

### *AVANT PROPOS*

The plight of refugees is a matter of concern to many governments around the world. In the South Pacific there is a particular focus in the news on events in Europe and Asia, on the refugee policies of Australia and New Zealand, and on the impact of those policies on other Pacific nations.

In this volume the *Revue Juridique Polynésienne* presents a compendious contemporary overview of the matter.

The opportunity to publish these papers has been provided by the International Association of Refugee Law Judges and the continuing collaboration of the *Revue Juridique Polynésienne* and the NZ Association for Comparative Law.

Our thanks to all who have contributed to this publication endeavour.
