Prescription

Further development of knowledge and application of technical and improvisatory skills in order to perform extended jazz repertoire on the student's primary instrument, and to reach a high level of proficiency as jazz instrumentalists or vocalists.

Course learning objectives (CLOs)

Students who successfully complete this course will be able to:

1. demonstrate technical proficiency on their chosen instruments
2. perform as proficient jazz ensemble musicians and soloists
3. recognise a variety of jazz styles, and improvise fluently in them, using advanced rhythmic and melodic techniques
4. demonstrate advanced artistic awareness and creative artistic expression in the jazz idiom, including through ensemble interaction
5. transcribe and play solos as prescribed
6. demonstrate a professional attitude in punctuality, preparation and stage presentation.

These learning objectives contribute to the NZSM Graduate Attributes. For a full list, please see www.nzsm.ac.nz/study-careers/graduate-attributes

Teaching format

This course comprises one 1.5-hour lecture per week, one 1-hour lesson, attendance at Performance Workshop, and master-classes as appropriate.

See attached course syllabus for more information including the marking criteria. These will also be available on Blackboard.

Mandatory course requirements

In addition to achieving an overall pass mark of 50%, students must:

- a) complete each item of assessment worth at least 10%.

Justification: sightreading and transcription are both essential elements of the jazz musicians' craft.

- b) where the item contains multiple subcomponents (e.g. a portfolio of journal entries, or similar), students must complete at least 50% of those subcomponents attend at least 80% of lectures, tutorials and workshops related to this course unless absence is due to verified medical reasons or advance permission for absence has been given by the teacher/lecturer.

Justification: lessons are given on a one to one basis, and are the primary place for feedback to be given. Students need regular feedback in order to improve their skills and avoid developing bad habits. Attendance and participation at classes and workshops is essential for these classes to run as they should, since they involve active input from attending students. These workshops help develop students' ability to critique their colleagues' performances and learn from each other.

- c) pass all keyboard assessments

Justification: All jazz students, regardless of their instrument, need adequate keyboard skills to give them a greater understanding of the harmonic structure of the music. Having keyboard skills also adds to their versatility in teaching and performing situations which is a useful attribute in their professional lives.

- d) attend a 10 lesson course of Musicians' Health classes.

Justification: Musicians are often susceptible to injury due to poor posture and/or technique. These classes are to improve students' awareness of how they are using their bodies, to help avoid potential injuries.

- e) achieve 50% or greater in the final performance assessment

Justification: The final recital is the summation of the student's year's work

For performance courses assessed by recitals, an aegrotat cannot apply. Instead, the student (with the written approval of the teacher and the Programme Leader, Jazz) must apply to the Director NZSM to have his/her assessment delayed. Any such delayed assessment must be completed prior to the start of the following trimester.

Any student who is concerned that they have been (or might be) unable to meet any of the mandatory course requirements because of exceptional personal circumstances, should contact the course coordinator as soon as possible.

Workload

You should aim to practice on average 4 hours a day. This includes transcription, reading skills and technical practice. Refer to the syllabus for more detailed information

A 40-point full-year course should require at least 400 hours work (including class time). This means that in term time, the midterm break and study week you should be prepared to spend on average 13 hours per week involved in activities such as attending classes, reading, listening to recommended recordings and preparing assignments.
