Communication of additional information

This course uses Blackboard and presumes that all enrolled students have valid myvuw.ac.nz addresses. Please check that this account is active and you have organised email forwarding. Additional information and any changes to the timetable or lecture and seminar programme will be advised by email, announced in lectures, and posted on the course Blackboard site.

Prescription

This course looks at the global, international and domestic politics of the world economy. It looks at the ways in which economic processes shape politics and the ways in which political processes shape economics. We look at international trade, finance and production (multi-national corporations) and at the regional and international institutions that regulate the global economy. We also look at some of the interactions between international and domestic politics and explore the ways in which the world economy shapes peoples' everyday lives. No technical knowledge of economics is required for this course and the course involves no equations, graphs or large numbers.

Course learning objectives (CLOs)

Students who pass this course should be able to:

1. demonstrate a good understanding of the economics and politics that shape the world economy
2. understand the main theoretical perspectives through which academics seek to understand international political economy and relate these to theoretical perspectives on international relations more generally
3. understand contemporary debates on international economic policy in the areas of trade, international production and international finance
4. write a structured and theoretically-informed essay about debates in international political economy.

Teaching format

You get two lectures each week. The lectures are designed to give you the background you need to make sense of the readings and to point you to what I think are the important themes of those readings. Usually my lectures will start to outline some of the more important arguments involved in answering essay and examination questions. To fill out those arguments, find some extra facts and develop different arguments of your own, you need to go on to do the compulsory readings. Although the topics can be separated out, they also re-enforce one another so the more of the course you can attend the easier and more interesting you should find it.

Tutorials are optional (in that we won't keep attendance records) but are very strongly recommended. Tutorials can be harder work...but that harder work is where you do the most learning. Educational research shows that recall from sitting in a lecture is pretty low. You need to work with the material you're shown to make it your own and get it to sink into your brain! Tutorials are designed to do that. They are supposed to help you to debate the issues, puzzle over them and make up your own minds. That works much better if you have done the reading before the tutorials. Tutorials are always the week after the lecture is given to give you time to digest the lecture material and do some reading. If you're finding tutorials dull, that may be because you aren't properly prepared.

Mandatory course requirements

In addition to achieving an overall pass mark of 50%, students must:

- submit both essays
- sit both in-class tests.

Workload

In accordance with University Guidelines, this course has been constructed on the assumption that students will devote 200 hours to the course throughout the trimester. An approximate indication of the hours to be spent on each component of the course is as follows:

1. Attendance at lectures:	20 hours
2. Attendance at tutorials:	12 hours
3. Compulsory readings and tutorial preparation:	48 hours
4. Revision for class tests:	30 hours
5. Reading and research for essays:	60 hours
6. Writing essays:	30 hours

Assessment

Assessment items and workload per item		%	CLO(s)	Due date
1	Essay one, 1800-2200 words	30%	1,2,3,4	3 April
2	Class test one (50 minutes, in class)	20%	1,2,3	29 April
3	Essay two, 1800-2200 words	30%	1,2,3,4	20 May
4	Class test two (50 minutes, in class)	20%	1,2,3	3 June

Detailed assessment requirements and criteria for assessment can be found on the course content document handed out with this outline (and posted on the course resources page on Blackboard).

Submission and return of work

One printed and one electronic copy of each essay should be submitted.

Printed copies should be submitted by 5pm through the office essay drop-off point, Murphy Room 518, together with completed cover sheet which is available on Blackboard and/or from the office.

Electronic copies should be posted to Blackboard using the links on the course resources page.

Essays and tests will be returned at times to be advised. If students fail to attend these times, they may collect their essay from the Office, Murphy Room 518 between the hours of 2.00 and 3.00 pm from Monday to Friday and must show their Student ID card before collection.

Extensions and penalties

Extensions

Late submission of **assignments** will **not be accepted** unless the student makes an appointment as soon as practically possible with the course coordinator to explain the lateness (in almost all cases, this should be *before* the assignment is due to be submitted). The circumstances under which an extension will be considered are outlined in section 3.2.1 of the Assessment Handbook. (See: www.victoria.ac.nz/documents/policy/staff-policy/assessment-handbook.pdf).

Penalties

Students will be penalised for late submission of assignments – **a deduction of 5% for the first day late, and 2% per day thereafter, up to a maximum of 8 days**. Work that is more than 10 weekdays late can be accepted for mandatory course requirements but may not be marked. Penalties may be waived if there are valid grounds (for example, illness - presentation of a medical certificate will be necessary, or similar other contingencies). In all such cases, prior information will

be necessary. Extensions on deadlines for written work will only be granted under exceptional circumstances.

Set texts and recommended reading

You will all need a copy of:

Robert O'Brien and Marc Williams, *Global Political Economy* 4th Edition (Basingstoke, Palgrave, 2013). See www.vicbooks.co.nz for details on textbook purchases.

Further reading will be provided separately by the course coordinator in the first week of class and on Blackboard

Class representative

The class representative provides a useful way to communicate feedback to the teaching staff during the course. A class representative will be selected at the first lecture of the course. Students may like to write the Class Rep's name and details in this box:

Class Rep name and contact details:

Student feedback

Student feedback on last year's course was generally very positive but there were a couple of requests for more student discussion in lectures, so I'll try and make a bit more time for that.

Student feedback on University courses may be found at www.cad.vuw.ac.nz/feedback/feedback_display.php.
