ADDITIONAL INFORMATION

Additional information related to the course will be available on BlackBoard.

WEBSITE

The School website can be found at: <http://www.victoria.ac.nz/sacs>. On the same page you will also find **Sociolog**, a chronicle of reflections written by SOSC/SPOL staff and postgraduate students.

COURSE CONTENT

The course introduces students to sociological approaches to health, illness, medicine and health care. A diversity of topics will be covered including health inequalities, health policy, health professions, the organisation of health care delivery, ethnicity and health, gender and health, mental health and the social construction of medical knowledge.

LEARNING OBJECTIVES

This course aims to introduce you to sociological approaches to the study of health and illness.

By the end of the course students should:

- ✓ Be able to discuss patterns of health inequalities in Aotearoa New Zealand
- ✓ Be familiar with a range sociological theories related to health and illness
- ✓ Be able to critically reflect on the place and role of medicine and public health in contemporary society and everyday life
- ✓ Be able to discuss the relationship between social organisation and health outcomes

COURSE MATERIAL FOR SOSC/SPOL 314

Each student should buy the prepared book of Student Notes from the Student Notes Distribution Centre, since ready access to and familiarity with its contents will be required throughout the course.

For the first two weeks of trimester all undergraduate textbooks and student notes will be sold from the Memorial Theatre foyer, while postgraduate textbooks and student notes will be available from the top floor of VicBooks in the Student Union Building, Kelburn Campus. After week two all undergraduate textbooks will be sold

from VicBooks and student notes from the Student Notes Distribution Centre on the ground floor of the Student Union Building.

Students are able to order textbooks and student notes online at www.vicbooks.co.nz, or e-mail enquiries@vicbooks.co.nz regarding orders and enquiries. Books can be couriered to students or alternatively they can be picked up from the shop after being notified of availability. Opening hours are 8.00 am – 6.00 pm, Monday – Friday during term time (closing at 5.00 pm in the holidays). Phone: 463 5515.

EXPECTED WORKLOAD

University guidelines stipulate that a 20-point course should require 13 hours per week, including class time, of student work.

MANDATORY COURSE REQUIREMENTS

To meet mandatory course requirement students must:

- ▲ Submit essay 1 and essay 2
- ▲ Sit the in-class test.

ASSESSMENT

Assessment is internal and involves three pieces of work. The first is an essay based on the course and readings, the second is an essay based on your own 'field work' and the third is an in-class test.

Essay 1

Weighting: 35%

Due: 4pm, Friday, August 20

Write a 2500 word essay in which you take an aspect of health inequalities (for example gender, age, ethnicity, socio-economic differences) and discuss how this can be understood sociologically. To do this you should draw on a theoretical tradition such as Marxism, feminism, Foucault, constructionism, colonialism etc). The starting point of your essay will be lectures 2-4 and readings 1-3 in the Student Notes.

Tutorial 1 on July 29th will be used to clarify ways of approaching this assignment.

Essay 2

Weighting: 35%

Due: 4pm, Friday, October 1

For this assignment you are required to do one of the following:

Either: Produce a diary for a one-week period. In this diary you are to write on health and medical-related events, activities and representations that you encounter. These can include conversations, television programmes, advertising, purchases of health-related products and visits to health professionals. At the completion of the week you are to write a 2500 essay relating diary entries to a sociological

understanding of health and illness. You can consider a wide range of concepts and approaches to this essay, for example, the sick role, medicalisation and demedicalisation, consumerism, stigma and medical dominance.

Or: Using a camera, take photos of medications, supplements and health-related paraphernalia in your household (without intruding on anyone's privacy). Also, construct a map of your household identifying where the photos were taken. At the completion of the photo-taking and map drawing you are to write a 2500 essay relating the photos and map to sociological understandings of health and illness. You can consider a wide range of concepts and approaches to this essay, for example, the sick role, medicalisation and demedicalisation, consumerism, stigma and medical dominance.

For this exercise you may need to obtain consent from householders. Information sheets and consent forms will be provided to you if this is the case.

In-class test

Weighting: 30%

2pm Thursday October 14:

A guidance statement on the test will be handed out at least two weeks before the date of the test.

RELATIONSHIP BETWEEN LEARNING OBJECTIVES AND ASSESSMENT

The forms of assessment will assist you to achieve the learning objectives outlined above and to develop skills in dealing with the study of health and illness.

In Essay 1 students are able to demonstrate their ability to discuss health inequalities in Aotearoa New Zealand.

In Essay 2 students are able to demonstrate their knowledge of a range of sociological theories and concepts related to health and illness.

The In class test allows students to reflect on the role of public health in contemporary society, demonstrate their knowledge of sociological concepts related to health and illness and discuss relationships between social organisations and health outcomes.

PENALTIES FOR LATE SUBMISSION

Late submissions for student assignments in all Sociology and Social Policy undergraduate courses are subject to a penalty. The exact deduction will be calculated on the basis of one half mark per day late for each 10 marks, i.e. 1 mark will be deducted each day for an assignment worth 20% of the total course mark.

Note: assessment work will not be accepted for marking more than 7 days after the due date or 7 days after an approved extension date. Work must still, however, be submitted to meet the

mandatory course requirements.

ACADEMIC INTEGRITY AND PLAGIARISM

Academic integrity means that university staff and students, in their teaching and learning are expected to treat others honestly, fairly and with respect at all times. It is not acceptable to mistreat academic, intellectual or creative work that has been done by other people by representing it as your own original work.

Academic integrity is important because it is the core value on which the University's learning, teaching and research activities are based. Victoria University's reputation for academic integrity adds value to your qualification.

The University defines plagiarism as presenting someone else's work as if it were your own, whether you mean to or not. 'Someone else's work' means anything that is not your own idea. Even if it is presented in your own style, you must acknowledge your sources fully and appropriately. This includes:

- Material from books, journals or any other printed source
- The work of other students or staff
- Information from the internet
- Software programs and other electronic material
- Designs and ideas
- The organisation or structuring of any such material

Find out more about plagiarism, how to avoid it and penalties, on the University's website: <http://www.victoria.ac.nz/home/study/plagiarism.aspx>

CLASS REPRESENTATIVE

A class representative will be recruited in consultation with the class at the beginning of the course. The class representative's name and contact details will be available to the Victoria University of Wellington Students' Association (VUWSA), the course coordinator and the class (on BlackBoard). The class representative provides a communication channel to liaise with the course coordinator on behalf of students.

COURSE WITHDRAWAL PROCEDURES

If you decide for ANY reason at ANY stage to withdraw from SOSC/SPOL 314 (or any other course) please see the Faculty of Humanities and Social Sciences office on the 4th floor of the Murphy Building for an Add/Drop Course form. Failure to do so may have consequences for enrolment, student grants, allowances, loans, etc., i.e. you will get credited with a fail, not a withdrawal on your record if you do not act promptly.

Information on withdrawals and refunds may be found at:

<http://www.victoria.ac.nz/home/admisenrol/payments/withdrawalsrefunds.aspx>

GENERAL UNIVERSITY POLICIES AND STATUTES

Students should familiarise themselves with the University's policies and statutes, particularly the Assessment Statute, the Personal Courses of Study Statute, the Statute on Student Conduct and any statutes relating to the particular qualifications being studied; see the Victoria University Calendar or go to the Academic Policy and Student Policy sections on: <http://www.victoria.ac.nz/home/about/policy>

The AVC (Academic) website also provides information for students in a number of areas including Academic Grievances, Student and Staff conduct, Meeting the needs of students with impairments, and student support/VUWSA student advocates. This website can be accessed at:
