in a course. For example, performance may be determined by the qualities of a written report, a classroom presentation, or work in a group project. The words used to describe these kinds of assessments will obviously vary.

Use of Turnitin (if applicable)

Student work provided for assessment in this course may be checked for academic integrity by the electronic search engine http://www.turnitin.com. Turnitin is an on-line plagiarism prevention tool which compares submitted work with a very large database of existing material. At the discretion of the Head of School, handwritten work may be copy-typed by the School and subject to checking by Turnitin. Turnitin will retain a copy of submitted materials on behalf of the University for detection of future plagiarism, but access to the full text of submissions will not be made available to any other party.
