Te Herenga Waka—Victoria University of Wellington has an overall five-stars-plus rating in the QS Stars university rating system, one of only 23 universities worldwide to do so. The University gained a total score of 966 out of a possible 1,000 points across eight audited categories, including maximum points for the employability and inclusiveness categories. Maximum points were awarded for 25 of the more than 30 indicators, including overall student satisfaction; further study; graduate employment rate; international diversity, support,

and collaborations; academic reputation; satisfaction with teaching; campus facilities; accreditations; art and cultural investment and facilities; disabled access; scholarships and bursaries; low-income outreach; and student cohort diversity.

IMPORTANT NOTICE: Te Herenga Waka—Victoria University of Wellington uses all reasonable skill and care to ensure the information contained here was accurate at the time it was prepared. However, matters covered by this publication are subject to change due to a continuous process of review, and to unanticipated circumstances. TOHU PAETAHI TAUHOKOHOKO

BACHELOR OF COMMERCE

EVOLVE FROM LEARNER TO LEADER

Our innovative Bachelor of Commerce (BCom) will develop your critical thinking, teamwork, and problem-solving skills, ensuring you are ready to take on the real-world challenges in business and government.

It's the most flexible Bachelor of Commerce in Aotearoa New Zealand. Our core courses have been created to support your success. We will set you up with strong foundations by providing essential tools for study and skills to enhance your future employability and career development. When you choose your major (or majors) from our wide variety of subject areas, you will have the opportunity to study things you are passionate about. The three-year BCom has a lot of flexibility built into it and you can easily change your major if your study interests or goals change. You can also add a minor to explore your interest in one of three exciting areas: Banking, Econometrics, and Innovation and Entrepreneurship Studies.

We include experiential learning as a core element. You will gain the capability and confidence to engage meaningfully and productively with a range of organisations and stakeholders. The third-year course BCOM 301 Addressing Grand Challenges in Business, Government, and Society, in particular, will provide experiential learning and the opportunity for students to reach out and connect their studies with organisations outside the University.

As a BCom student, you'll study at the Wellington School of Business and Government, located in the heart of New Zealand's digital innovation, leadership, policymaking, and creative capital. You'll benefit from the meaningful connections we have with the organisations around us, through real-world projects, internships, engagement with experts in business and government, and valuable professional networking opportunities.

Ōrauariki—Wellington School of Business and Government is internationally recognised as one of an elite group of fewer than 130 business schools worldwide that hold the 'triple crown' of international business education accreditations.

“The Bachelor of Commerce will prepare you for an exciting career in the ever-changing world of business and government. Through our innovative programmes, passionate staff, and modern learning and teaching spaces, you will receive a university experience that is second to none.”

Professor Jane Bryson

Dean

Ōrauāriki—Wellington School of Business and Government

DEGREE STRUCTURE

BCom AT A GLANCE

- ▶ Three years of full-time study
- ▶ 360 points total
- ▶ The BCom core courses:
 - ▶ BCOM 101 Identifying Grand Challenges in Business and Government
 - ▶ BCOM 102 Introducing Essential Tools for Study and Work in Business and Government
 - ▶ BCOM 201 Analysing Grand Challenges in Business and Government
 - ▶ BCOM 301 Addressing Grand Challenges in Business, Government, and Society
 - ▶ plus three BCom pool courses
- ▶ The requirements for at least one BCom major must be satisfied
- ▶ 180 points at 200 and 300 level with at least 75 of these points at 300 level—no 300-level course may be counted towards more than one major or minor
- ▶ One Commerce major (typically seven or eight courses, 105–120 points) but the ability to major in two or more subjects, including a major from another undergraduate degree

[wgtn.ac.nz/bcom](https://www.wgtn.ac.nz/bcom)

MAJORS AND MINORS

A major is a subject area that you specialise in throughout your degree and take through to 300 level. You must take at least one Commerce major, but many students take two (or more), which could include a major from another faculty. Each major has its own requirements.

A minor is a subject area that you specialise in to a lesser extent than a major. It is 60 points at 200 or 300 level, including at least 15 points at 300 level. You may take up to two minors, which can be from another faculty.

Majors

- ▶ Accounting (ACCY)
- ▶ Actuarial Science (ACTS)
- ▶ Commercial Law (COML)
- ▶ Data Science (DATA)
- ▶ Economics (ECON)
- ▶ Finance (FINA)
- ▶ Human Resource Management and Employment Relations (HRER)
- ▶ Information Systems (INFO)
- ▶ International Business (IBUS)
- ▶ Management (MGMT)
- ▶ Marketing (MARK)
- ▶ Public Policy (PUBL)
- ▶ Sustainability and Ethics in Business (SEBS)
- ▶ Taxation (TAXN)
- ▶ Tourism Management (TOUR)

Minors only

- ▶ Banking (BANK)
- ▶ Econometrics (ECME)
- ▶ Innovation and Entrepreneurship Studies (INEN)
- 📍 [wgtn.ac.nz/business/turia/posts/explained-bcom-majors-and-minors](https://www.wgtn.ac.nz/business/turia/posts/explained-bcom-majors-and-minors)

FLEXIBLE STUDY

Our BCom has the largest selection of Commerce majors to choose from in Aotearoa New Zealand, giving you the flexibility to customise your study to suit your goals. If you want to take a second major, there are also more than 90 options from across the University.

You can also take courses from the BCom as part of other degrees. Majors such as Data Science, Economics, or Public Policy can be taken as part of the Bachelor of Arts, while Actuarial Science, Data Science, or Information Systems can be taken within the Bachelor of Science, and Sustainability and Ethics in Business can be taken in the Bachelor of Environment and Society. Our Marketing and International Business courses can also be taken within the Marketing Communication major in the Bachelor of Communication and our Human Resources and Employment Relations courses can be taken within a Work and Organisational Behaviour major in the Bachelor of Psychology. Similarly, our Health Informatics courses can also be taken within the Bachelor of Health.

To find out more about our flexible study options, get in touch with our future student advisers.

✉ future-students@vuw.ac.nz

RECOMMENDED FIRST-YEAR PROGRAMME

Add BCOM 101 and BCOM 102 to your first-year plan, then add 100-level courses in your major requirements. If these do not meet the three BCom pool requirements, add additional BCom pool courses from the list below. A standard full-time programme for your first year of study is four 15-point courses in each of Trimesters 1 and 2.

The remaining courses required to make up the desired workload can be chosen from other 100-level BCom courses, or from 100-level courses offered for other degrees.

The BCom pool

COURSE CODE	COURSE TITLE
ACCY 130	Accounting for Accountability and Decision Making
COML 111	Law for Business
ECON 130	Microeconomic Principles
INFO 101	Introduction to Information Systems
MARK 101	Principles of Marketing
MGMT 101	Introduction to Management
PUBL 113	Social and Public Policy: Values and Change
QUAN 102	Introductory Applied Statistics for Business
TOUR 101	Tourism in Aotearoa New Zealand

MAJOR	RECOMMENDED FIRST-YEAR COURSES
Accounting	ACCY 130, ACCY 131, COML 111
Actuarial Science	ACCY 130, ECON 130, ECON 141, MATH 142*, MATH 177*, MATH 151 or a B+ in QUAN 111
Commercial Law	COML 111
Data Science	DATA 101, COMP 103 or COMP 132, one of MATH 177 or QUAN 102 or STAT 193
Economics	ECON 130, ECON 141, QUAN 102, QUAN 111
Finance	ECON 130, ECON 141, QUAN 102, QUAN 111
Human Resource Management and Employment Relations	MGMT 101
Information Systems	INFO 101, INFO 102, INFO 103
International Business	Consider taking one international language or culture course at 100 level
Management	MGMT 101
Marketing	MARK 101, QUAN 102
Public Policy	POLS 111 or PUBL 113
Sustainability and Ethics in Business	Depending on your preferred route through the major, consider adding ACCY 131, COML 111, ECON 130, INFO 101, MARK 101, MGMT 101, QUAN 102, QUAN 111, or TOUR 101
Taxation	ACCY 130, ACCY 131, COML 111
Tourism Management	MARK 101, TOUR 101

*MATH 141 required if insufficient mathematics background.

CONJOINT DEGREES

Some Commerce students enrol in two degrees at the same time; for example, combining a BCom with a Bachelor of Design Innovation (BDI), Bachelor of Laws (LLB), or Bachelor of Science (BSc) in a conjoint programme. The amount of study involved is less than that required for two separate degrees. Such a programme can still require five years of full-time study, although it is possible for an able student to complete a conjoint programme in four years—contact our Future Students team for help creating a study plan.

Taking two degrees at the same time offers the possibility of extensive interdisciplinary work. For example, many Commerce students are interested in law and find a BCom/LLB programme attractive. If you are interested in environmental or development issues, you might combine a BCom in Economics with a BSc in Environmental Studies or Development Studies. For a career in the diplomatic service, you could combine a BCom with a Bachelor of Arts (BA) in Modern Language Studies and/or Political Science. There are many other combinations that can be designed to suit your interests and ambitions.

Enrolment in a conjoint programme normally occurs in your second year of study; to enter or stay in the programme requires a C average or better in the previous year. If concurrent study (or maintaining a C average) is not possible, you can complete a major from another faculty. You can still complete a second degree after finishing your first degree by completing 60 additional points of study.

“As someone studying for a conjoint degree, I love the flexibility. In my first year, I enjoyed being able to take a range of courses. The conjoint BCom and BA gives me the opportunity to better explore the interrelationship between business and government, while being exposed to more disciplines allows me to apply more skills and tools for my future career.”

Joshua Paterson

Student, Bachelor of Commerce (in Management and Human Resource Management and Employment Relations) and Bachelor of Arts (in Political Science and Public Policy)

EXPLORE OUR SUBJECTS

ACCOUNTING

Accounting is a vital aspect of business throughout the world. It's all about keeping businesses, government departments, charities, and other organisations accountable—from how much money an organisation makes, to the amount of greenhouse gas it emits. The role of an accountant is to record, analyse, and communicate information about an organisation's performance for its stakeholders. To succeed in accounting, you need to be comfortable with numbers and able to communicate—written and interpersonal skills are just as important as numeracy.

[wgtn.ac.nz/accounting](https://www.wgtn.ac.nz/accounting)

ACTUARIAL SCIENCE

Learn to help companies and organisations manage risk. The Christchurch earthquakes, the global financial crisis, and climate change concerns have all shone a spotlight on the need to better plan for the future. Actuarial Science brings economics, mathematics, and statistics together to forecast and manage risks.

[wgtn.ac.nz/actuarial-science](https://www.wgtn.ac.nz/actuarial-science)

COMMERCIAL LAW

The law impacts on all business activity. Whether dealing with customers, suppliers, or employees, or protecting the physical and intellectual assets of a business, it is essential that business people have some knowledge of appropriate legal issues. An understanding of commercial law and its operation will aid those who make business decisions and those who advise others on business decisions.

[wgtn.ac.nz/commercial-law](https://www.wgtn.ac.nz/commercial-law)

DATA SCIENCE

Big data and the Internet of Things have changed the way society works. We send and receive data constantly, and now we need people who can manage and find hidden insights within it. Develop technical skills in computing technologies, statistics, and mathematics and work with real data sets to develop a practical understanding of the social dimensions of data.

[wgtn.ac.nz/data-science](https://www.wgtn.ac.nz/data-science)

ECONOMICS

Study why people choose to do the things they do, and how better decisions could be made. Economics focuses on scarcity—something that can apply to almost any situation. Consider a student deciding which university to go to, a business contemplating expansion, a government negotiating a free-trade deal—all of these involve decisions about limited resources and how to get the most value out of them.

[wgtn.ac.nz/economics-finance](https://www.wgtn.ac.nz/economics-finance)

FINANCE

Study how people and companies spend money and manage risk, find out how markets work and behave, and learn to apply your knowledge. Understanding financial markets—whether trading in shares, currencies, bonds, electricity, or commodities—is essential to understanding a modern economy. Focus on four main areas of finance: financial contracts, financial institutions, financial decision-making by firms, and investment portfolio choices.

[wgtn.ac.nz/economics-finance](https://www.wgtn.ac.nz/economics-finance)

HUMAN RESOURCE MANAGEMENT AND EMPLOYMENT RELATIONS

Study Human Resource Management and Employment Relations and gain the knowledge and skills to create more effective workplace practices. Develop an understanding of how good human resource management can make a difference in people's working lives.

i wgt.ac.nz/human-resources

INFORMATION SYSTEMS

Learn to transform businesses and organisations using information technology (IT). Every day, huge amounts of information, data, and records are created—find out how to use information systems to manage IT. You'll discover how to research and analyse business problems, find the right technology to provide a solution, and then put that solution in place.

i wgt.ac.nz/information-systems

INTERNATIONAL BUSINESS

All businesses operate in the global marketplace. The companies they compete with, buy from, or supply to may be based anywhere in the world. Study trade policy, importing and exporting, and areas such as foreign investment, the strategies of multinational corporations, international operations management, and cross-cultural management.

i wgt.ac.nz/international-business

MANAGEMENT

Management is all about organising the right resources to help a business achieve its goals. These could be employees or financial and physical resources. Study human behaviour and learn to use conceptual models to make decisions in complex or uncertain situations. Find out about strategic thinking in organisations and gain the skills to analyse situations and make strategic decisions. If you see yourself as a leader and want to develop your decision-making and analytical skills, study Management.

i wgt.ac.nz/management

MARKETING

Master the skills to tell stories that connect and engage people. Gain a solid grounding in all areas of business and learn about marketing and its role in the commercial and public sectors, as well as not-for-profit organisations. You'll study consumer behaviour, gaining an understanding of how people make decisions about what they do or don't buy. Become an expert in marketing plans—how they're created and used. Learn to think strategically and to create compelling stories that motivate consumers.

i wgt.ac.nz/marketing

PUBLIC POLICY

Understand public policy from the inside out. Public policy is the set of decisions that shape how a country is run. Look at how governments make these decisions, how the public sector works, the political side of policymaking, and how policies can be improved.

i wgt.ac.nz/public-policy-government

SUSTAINABILITY AND ETHICS IN BUSINESS

Explore how sustainability and ethics are transforming the world of business and how we can harness the power of business for positive societal impact. With a focus on leadership, sustainability management, and organisational ethics, this major prepares you to tackle real-world challenges and to apply sustainability and ethical principles in private, public, and not-for-profit sectors across Aotearoa New Zealand and globally.

i wgtn.ac.nz/sustainability-ethics

TAXATION

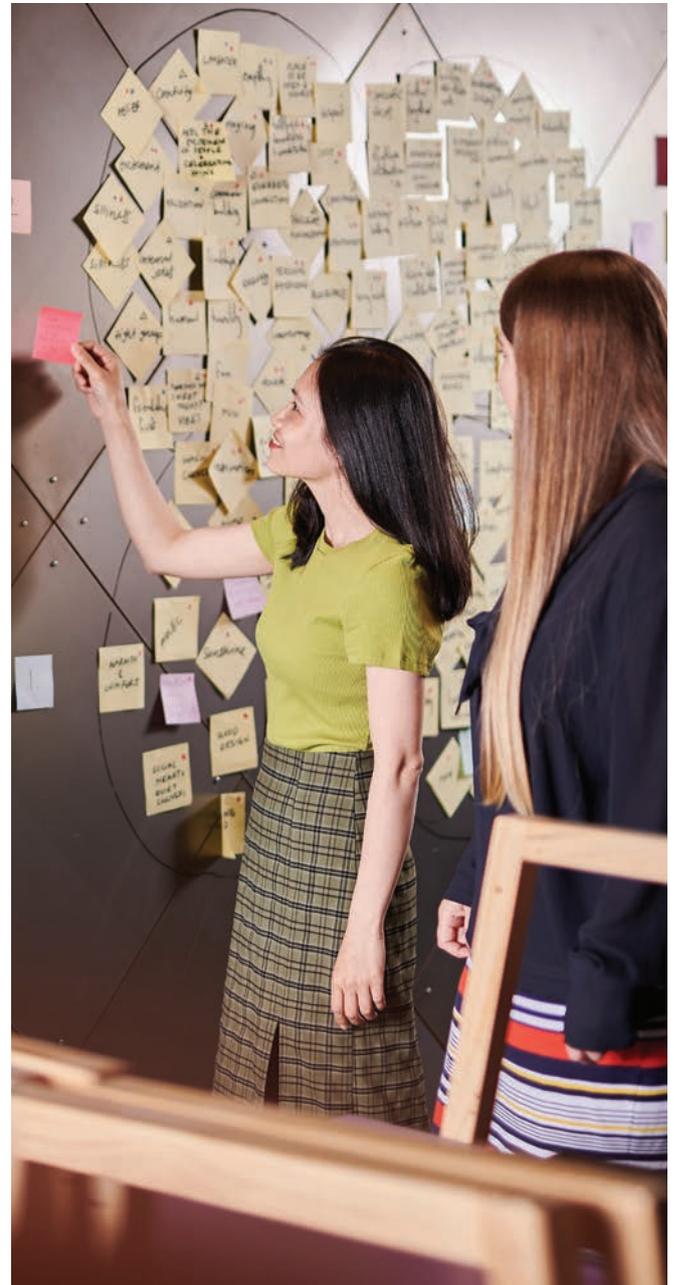

When people think about tax they might think about liabilities or advising a client on their tax obligations—but experts in tax also have the power to change the world for the better. Tax has the ability to influence the way people behave and can address societal issues such as inequality, corporate greed, and climate change.

i wgtn.ac.nz/taxation

TOURISM MANAGEMENT

Learn about the complex nature of tourism and prepare for an exciting career in planning, managing, or governing tourism in Aotearoa New Zealand and globally. Explore a range of perspectives, including how to develop and manage sustainable destinations, shape tourism governance, design tourist experiences, and manage the interplay between communities, the economy, and the natural environment.

i wgtn.ac.nz/tourism-management

WHERE CAN YOUR DEGREE TAKE YOU?

A Commerce degree prepares you for a variety of career paths. You may decide to focus on majors leading to specific career outcomes or on gaining a broad grounding for roles in small or large businesses or the public sector. Our graduates have careers in accounting, banking, consulting, finance, government, marketing, public relations, and more.

Commerce students develop skills employers want, such as:

- ▶ critical and creative thinking
- ▶ effective communication
- ▶ ethical leadership
- ▶ global, multicultural, and sustainable perspectives
- ▶ specialist knowledge.

Typical roles include:

- ▶ accountant
- ▶ actuary
- ▶ auditor
- ▶ banker
- ▶ business analyst
- ▶ communication officer
- ▶ economist
- ▶ finance manager
- ▶ human resources adviser or manager
- ▶ import or export adviser
- ▶ investment specialist
- ▶ management consultant
- ▶ marketing specialist
- ▶ policy adviser
- ▶ project coordinator
- ▶ research officer or analyst
- ▶ statistical analyst.

“If you are considering studying for a Bachelor of Commerce, I would say it’s a great degree to acquire, no matter what field you end up in. The knowledge and transferable skills I have gained throughout my degree will be able to be put to use in so many careers and career paths.

“I had a chat with one of my Tourism Management lecturers about my future after graduating, and she got me in contact with a mentor who is helping me find a placement in Queenstown. Having a BCom under my belt will definitely make it a lot easier to start my career journey!”

Jaime Butler

Student, Bachelor of Commerce in Marketing and Tourism Management

ACCREDITATION

The Wellington School of Business and Government was the first business school in New Zealand to obtain accreditation in both business and accounting from the Association to Advance Collegiate Schools of Business (AACSB International). Very few business schools hold this distinguished hallmark of excellence. Founded in 1916, AACSB International is the largest global accrediting body for business schools that offer undergraduate, Master's, and doctoral degrees in business and accounting.

ACCOUNTING

Our Accounting programmes hold additional accreditations from:

- ▶ the Association of Chartered Certified Accountants
- ▶ Chartered Accountants Australia and New Zealand
- ▶ the Chartered Institute of Management Accountants
- ▶ CPA (Certified Practising Accountants) Australia.

ACTUARIAL SCIENCE

Actuarial Science is a fully accredited programme with the Actuaries Institute of Australia. Students may be granted exemptions from foundation subjects. A grade of B+ or higher is required in all listed courses that comply with foundation subjects. If you are interested in pursuing this programme, contact Associate Professor Eric Ulm.

✉ eric.ulm@vuw.ac.nz

INFORMATION STUDIES

Our Information Studies programmes include the Master of Information Studies, the Postgraduate Diploma in Information Studies, and the Postgraduate Certificate in Information Studies. Qualifications completed with the Archives and Records specialisation are accredited by Records and Information Management Professionals Australasia, which represents more than 3,000 records and information management professionals across Australia, New Zealand, and Malaysia. The Library and Information Association of New Zealand Aotearoa recognises the specialisation in Library Science as a qualification that covers the body of knowledge necessary for professional registration.

POSTGRADUATE STUDY

For students who are considering further study after completing their BCom, we have a range of professionally focused and research-based postgraduate programmes that are designed to help you launch your career in business or government. You can choose to build on the knowledge you've gained from your BCom or study a completely new subject area. Through these programmes, you'll gain the practical workplace skills you need to successfully enter the world of work. You'll also get hands-on business experience through consultancies, internships, and networking opportunities.

A Master's degree normally takes just one extra year or 18 months of full-time study to complete.

MASTER OF ACTUARIAL SCIENCE

Kick-start your career as an actuary with New Zealand's only Master's-level actuarial science qualification. Actuaries will always be in demand to plan for the future. They predict and analyse financial risks and solve business problems in many industries, and can contribute to policy work on climate change, future health and retirement provision, and natural disaster planning.

i wgt.ac.nz/mactsc

MASTER OF COMMERCE

Gain thorough training in independent research and explore a topic you are passionate about with the Master of Commerce. You will gain advanced professional skills in analysis, synthesis, and communication, and become part of a community of students who have a profound and critical voice that is heard across all sectors of society.

i wgt.ac.nz/mcom

MASTER OF GLOBAL BUSINESS

The Master of Global Business is a professionally focused programme that allows you to build on an undergraduate degree in any area and gain valuable skills in global business strategy and analysis. The programme is coursework-based and includes an industry consultancy project, where you'll work with a New Zealand or international organisation to gain real-world experience.

i wgt.ac.nz/mgbus

MASTER OF PROFESSIONAL ACCOUNTING

The Master of Professional Accounting will enable you to make the move into accounting or get the certification you need to take the next step in your accountancy career. The chartered accounting (CA) pathway allows you to become a provisional member of Chartered Accountants Australia and New Zealand during your study—with no extra tuition fees, study, or certification.

i wgt.ac.nz/mpa

MASTER OF PROFESSIONAL BUSINESS ANALYSIS

Build on your non-technology background and launch your career as a business analyst with a strong industry-focused qualification. Gain skills in business and systems analysis, databases and analytics, management, and information systems strategies, building on your existing talents and skills.

i wgt.ac.nz/mbusan

ENHANCE YOUR CAREER PROSPECTS

During your BCom, you will have the opportunity to enhance your career prospects with a range of targeted curricular and extracurricular opportunities. Our location in New Zealand's capital and our connections with Wellington's dynamic pool of employers in the public and private sectors provide unrivalled opportunities to build your future.

By adding the Innovation and Entrepreneurship Studies minor to your degree, you can learn how to develop your ideas into products, services, or solutions that may help us change the way we work, think, and live.

i wgtn.ac.nz/innovation-minor

If you decide to start your own business while you're studying, you can also take advantage of The Atom—Te Kahu o Te Ao innovation space, a co-working space for student-run companies.

i theatom.co.nz

STUDENT CLUBS

Enhance your studies by getting involved with a student club. Clubs such as the Business and Investment Club, Business Consulting Club, and Beta Alpha Psi provide great opportunities to put the skills you're learning to use and to network with other students and employers.

Other activities offered at the University include exchanges, field trips, internships, peer mentoring, and summer scholarships. We invite you to take advantage of these in order to demonstrate your value as a locally and globally engaged citizen with eminently employable skills.
