Personnel

Welcome Adrian Pike into his new position as a 0.25FTE Research Associate contributing to the work on biodiversity and pest monitoring the effects of 1080 possum control in the Aorangi forest.

Wellington Zoo Report

CBRE presented its second report to Wellington Zoo for its Conservation Fellowship evaluating the success of community road-reserve planting scheme.

Supporting student research

CBRE awarded over \$10,000 in grants for student research from across schools and disciplines.

Congratulations to:

Cheng Shi (Developing a water and nutrient budget for Matthew's Lagoon – Biology & SGEES)

Hari Iswoyo (Insertion of an ecological network into a city in a developing country - Architecture & Design)

Helen Taylor (Investigating the effects of inbreeding and the recent demographic history of little spotted kiwi)

Lindsay Mickelson (Patterns of corticosterone (CORT) release in tuatara before, during and after a translocation)

Anna Carter (Behavioural plasticity and energetics of nesting behavior of tuatara)

Victor Anton (Assessing survival and factors affecting the success of urban tree-planting restoration projects).

Funding Biodiversity Research

Substantial progress made in the first 6 months of CBRE's 3-year \$3million goal.
