

FACULTY OF HUMANITIES AND SOCIAL SCIENCES

SCHOOL OF LINGUISTICS AND APPLIED LANGUAGE STUDIES

LINGUISTICS PROGRAMME LING 323 PSYCHOLINGUISTICS 20 POINTS

TRIMESTER 1 2016

Key dates

Trimester dates: 29 February to 29 June 2016

Teaching dates: 29 February to 5 June 2016

Easter break: 24–30 March 2016

Mid-trimester break: 25 April to 1 May 2016

Study period: 6–9 June 2016

Examination/Assessment Period: 10–29 June 2016

Note: students who enrol in courses with examinations must be able to attend an examination at the University at any time during the scheduled examination period.

Withdrawal dates: Refer to www.victoria.ac.nz/students/study/withdrawals-refunds.

If you cannot complete an assignment or sit a test in the last three weeks of teaching, or an examination, it may instead be possible to apply for an aegrotat (refer to www.victoria.ac.nz/students/study/exams/aegrotats).

Class times and locations

Lectures:

Monday 4:10pm – 5:00pm in AM102

Wednesday 4:10pm – 5:00pm in AM102

Thursday 4:10pm – 5:00pm in AM102

Tutorial times. From:

Monday 1:10pm-2:00pm in VZ710

Thurs 12:00pm-12:50pm in VZ710

Some of the lecture slots will be used for lab classes in CyberCommons. See schedule.

One tutorial per week. Tutorials begin in the second week (beginning 7th March). There will be no tutorials in the final week of the trimester (beginning 30th May).

Tutorial lists will be posted on Blackboard and on the Linguistics Undergraduate Notice Board during the first week of the trimester.

Do not miss your first tutorial. You may not change tutorials without consulting the course coordinator. Tutorials form an essential part of all Linguistics courses. It is expected that students will attend all tutorials.

Names and contact details

Course Coordinator:

Assoc. Prof. Paul Warren

Von Zedlitz (VZ) 320

Tel: 463 5631

Email: paul.warren@vuw.ac.nz

Office hours: Monday 10:00-10:50, Weds 3:10-4:00

Dr Sasha Calhoun

Von Zedlitz (VZ) 318

Tel: 463 9537

Email: sasha.calhoun@vuw.ac.nz

Office hours: TBA

Course Administrator

Matthew Vink

Von Zedlitz (VZ) 210

Tel: 463 5255

Email: matthew.vink@vuw.ac.nz

Office hours: Monday – Friday, 9am – 4.15pm

Some lectures will be given by Carolyn Wilshire of the School of Psychology – see schedule

Communication of additional information

Further information relevant to this course will be posted on its Blackboard site (see <http://blackboard.vuw.ac.nz>), which you can access using your Student Computing Service ID.

Prescription

An examination of the psychological processes involved in producing and understanding language, including topics such as the representation of meaning in the mental lexicon, syntactic parsing and the use of speech error data as evidence. The course includes discussion of experimental approaches to the study of language processing, involving some practical work.

Course content (see the attached lecture schedule for more detailed information)

weeks 1-4	introduction & language production
weeks 5-7	perception and word recognition
weeks 8-10	sentence processing
weeks 10-11	discourse and conversation
week 11	architecture of the language system
week 12	perception of contrast

Course learning objectives (CLOs)

The course aims to help students better understand the psychological processes involved in language production and comprehension, and the relationship of linguistic theory to psycholinguistic experiment and theory.

Students who pass this course should be able to:

1. understand basic psychological processes of language production and comprehension
2. understand claims made about the mental representation of language
3. apply their understanding under 1. & 2. to the analysis of data
4. evaluate the role of linguistic theory in the psychological examination of language use
5. evaluate theoretical positions in psycholinguistic research
6. understand and evaluate a range of experimental approaches
7. apply experimental and analytical tools in completing assignments and exercises.

Teaching format

The content of LING 323 Psycholinguistics is delivered through a combination of lectures, computer laboratory sessions, and tutorials, as well as through students' own reading. The computer lab sessions introduce students to techniques used in psycholinguistic research. Usually, students will participate in demo versions of experiments in these sessions, and the results of these experiments are discussed in subsequent tutorials. It is expected that all students will participate in all classes.

Workload

In line with University recommendations, it is expected that in order to make satisfactory progress students should devote 200 hours to this course over the duration of the trimester, including the mid-trimester break, study week and exam period. This averages to about 12 hours per week. This time includes attendance at classes (4 hours per week), as well as preparation for classes, background reading, practical work, and preparation for assignments and the examination. Some students will find they need to do more than this, and students aiming for high grades will almost certainly need to do more.

Assessment

Assessment items and workload per item		Word count	%	CLO(s)	Due date
1	Practical exercise 1	750	15%	1-5	6 Apr
2	Practical exercise 2	750	15%	1-5	4 May
3	Assignment	2000	30%	1-7	25 May
4	Final exam (3hrs; NOT an open-book exam)		40%	1-6	TBA

The practical exercise will involve analysis of language data of relevance to psycholinguistics. The assignment topics will include options in the areas of speech production and language comprehension. Details for each of these assessment components are available separately, including marking criteria and how these relate to learning objectives. They will also be available on the Blackboard site.

You are advised to think about each of the assignments well in advance, as some topics involve a small amount of data collection, for which you will need to be prepared. This may mean starting to think about each one before the previous piece of work has been submitted and returned.

The University has a policy of reasonable accommodation of the needs of students with disabilities in examinations and other assessment procedures.

Submission and return of work

All assessment items (apart from the final exam) should be handed or emailed to the course coordinator, or delivered to VZ210 (the LALS School Office), by the due date and time. Your answers to the practical exercises and your assignments should be typed, with large enough margins, including top and bottom margins, for comments to be added. Phonetic fonts, if you need to use them, can be downloaded from the web – the Doulos SIL font is recommended (available from <http://scripts.sil.org/doulossilfont>). Addition of phonetic and other symbols by hand onto an otherwise typed assignment is permitted, but please remember to add these symbols.

Every effort will be made to return your work within two weeks of the submission date, usually in the lecture on the relevant day.

Extensions and penalties

Extensions

Extensions (with no penalty) will be considered by the course coordinator on the grounds of exceptional personal circumstances as set out in Section 8 of the Assessment Handbook 2014. Students seeking extensions should do so as early as possible, and if an extension is granted they will be issued with a note to that effect which must be submitted together with their assessment item. If the extension is to a date beyond the day on which the assessment item is due to be returned to the class, then the course coordinator may require that you carry out an alternative assessment task.

Penalties

In line with school policy, assignments handed in after the due date will receive a considerably reduced grade unless accompanied by a medical certificate or other evidence of exceptional circumstances. Information on penalty arrangements will be included with the detailed instructions for each assignment.

Materials and equipment and/or additional expenses

Not applicable

Practicum/internship arrangements

Not applicable

Class representative

The class representative provides a useful way to communicate feedback to the teaching staff during the course. A class representative will be selected at the first lecture of the course.

Student feedback

Student feedback on the course in 2015 was generally positive but suggested the following changes, which have been implemented in designing the course for 2016: spread the assessment more evenly over the trimester (while allowing sufficient coverage of content before assignments are due); make clearer in classes the connections between results reported from psycholinguistic experiments and the content covering how language is produced and understood; bring in more real-world issues such as language breakdown and communication breakdown.

Student feedback on University courses may be found at www.cad.vuw.ac.nz/feedback/feedback_display.php.

Other important information

The information above is specific to this course. There is other important information that students must familiarise themselves with, including:
