Examinations

Students who enrol in courses with examinations are obliged to attend an examination at the University at any time during the formal examination period. The final examination for this course will be scheduled at some time during the following period:

Friday 10th June – Wednesday 29th June (inclusive)

Penalties

Assignments handed in late will not be marked and a score of zero will be recorded. A score of zero will also be recorded for missed tests. If a satisfactory medical certificate is provided, the student will be exempted from the relevant assessment and the marks from the assessment will be shifted proportionally to the other assessments. For example, if a student is excused from Test 1, then the total grade percentage of the final exam increases from 45% to $50.56\% = (.45)(100/89)$. The weights of all other assessments also proportionally increase. For the medical certificate to be deemed satisfactory, the medical professional must have examined the student prior to the date of the assessment and when the student exhibited symptoms.

Materials and Equipment

Non-programmable calculators or ones with the memory cleared are allowed on tests and the exam.

Student feedback
