COURSE PRESCRIPTION

This course reviews theoretical debates in Pacific Studies, traces the development and use of academic research methods in the Pacific, as well as examining indigenous research methods. 60% internal assessment, 40% examination.

COURSE CONTENT

Haere mai, nau mai! Afio mai! Karaki! Welcome! PASI 401 is the core-course for the BA Honours in Pacific Studies. This is a seminar-based course that reviews theoretical debates in Pacific Studies, traces the development and use of academic research methods in the Pacific, and examines the notion of indigenous research methods.

The course builds on undergraduate core courses taught in Pacific Studies at Victoria University of Wellington, but attempts to probe more deeply into questions such as:

- What are the historical, philosophical, and ideological foundations of Pacific Studies?
- How has 'the Pacific' as an area or object of study been negotiated by Pacific Studies scholars?
- What theoretical and methodological tools can be drawn from other fields or disciplines for use in Pacific Studies?
- What role do indigenous epistemologies play in the practice and production of Pacific Studies?
- What, if any, theoretical and methodological innovations have emerged in Pacific Studies?
- How can we draw on available resources to design our own Pacific Studies projects?
- How is Pacific Studies distinct from or similar to other academic fields?

As such, the course is crucial in laying the foundation for the PASI BA Honours graduate attribute of being able to formulate an interdisciplinary and comparative research project drawing on appropriate methodology to creatively address critical questions in Pacific Studies.

LEARNING OBJECTIVES:

- demonstrate familiarity with and understanding of key debates on theory and methodology in Pacific Studies;
- demonstrate knowledge of major developments in the use of academic research methods in the Pacific;

- Demonstrate competence in formulating and designing an original and viable research project appropriate for implementation at the MA level.
- Demonstrate ability to advance one's own and facilitate others' learning by critically reading, attentively listening, and clearly communicating through written, verbal, and other relevant media.

PASI BA GRADUATE ATTRIBUTES

Below are the necessary attributes of someone who graduates with a PASI major. We expect Pacific Studies BA Honours students to demonstrate the same:

Critical Thinking

- Demonstrates knowledge of the geographic, historical, cultural, social, political and economic diversity and complexity of the Pacific as a region.
- Able to analyze and question assumptions and theories that frame representations of the Pacific.
- Able to evaluate the quality and origin of sources of information on the Pacific.
- Able to formulate and evaluate research questions that demonstrate an engagement with the broader context of the Pacific region.
- Demonstrates an awareness of insider/outsider debates over knowledge in the Pacific and takes care to account for indigenous perspectives when conducting analysis of material.

Creative Thinking

- Demonstrates awareness and appreciation of the relevance and value of creative work in enhancing understanding of Pacific societies.
- Able to apply, synthesize, and interpret ideas and concepts from research and readings in creative academic projects.
- Demonstrates an understanding of multidisciplinary approaches to studying the Pacific and is able to apply and create an interdisciplinary research project.

Communication

- Demonstrates familiarity with a selection of key terms and concepts in Pacific languages.
- Able to formulate and defend a well-considered point of view on Pacific issues.
- Able to give and accept generous and diplomatic critique.

Leadership

- Demonstrates a sense of responsibility towards Pacific communities in the islands, in New Zealand and in the world.
- Demonstrates confidence and competence in representing Pacific perspectives when contributing to public debates.
- Demonstrates a commitment to life-long learning about the Pacific.

WORKLOAD

The workload for PASI 401 is consistent with other 30 point courses within the Faculty of Humanities and Social Sciences. It is recommended that for every contact hour of a postgraduate course, you spend at least 300 hours throughout the trimester.

MANDATORY REQUIREMENTS

In order to pass this course students must:

- Attend at least of 10/12 convened sessions
- Submit all written assignments
- Sit the final exam

Students who achieve a passing mark for coursework at the end of the trimester, but fail to turn in their major assignment or fail to sit the final exam, will not get a “C”, but will get a “K” grade, indicating that they have not passed the course due to a failure to meet requirements.

Please note that all your marked coursework for PASI 401 will need to be presented in a portfolio at the end of your Honours degree, for assessment by an external examiner. We recommend you keep copies of all your assignments for this purpose.

All grades received for courses taken as part of the Honours programme, cannot be assumed to predict the final grade for the degree. The external examiner will make the final recommendation for overall grades for the Honours degree, e.g. First Class Honours (1 or 2), Second Class Honours (1 or 2), etc. At Honours level we expect our students to be producing work at B+ standards and above.

ESSENTIAL TEXT

--Required reading handouts will be posted on Blackboard for students to print and read before seminars. Any readings distributed in class should be treated as required reading unless otherwise specified.

--Closed Reserve and 3-Day Loan: key texts will be placed on Closed Reserve or 3-Day Loan in the Central Library for your reference and further reading.

--A Blackboard (Bb) site will be available for this course. It will be used for post class notices and marking matrices, submitting assignments, distributing electronic copies or sharing links to recommended readings and handouts for this class. Bb may also be used for an on-line discussion forum.

Note: as postgraduate students, you need to be keeping up with the latest scholarship in our field. Current issues of scholarly journals like *The Contemporary Pacific*, *The Journal of Pacific History*, *The Journal of the Polynesian Society*, *Oceania* and *Asia Pacific Viewpoint* are freely available to you on-line via our VUW Library website: <http://gx4ej7nu5f.search.serialssolutions.com/>

ASSESSMENTS

Coursework	60%

Research Design	30%
-Annotated Bibliography	(10%)
-Final Proposal	(20%)

Final Examination	40%
(Examination period – 15th June-4th July 2012)	

SEMINAR PARTICIPATION**(15%)**

- Seminar chairing (5%)
- Research Design presentation 1 (5%)
- Research Design presentation 2 (5%)

The purpose of the seminar format and assessment structure is to provide students with the opportunity to develop familiarity with and understanding of key debates on theory and methodology in Pacific Studies; develop knowledge of major developments in the use of academic research methods in the Pacific; develop an original and viable research project appropriate for implementation at the MA level.

PASI 401 is a combination lecture and seminar course. Whether there is a guest lecture, group work or student presentation on a given day, it is incumbent on all students to have done the assigned readings beforehand and come prepared to discuss the readings in class. PASI 401 students are required to attend and contribute to at least 10 out of 12 taught sessions in our regularly scheduled slot.

PASI 401 students are also invited to attend at least 4 out of 5 seminars offered in the Postgraduate Talanoa Seminar Series this trimester. The Talanoa series is held in the Access Grid Room on level 1 of the Rankine Brown Library from 3-5pm on alternating Mondays. The Talanoa schedule will be circulated by email, posted on Blackboard, and posted on notice boards at 6 Kelburn Parade. The seminar series involves postgraduate student researchers from around the country sharing their research via live internet link, allowing questions and comments. It's a stimulating forum that is directly relevant to the aspect of "methods" which we are interested in, in this course. There are likely to be questions in the final exam that relate to sessions or themes explored in this seminar series.

PASI 401 and PASI BA Honours students are encouraged to attend the Pacific Studies Occasional Seminar Series, and other relevant seminars on campus, whenever possible. A key component of postgraduate culture is taking advantage of the rich and diverse intellectual community and research activities that are available at university. Some of your most valuable discoveries may come from seminars and workshops that may not seem to have any direct relevance to your own interests at first. So, keep an open mind!

Seminar Chairing: All students will be required to take turns leading or chairing seminar discussion. "Seminar chairs" come prepared to make introductory remarks about the readings. Seminar chairs are responsible for opening up discussion by first, commenting on or raising questions which are directly relevant to the readings, and secondly, by relating the readings to lectures, guest lecturers or relevant sessions in the BRCSS Talanoa Series. *It is not expected that the seminar chair will lecture the class. Rather, the marking for this piece of assessment will focus on the chair's ability to facilitate discussion amongst all seminar participants.* It is the seminar chairs' responsibility to try to keep the discussion "grounded" in the presentation and readings, while making links to our overarching questions of theory and method in Pacific Studies.

Research Design presentations (1 and 2): As part of their contributions to seminar, each student is required to make two presentations on their research design in progress. The aim of the first presentation (10-15 minutes long) is to clearly describe an original and viable research project in Pacific Studies with explicit reference to the underlying theory and method that will inform. The aim of the second presentation (15-20 minutes long) is to reflect on the process of formulating the research design, with specific attention to areas of difficulty and inspiration. At each point, the student is expected to critically assess and discuss the merits and limitations of their selected theories or methods in light of broader debates in Pacific research circles and in Pacific Studies.

All learning objectives for PASI 401 apply to these assessments. Please see Blackboard for more specific details on the marking criteria for these assessments.

5 Key Concepts and Questions (KCQ) Papers (15%)

The purpose of this assessment is to provide students with the opportunity to develop familiarity with and understanding of key debates on theory and methodology in Pacific Studies; develop knowledge of major developments in the use of academic research methods in the Pacific; develop an original and viable research project appropriate for implementation at the MA level.

This mode of assessment is constituted by five (5) approx. 500 word responses to readings and seminars of a given week (3%). Assignments will be distributed to students by lecturer in designated weeks. The assignments are designed to help focus students' engagement with key concepts and questions about theory and method in Pacific Studies, based on readings, and with a view towards critical reflection on and application in students' own individual projects. Each KCQ will thus also include stair-casing assignments that will feed into the final research design project.

Note: After an assignment is handed out, there is a one week turnaround for students to complete and return it.

All learning objectives for PASI 401 apply to these assessments. Please see Blackboard for more specific details on the marking criteria for these assessments.

Research design (30%)

--Annotated Bibliography—minimum 1000 words (10%) due Friday 11th May 2012

--Final Research Proposal—minimum 1500 words (not including bibliography) (20%) due Friday 8th June 2012

The purpose of this assessment is to provide students with the opportunity to demonstrate the ability to formulate and design an original and viable research project appropriate for implementation at the MA level.

Your annotated bibliography should contain no less than ten entries and should provide annotations of at least 100 words for each entry (not including the title or other bibliographic information). A format for annotating bibliographies will be handed out and discussed in seminar. Your annotated bibliography will be assessed on the quality and range of your sources, the consistency and fullness of your bibliographic information, and the provision of summaries that explain the appropriateness and relevance of each source for your topic. A sample annotated bibliography will be provided in class well before the assignment is due.

The research proposal must clearly describe an original and viable research proposal in Pacific Studies with explicit reference to the underlying theory and method that informs it. A suggested template for the research proposal will be provided.

All learning objectives for PASI 401 apply to these assessments. This assessment, in particular, focuses on the following: Demonstrate competence in formulating and designing an original and viable research project appropriate for implementation at the MA level. Please see Blackboard for more specific details on the marking criteria for these assessments.

Final Examination—3 hr Examination, Date and Time TBA (40%)

The final examination relates to the following learning objectives of this course:

- demonstrate that familiarity with and understanding of key debates on theory and methodology in Pacific Studies has been achieved;
- demonstrate that knowledge of major developments in the use of academic research methods in the Pacific has been achieved.

The format of the final examination is as follows:

10% Definitions and Summaries

30% Essays (2)

Previous year's examinations are available at the Library and on the library website for your perusal.

PENALTIES

Marks will be deducted for grammatical and spelling errors on all written coursework assignments. Therefore, it is recommended that you proofread your written assignments before turning them in.

All submitted work has a deadline of 4pm on the Friday of the week in which it is due. Marks will be deducted for assignments turned in after the due date: 1% for every day over due.

USE OF TURNITIN

Student work provided for assessment in this course will be checked for academic integrity by the electronic search engine <http://www.turnitin.com>. Turnitin is an online plagiarism prevention tool which identifies material that may have been copied from other sources including the Internet, books, journals, periodicals or the work of other students. Turnitin is used to assist academic staff in detecting misreferencing, misquotation, and the inclusion of unattributed material, which may be forms of cheating or plagiarism. You are strongly advised to check with the course coordinator if you are uncertain about how to use and cite material from other sources. Turnitin will retain a copy of submitted materials on behalf of the University for detection of future plagiarism, but access to the full text of submissions will not be made available to any other party.

WHERE TO FIND MORE DETAILED INFORMATION

Students should familiarise themselves with the University's policies and statutes, particularly the Assessment Statute, the Personal Courses of Study Statute, the Statute on Student Conduct and any statutes relating to the particular qualifications being studied; see the *Victoria University Calendar* or go to the Academic Policy and Student Policy sections on: <http://www.victoria.ac.nz/home/about/policy>

This website also provides information for students in a number of areas including Academic Grievances, Student and Staff conduct, Meeting the needs of students with impairments, and student support/VUWSA student advocates.

ACADEMIC INTEGRITY AND PLAGIARISM

Academic integrity means that university staff and students, in their teaching and learning are expected to treat others honestly, fairly and with respect at all times. It is not acceptable to mistreat academic, intellectual or creative work that has been done by other people by representing it as your own original work.

Academic integrity is important because it is the core value on which the University's learning, teaching and research activities are based. Victoria University's reputation for academic integrity adds value to your qualification.

The University defines plagiarism as presenting someone else's work as if it were your own, whether you mean to or not. 'Someone else's work' means anything that is not your own idea. Even if it is presented in your own style, you must acknowledge your sources fully and appropriately. This includes:

- Material from books, journals or any other printed source
- The work of other students or staff
- Information from the internet
- Software programs and other electronic material
- Designs and ideas
- The organisation or structuring of any such material.

Find out more about plagiarism, how to avoid it and penalties, on the University's Website: <http://www.victoria.ac.nz/home/study/plagiarism.aspx>
