ORGANISATION PROFILES

AROTEC DIAGNOSTICS LTD (3)

AROTEC, based in Seaview, is a global leader in the production of high-quality critical components for the global autoimmune diagnostic industry, with 100 percent export sales. AROTEC purifies proteins by meticulous chromatographic refinement. The company recently ran two summer student projects, and one participant is now a full-time employee. AROTEC would like to employ more local staff with biochemistry skills.

ASUREQUALITY (28)

Our purpose is to shape a better food world. We recruit for roles in auditing, food safety, food testing, industry training services HACCP, meat inspection, specialty services (biosecurity, field, and laboratory services), and more.

CHIASMA WELLINGTON (10)

Chiasma is a nationwide organisation that creates links between academia and the wider science, technology, and engineering (STEM) industries. Our mission is to help and inspire our student members to develop a successful career in STEM industries by providing them with the necessary skills, networks, and mindset.

CONSERVATION VOLUNTEERS NEW ZEALAND (11)

We bring volunteers together to plant and care for native trees, eradicate pests and weeds, protect threatened species, and help make our natural spaces accessible to everyone. We have volunteer opportunities all over the Wellington region most weekdays. All tools, gloves, and training are provided. Transport is available too.

DEPARTMENT OF CORRECTIONS (17)

The Department of Corrections—Ara Poutama Aotearoa offers a unique opportunity to contribute to public safety and positive social change. We manage community-based and prison-based corrections, aiming to rehabilitate offenders and reduce reoffending rates.

EAGLE TECHNOLOGY (26)

Eagle Technology is a New Zealand-owned IT company enabling the use of GIS across New Zealand and the South Pacific. Esri Technology powers the maps and enables the people who are solving the region's most complex location challenges. Applications for the GIS graduate role opened on 4 March and those for the summer internship open later this year.

EMBASSY OF JAPAN—JET PROGRAMME (14)

The Japan Exchange and Teaching (JET) Programme seeks to enhance internationalisation in Japan by promoting mutual understanding between the people of Japan and those of other nations. The programme aims to enhance foreign language education and promote international exchange at the local level through the fostering of ties between Japanese and foreign youth.

ENGEO (30)

ENGEO is an award-winning firm of geotechnical engineers, geologists, environmental scientists, and hydrologists.

ENVIRONMENTAL PROTECTION AUTHORITY (18)

The Environmental Protection Authority (EPA) is Aotearoa/New Zealand's environmental regulator. Our work is all about protecting the environment and enhancing a safe and sustainable way of life, and future, for all New Zealanders. We're involved in hazardous substance approvals and compliance, we administer the ETS, and we process RMA approvals.

FULBRIGHT NEW ZEALAND (20)

Fulbright New Zealand offers a range of exchange awards for New Zealanders and Americans wanting to study, research, teach, or present their work in each other's country. The Fulbright programme of international educational exchange was an initiative of American Senator J. William Fulbright from Arkansas, who, in the aftermath of World War II, believed that mutual understanding between different countries and cultures was crucial to ensure a peaceful future for the world.

GOVERNMENT HEALTH AND SAFETY LEAD (4)

Graduating this year and wondering, "Where to next?" Check out our exciting paid public-sector summer health, safety, and wellbeing internships, running from mid-November 2024 to mid-February 2025. Applications open 29 July 2024.

MALAGHAN INSTITUTE OF MEDICAL RESEARCH (MIMR) (16)

We are an independent biomedical research facility focusing on immunology and immunotherapy. Our research teams undertake fundamental and applied research, advancing our understanding of the immune system to fight disease.

Our teams make new discoveries in the laboratory, translating them into new treatment options and testing them in the clinic.

MEDICAL RESEARCH INSTITUTE OF NEW ZEALAND (23)

The Medical Research Institute of New Zealand is Aotearoa New Zealand's leading independent medical research institute. Our research teams are dedicated to investigating important public health problems, delivering high-quality evidence on which to improve the management of disease and patient care.

METSERVICE (2)

With a global reputation for using science and technology to help customers and the public navigate the impacts of the weather, MetService is a diverse and inclusive employer. Our people contribute passionately to the core purpose of helping people stay safe and make informed decisions.

Our changing climate, increasing impacts from weather, and changes in the way the public consume weather information mean that the way MetService engages in the future will continue to evolve.

NEW ZEALAND DEFENCE FORCE (8)

As New Zealand's Defence Force, we run deep. Our shared purpose and experiences forge unbreakable bonds. When you run with us, you'll work as part of a tight-knit team within the air force, army, or navy, protecting your people, your country, and the environment. We work shoulder to shoulder, always backing each other and proudly representing Aotearoa wherever we go.

NEW ZEALAND OCCUPATIONAL HYGIENE SOCIETY (NZOHS) (27)

The New Zealand Occupational Hygiene Society is a network of occupational hygiene professionals who further the practice, professionalism, and recognition of the industry in New Zealand. The NZOHS was officially launched in 1994.

NZCL (25)

NZCL is a part of Healthcare NZ, New Zealand's largest healthcare, disability, and wellbeing support provider.

OPENSTAR TECHNOLOGIES (7)

OpenStar is a fusion technology company based in Te Whanganui-a-Tara, Wellington. We are recreating the feats of Māui by harnessing the power of the sun for abundant, clean energy. Key contributing disciplines in achieving this goal include physics, mathematics, computer science, and most engineering studies.

PATTLE DELAMORE PARTNERS (PDP) (29)

PDP is a leading environmental and engineering consultancy offering solutions for environmental issues through our specialised services. Working on a wide variety of projects ranging from major infrastructure projects to investigations on the natural environment, we aim to cover the entire range of environmental services required by our clients in air, land, and water.

We have a strong focus on health and wellness and an enthusiastic and active social club. We would love to help you explore career opportunities at PDP if you are a science or engineering student.

PLUNKET (5)

Whānau Āwhina Plunket is a national not-for-profit organisation and the largest provider of support services for the development, health, and wellbeing of tamariki and whānau.

Start your career with us! We have clinical, professional positions, and community engagement positions.

ROBINSON RESEARCH INSTITUTE (24)

The Paihau—Robinson Research Institute is New Zealand's premier research institute for superconducting magnet science and engineering. Our professional scientists and engineers are based within world-class facilities and deliver commercial outcomes and partnerships around the globe. Our mission is to develop and deliver world-changing new technologies that will enable a global sustainable future.

SAMARITANS OF WELLINGTON INCORPORATED (12)

Samaritans' mental health telephone helpline volunteers provide confidential, non-judgmental support to callers. We offer students the opportunity to train and develop skills required to listen with empathy and affirmation, supporting callers to look for positivity and options in their situation. Our volunteers have access to free ongoing professional development training.

TE HERENGA WAKA—VICTORIA UNIVERSITY OF WELLINGTON POSTGRADUATE STUDY (21)

The team at Te Kahupapa—Future Students can assist with general advice surrounding courses and degree planning here at Te Herenga Waka—Victoria University of Wellington.

TE KĀURU—FERRIER RESEARCH INSTITUTE (19)

Te Kāuru—Ferrier Research Institute has a world-class team of experts in chemistry and biology. We offer the Master of Drug Discovery and Development one-year Master's-level taught and research programme that will help you gain the knowledge and skills you need to join the fast-growing, multi-billion-dollar pharmaceutical industry.

Based at the institute in Lower Hutt, you'll study alongside practising scientists and researchers who have successfully brought drugs to market, in an environment that brings together the best of academia and industry.

TE RAU ORA (13)

Our goal is to improve Maori health through leadership, education, research and evaluation, health workforce development, and innovative systemic transformation. We strengthen Māori health and wellbeing through nationally navigated and locally led solutions.

TOITŪ TE WHENUA—LAND INFORMATION NEW ZEALAND (15)

We're the government's lead agency for property and location information, Crown property, and managing overseas investment, working across land, sea, data, and regulatory areas.

TŪ ORA COMPASS HEALTH (31)

Tū Ora Compass Health is a primary care network and not-for-profit social enterprise that provides quality primary healthcare services to an enrolled population of 331,000 people across the Wellington, Porirua, Wairarapa, and Kāpiti areas.

We offer services and information on topics such as child and youth, community health networks, healthy lifestyles, hepatitis C, immunisation services, mental health, nursing, Pacific health services, Piki, respiratory services, sexual assault, sexual health, and many more.

WELLINGTON CAREERS AND EMPLOYMENT (1)

Your careers service on campus.

WESTPAC NEW ZEALAND LTD (6)

We're looking to fill our programmes with original thinkers and innovators from all degrees of study. We embrace diversity, recognising the value people bring to us with their individual differences, qualities, ideas, and insights.

YOUTHLINE WELLINGTON INC. (9)

Youthline's primary purpose is to provide a safe youth-centred service that supports and empowers rangatahi. We do this through our telephone, web, email, and text counselling services, through our education services (primarily to youth in the Wellington region, but also to others in need), and by training young people to volunteer at Youthline Wellington and support their community.
