Prescription

An introduction to key techniques and concepts in instrumental/vocal composition and sonic arts. Students apply and learn these skills through a series of short compositions and sound-based works. Some knowledge of musical notation and music theory is required.

Course learning objectives (CLOs)

Students who successfully complete this course will be able to:

1. demonstrate a basic competency as composers and sonic artists
2. meet, to a basic level, the technical and professional demands of a composer/sonic artist
3. write short musical/sonic works, in response to a brief, that display musical coherence, technical proficiency and an imaginative approach
4. use a Digital Audio Workstation (DAW) to complete a new musical work
5. notate musical scores to a reasonable standard of accuracy and clarity
6. realize a substantial, independent creative project of composition/sonic arts.

These learning objectives contribute to the NZSM Graduate Attributes. For a full list, please see www.nzsm.ac.nz/study-careers/graduate-attributes

Teaching format

This course comprises one 2-hour lecture per week, one 1-hour 'technical lab' per week, and one 1.5-hour workshop per week. During labs, the lecturer or postgraduate tutor will guide students in the development of specific technical/theoretical skills. During workshops, classes will come together to listen to and discuss performances of student work, student presentations, and presentations by staff and guest artists.

See attached course syllabus for more information.

Mandatory course requirements

In addition to achieving an overall pass mark of 50%, students must:

- a) attend at least 9 of the Composer Workshops held during the trimester of enrolment in this course. Students must attend workshops in order to: 1) develop critical and oral communication skills related to their creative practice, and 2) develop awareness of the contexts, techniques and perspectives related to their creative practice.

In the event that the student is unable to attend the Composer Workshop due to course clashes, the Course Coordinator may substitute an alternative requirement.

Students who are concerned that they have been (or might be) unable to meet any of the mandatory course requirements, because of exceptional personal circumstances, should contact the Course Coordinator as soon as possible.

Workload

A 15-point one-trimester course should require at least 150 hours' work (including class time). This means that during the trimester, the mid-trimester break and study week you should be prepared to spend, on average, 10 hours per week involved in activities such as attending classes, reading, listening to recommended recordings and preparing assignments.

Assessment

Formal grading criteria will be supplied with each assignment brief.

Submission and return of work

Assignments should be deposited in Michael Norris's mailbox opposite the NZSM Reception (Kelburn Campus). In the case of electronic submissions, files should be uploaded by following the instructions in the assignment brief.

Marked assignments and/or assignment feedback sheets will be returned to the student pigeonholes.

Assignments will normally be marked and returned within three weeks of submission.

Extensions and penalties

Extensions

Students, who for exceptional reasons can justify an extension for an item of assessment, must apply to the Course Coordinator *before* the due date. Please note that no extensions can be granted for tutorial assignments.

Penalties

Assignments must be submitted by the due dates. In fairness to other students, unless a medical certificate is produced, assessment submitted after 5:00pm on the due date will be subject to a 5% demerit on your grade, increasing by 5% each further working day it is overdue.

Materials and equipment and/or additional expenses

It is strongly recommended that all students own a good-quality laser printer for printing scores (these can be purchased for under \$100 — check pricespy.co.nz), and a laptop.

It is also recommended that you purchase a music notation program (preferably Sibelius or Finale) and a Digital Audio Workstation (preferably Logic or Pro Tools). While the NZSM provides access to this software in the Keyboard Labs, we cannot guarantee 24-hour access.

Set texts

Students will be provided with the *CMPO 101 Anthology of Musical Examples* in the first lecture.

Class representative

The class representative provides a useful way to communicate feedback to the teaching staff during the course. A class representative will be selected at the first lecture of the course. Students may like to write the Class Rep's name and details in this box:

Class Rep name and contact details:

Student feedback

In response to students asking for more thorough training in technical and theoretical proficiency, we are providing one-hour 'Technical Labs' for specific issues relating to successfully completing assessment items. The Course Coordinator invites further feedback from you as to the appropriateness and usefulness of these sessions. A formal course and teaching evaluation will take place during the final lecture of the course.

Student feedback on University courses may be found at www.cad.vuw.ac.nz/feedback/feedback_display.php.

Events

Regular events are held during trimesters 1 & 2 at all NZSM campuses. These events are for the benefit of all students, and include performances, masterclasses, special lectures and workshops given by staff, students and visiting artists. All students are expected to keep time free to attend the weekly lunchtime concert on Friday at 12:10pm, along with other events as required.

Students should sign up to the **Dawn Chorus**, the NZSM's events e-newsletter, by emailing events@nzsm.ac.nz with 'subscribe dawn chorus' in the subject line.
