ORGANISATION PROFILES

ACCENTURE (28)

Accenture is a leading global professional services company that helps the world's leading businesses, governments, and other organisations build their digital core, optimise their operations, accelerate revenue growth, and enhance citizen services—creating tangible value at speed and scale. We have a broad range of services, solutions, and assets across Accenture Song, Industry X, operations, strategy and consulting, and technology.

ATLASSIAN (22)

Armed with a credit card and a dream, university friends Mike Cannon-Brookes and Scott Farquhar set out to create Atlassian in 2002. Now, we're a team of 8,000+ supporting an international group of 180,000+ customers. We build tools such as Jira, Confluence, and Trello to help teams across the world become more nimble, creative, and aligned. Using those tools, our customers and teams have helped put the Mars Curiosity Rover into space, develop the cochlear implant, and built thousands of products launched to millions of customers around the world.

AURECON (6)

Aurecon's strength has always been our people. It's our people who build our shared purpose and bring ideas to life. It's our people who imagine and co-create with our clients a better future for people and the planet. You'll probably know lots of our award-winning projects.

BOOSTER FINANCIAL SERVICES (3)

Booster, a Kiwi-owned financial services company, has been growing New Zealanders' money and financial confidence for more than 25 years. Beyond offering KiwiSaver funds and investments, we have pioneered a digital-first environment, empowering customers to control their financial future.

CONTACT ENERGY (11)

Home is the most important place in the world. It's our long-term vision to create and contribute to a better New Zealand, from the homes and communities we live in, to the land and resources that future generations can enjoy. We need the energy of New Zealand's youth to help us decarbonise Aotearoa.

DATAKOM (23)

Datacom is Australasia's largest homegrown tech company. We proudly bring together technology and expertise to deliver sustainable solutions for some of New Zealand and Australia's largest and most successful corporations.

DELOITTE (24)

Deloitte is a professional services firm with nine offices around New Zealand. We have a broad range of opportunities open to students from a variety of study backgrounds. Graduates at Deloitte are an important part of the team from day one, working face-to-face with clients on jobs that are relevant to your interests in a supportive environment where everyone is invested in your training and growth.

DXC TECHNOLOGY (1)

DXC Technology helps global companies run their mission-critical systems and operations while modernising IT, optimising data architectures, and ensuring security and scalability across public, private, and hybrid clouds. The world's largest companies and public-sector organisations trust DXC to deploy services to drive new levels of performance, competitiveness, and customer experience across their IT estates.

EAGLE TECHNOLOGY (16)

Eagle Technology is a New Zealand-owned IT company enabling the use of Esri's GIS technology across New Zealand and the South Pacific. Esri Technology powers the maps and enables the people who solve the region's most complex location-based challenges. Applications opened for our graduate programme on 4 March and will open for our summer internship later this year for students who are yet to graduate.

EY (7)

Join EY and shape a better working world. Applications for our career compass, graduate, and internship positions opened on 4 March. Working across Oceania is our key differentiator, getting exposure to clients and work across not only New Zealand but also Australia. We offer services in assurance (audit, climate change, forensics), consulting (actuarial services, business consulting, data and analytics, financial services, technology consulting), strategy, tax, and transactions.

FAST ENTERPRISES (15)

We specialise in essential software for citizens and government agencies. Our work happens on client sites as part of the product implementation. We recruit graduates with strong technical and communication skills who understand technical aspects of systems implementation and the business needs of their clients. Employees participate in the full project life cycle, from requirements gathering through to production support.

FINGERMARK (13)

As industry leaders, Fingermark is at the forefront of the QSR industry's technological transformation. We optimise and empower QSRs by leveraging our leading technology solutions to increase speed and efficiency throughout their operations.

GRANT THORNTON (21)

Grant Thornton New Zealand is a member of an ambitious global organisation providing advisory, audit, and tax services to dynamic organisations to unlock their potential for growth. Our proactive teams, led by approachable partners, use experience, insights, and instinct to understand complex issues for privately owned, publicly listed, and public sector clients.

IMC TRADING (8)

Our relentless pursuit of innovation in technology-driven trading runs throughout the entire organisation. IMC launched on the floor of the Options Exchange in Amsterdam in 1989, where we were among the first to spot the importance of technology and innovation in the evolution of market making. We've been reinventing technology-driven trading ever since.

Across our offices in Amsterdam, Chicago, Sydney, and Mumbai, technologists and traders team up to improve our strategies while creating solutions to the world's toughest problems.

JANE STREET (30)

Jane Street is a global quantitative trading firm hiring smart, humble people who love to learn.

We hire New Zealand students for our Hong Kong-based graduate and internship roles (December to February) in quantitative research, quantitative trading, software engineering, strategy and product, and more.

KIWIRAIL (4)

KiwiRail is one of New Zealand's largest employers, with proud staff operating in more than 50 towns and cities across the country.

KPMG (9)

As a professional services firm that specialises in audit, tax, and advisory, we are known for providing strategic insight that gets results. With around 1,500 staff working across Aotearoa, we know that our people are our strength and our future.

Interested in working with us to fuel New Zealand's prosperity? Come along and talk with the team about how to #Makeyourmove with KPMG.

NEW ZEALAND DEFENCE FORCE (14)

As New Zealand's Defence Force, we run deep. Our shared purpose and experiences forge unbreakable bonds. When you run with us, you'll work as part of a tight-knit team within the air force, army, or navy, protecting your people, your country, and the environment. We work shoulder to shoulder, always backing each other and proudly representing Aotearoa wherever we go.

NEW ZEALAND TRANSPORT AGENCY—WAKA KOTAHI (12)

At NZTA—Waka Kotahi, it all starts with our people. The organisation's performance and success depend on the people who choose to make this a great place to work and make a difference for Aotearoa.

We are looking for graduates who have studied and are interested in career pathways in civil, construction, and digital engineering and planning, property, and project management to start in our Emerging Professionals Programme from February 2025.

OPENSTAR TECHNOLOGIES (29)

OpenStar is harnessing the power of the sun to make a difference in the fight against the climate crisis. We innovate, iterate, and execute with our world-class team on a journey to building a levitated dipole experiment, sparking plasma, and generating clean, efficient energy.

ROBINSON RESEARCH INSTITUTE (26)

The Paihau—Robinson Research Institute is New Zealand's premier research institute for superconducting magnet science and engineering. Our mission is to develop and deliver world-changing new technologies that will enable a global sustainable future.

SHARESIES (18)

Kia ora, we're Sharesies. We're a wealth-development platform with the purpose of creating financial empowerment for everyone. Our vision is to give someone with \$5 and someone with \$5 million the same investment opportunities.

STANTEC NEW ZEALAND (5)

Communities are fundamental. At Stantec, we always design with community in mind.

We're designers, engineers, planners, scientists, and project managers, innovating together at the intersection of community, creativity, and client relationships. Balancing these priorities results in projects that advance the quality of life in communities across the globe. Stantec trades on the Toronto and New York stock exchanges under the symbol STN. Visit us at stantec.com or find us on social media.

SUMMER OF TECH (25)

Looking for Paid summer internships or graduate roles? Summer of Tech is a non-profit organisation, empowering Aotearoa's diverse tech students to bridge the gap between learning and earning. We connect tech students with the best in the biz for paid internships and jobs. We also run bootcamps (industry-led student events) all year long to help you prepare for your career, and provide valuable networking opportunities. And the best bit is it's FREE for students!

TE HERENGA WAKA—VICTORIA UNIVERSITY OF WELLINGTON POSTGRADUATE STUDY (27)

The team at Te Kahupapa—Future Students can help students with course advice and degree planning.

TRANSPower NEW ZEALAND LTD (17)

We provide the infrastructure and market systems that connect electricity generators to major electricity users and distribution networks that deliver electricity to homes and businesses around the country. (We don't own, generate, or sell electricity.)

TRIMBLE (2)

Trimble is an industrial technology company, concentrating on helping the world work better. Our technology enables jobs to get done more precisely and accurately so you can build, construct, grow, and move the things we need to live our lives and build future communities. We are transforming the way the world works by connecting the physical and digital worlds through hardware, software, and services across agriculture, construction, geospatial, and transportation.

TUI TECHNOLOGY (20)

Tui Technology is a factory automation specialist providing production solutions and knowledge to customers across a range of industries throughout Australasia. We are at the forefront of technology and its applications, with world-class capability in machine intelligence.

WELLINGTON CAREERS AND EMPLOYMENT (31)

Your careers service on campus.

WESTPAC NEW ZEALAND LTD (10)

We're looking to fill our programmes with original thinkers and innovators from all degrees of study. We embrace diversity, recognising the value people bring to us with their individual differences, qualities, ideas, and insights.

WĒTĀ FX (19)

Wētā FX is the standard-bearer for creative innovation in visual effects and animation, attracting talent, partners, and clients who seek a collaborator that embraces and nurtures their artistic vision. Our renowned proprietary pipeline provides artists with the tools and infrastructure they need to create their best work. Headquartered in Wellington, New Zealand, with creative hubs in Vancouver, Canada and Melbourne, Australia, we are 1,500 of the most ambitious artists, engineers, and executives you're likely to meet.
