### Prescription

Exploration of an area of learning specific to the research interests and activity of a music academic staff member.

2015 Offering: An examination and exploration of practices in sonic art and instrumental/vocal composition that conceptualise and deploy sound, time and space in ways that depart from traditional models for the creation, performance and reception of music and other sound-based arts. Exemplars of such practices, whose work will be examined in the course, include Peter Ablinger, Janet Cardiff, Jacob Kierkegaard, Alvin Lucier and Annea Lockwood.

## Course content

Please see attached course syllabus.

## Course learning objectives (CLOs)

Students who successfully complete this course will be able to:

1. evaluate and comment critically upon key conceptual and technical approaches characteristic of the sonic and musical contexts outlined in the course prescription
2. evaluate and comment critically upon the conceptual and technical approaches taken in their own creative work
3. propose, develop and complete an original creative work
4. explore, in a disciplined and coherent manner, conceptual and technical approaches appropriate to the sonic and musical contexts outlined in the course prescription
5. deploy in original creative works the conceptual and technical approaches appropriate to the sonic and musical contexts outlined in the course prescription.

These learning objectives contribute to the NZSM Graduate Attributes. For a full list, please see [www.nzsm.ac.nz/study-careers/graduate-attributes](http://www.nzsm.ac.nz/study-careers/graduate-attributes)

## Teaching format

This course comprises one 1-hour lecture and one 2-hour lecture per week, and one 1.5-hour workshop per week. During lectures, students are expected to present and discuss their own work, as well as to contribute to discussion of the work of classmates and ideas/works introduced in lectures. During workshops, classes will come together to listen to and discuss performances of student work, student presentations, and presentations by staff and guest artists. Students will publicly present one of their own works in the workshop.

See attached course syllabus for more information.

## Mandatory course requirements

In addition to achieving an overall pass mark of 50%, students must attend at least 9 of the Composer Workshops held during the trimester of enrolment in this course. Students must attend workshops in order to: 1) develop critical and oral communication skills related to their creative practice, and 2) develop awareness of the contexts, techniques and perspectives related to their creative practice. In the event that the student is unable to attend the Composer Workshop due to course clashes, the Course Coordinator may substitute an alternative requirement.

Students who are concerned that they have been (or might be) unable to meet any of the mandatory course requirements, because of exceptional personal circumstances, should contact the Course Coordinator as soon as possible.

## Workload

A 20-point one-trimester course should require at least 200 hours' work (including class time). This means that during the trimester, the mid-trimester break and study week you should be prepared to spend, on average, 13 hours per week involved in activities such as attending classes and workshops, reading, and completing minor and major assignments. The estimated breakdown of your workload is as follows: attending classes and workshops, 54 hours; completing minor assignments, 30 hours; completing major assignments, 70 hours; completing project proposal, report and journals, 30 hours.
